FOREWORD

Every one hundred years, the Great Ones in charge of a planet are given a quota of Light Substance, or Energy, for use in forwarding Their plans on that particular Star. In the 19th Century, Those in charge of our planet used Their quota for that century in bringing forth the great Theosophical Society which did so much to bring the reality of the Masters to the Western mind and the world. Much was accomplished which enabled greater acceptance of Their later activities by that Western mind in both Europe and America. This was a part of the Great Divine Plan for redeeming the Earth and her peoples, and was the release of the GOLDEN PLUME OF WISDOM of the Threefold Flame - the Supreme Power in the Universe.

In the 20th Century, the Great Ones again invested Their Energies through Mr. Guy Ballard, to begin with, in bringing forth and establishing the "I AM" Activity, and the group activities from about 1935 to 1950 returned that energy through the singing, decrees, and the various activities of the groups all over the world. This was the release of the BLUE PLUME OF POWER, which quality, not being balanced by Love and Wisdom, could not continue to do its perfect work.

The BRIDGE TO FREEDOM has come forth as the PINK PLUME OF LOVE, which activity must be carefully guarded and supported always by Wisdom and Power that it remains DIVINE LOVE and does not become soiled by the outer mind's ideas of so-called 'love'. Thus we see the thread of Truth running through all these activities, and 'time and harvest' will prove the authenticity and God-effect of this New Endeavor.

MAHA CHOHAN

No. 1 March 29, 1953

The Great Karmic Board, through Sanat Kumara, chose the current thirty-day period during which the Easter Pageant would again be celebrated, as the time when Lord Maitreya Himself would outpour the Radiation and Blessing of the Cosmic Christ.

In order to give the chelas, particularly, and then the entire race the triple activity contained within the union of the Cosmic Christ Consciousness with the outer self, the Baptism and Benediction of the Holy Spirit and the Radiation of the Master Jesus Himself, beginning last evening and extending up through Easter Monday following the Resurrection Service, We shall, nightly, reenact the Spiritual Baptism of the Beloved Jesus, at which time the Cosmic Consciousness of Lord Maitreya joined His own Illumined Christhood and, through the Benediction of the Holy Spirit, prepared Him for the fullness of the Mission which He was to manifest before the sense consciousness of all men.

Last evening, as the moon poured down her silver rays on the gentle hillside of Kashmir, the Beloved Lord Maitreya entered the atmosphere of Earth, and our Beloved Master Jesus, walking toward Him, was received into His aura for that Spiritual Baptism before the reverent eyes of more than four hundred thousand members of the human race. At the moment when the full Rays from Lord Maitreya's heart flashed through the gentle Presence of Beloved Jesus, I, too, entered the picture and anointed His great Consciousness with

the Blessing which is the particular Gift and outpouring of My Office.

It is no idle thing to have re-enacted on the physical substance of the Earth plane these great Initiations and Mysteries which form the pattern for the evolution of every lifestream on the planet, both incarnate and discarnate. It is one thing to revivify the akashic and etheric records of a past activity and to have re-embodied lifestreams take the parts of the original actors and attempt to incorporate, through their own consciousness, the nature and feeling of the actual first participants, such as the good men and women of Oberammergau have done through the years, but it is quite another activity to have the original Cosmic Beings enter into that service again in the full-gathered Cosmic momentum of Their Light, and bring that experience into the feeling world of the outer consciousness of unascended beings.

On Easter Morning, we shall again proceed with the activity of the Resurrection, and We are told that We shall again have re-enacted, through the Body of Jesus, the actual vibratory action and RADIATION of the Ascension, and I, Myself, shall bring the release through the Service of the Pentecost.

It has ever been the Way of God to teach through example because the enacted scenes enter into the feeling and heartbeat much more deeply than the worded expression, and the outpictured Christ manifestations which were witnessed by so few during the Ministry of the Master Jesus are being drawn forth again within the seven day period so that all of the 200,000, at least, (and We expect

a great number of the Christian people of the world as well who will respond to the sympathetic vibration of Jesus' Ray), will be able to absorb the feeling of the Christ Activity as they see the Master Himself re-enact the exquisite manifestations of His Victorious Power over human appearances.

Each evening, Lord Maitreya will precede the pageant with a talk on the Power and Nature of the Cosmic Christ; and the Beloved Saint Germain, who so enjoyed the drama whereby lifestreams could present a lesson of some kind, together with some of the Chinese Beings who have inspired all of those exquisite plays through which the people of the East learn the Mysteries, have prepared the theme from the Life and Ministry of the Master Jesus, during which He made 'the blind to see'; 'the lame to walk'; and 'the dead to rise'.

Of course, We are eliminating all reference to the trial and crucifixion, representing the perfidy of the outer self, but have included the formation of the Lord's Prayer, the Sermon on the Mount, the silencing of the waves, the precipitation rendering the balance unto Caesar, and some of the lovely home scenes in which the Disciples, the Beloved Mary and Martha, and His own Dear Mother enjoyed the companionship and Friendship of His Presence.

For mankind this year, the Life of Jesus will be more real, and for the chelas and students He will become such a powerful Living Presence by reason of this service of the Holy Week, that they will be greatly helped thereby, and I only wish that We could have reached the student body in time to bring each member some phase of Jesus'

Victorious Accomplishment that they might present it to their collective groups preparatory to their entering the Heart of the Silence where We do such honnor to His Name.

Blessings and Love,

MAHA CHOHAN

Beloved Children of God, I bring to you the Blessings of the Easter Season.

The Spring celebration of the returning life that begins to pulsate through the responsive Earth, drawn forth by the magnetic powers of the Sun, is as old as life on the planet itself because, among the children of Earth, there were always those who were cognizant of the dependence of mankind upon the cooperation of the Forces of Nature for their very existence in human form.

The rhythm of the Seasons has ever been regulated by the Great Beings who offered to provide, through Their Presence within the aura of the planet, the atmosphere which would conduct the Rays of the Sun; the living, breathing earth through which the precipitation of the food and nourishment of the evolution could be accomplished and the crystal clear waters bringing refreshing, purifying essence in their presence; and the air which is requisite to life in a physical form.

Under the direction of the Maha Chohan of each age, the Nature Kingdom and the Great Beings who direct the Forces of the Elements have labored ceaselessly; and if it were not for Their constant unchanging cooperation and service, there would not be a lifestream that could live for one minute on the planet - were the air, the platform of Earth upon which the homes and the very feet of the people stand, the water element of which even their bodies are mostly composed, or the life and light of the Sun to be removed.

Under God-direction, the Life Force is drawn by those of Us who serve within the Cosmic Temple of Nature, and there great pulsating rays of intelligent energy are prepared to be released as the planet enters the Spring Cycle. It is a most glorious Ceremony when the great Devas of the Air, the Earth, the Fire, and the Water gather together, and the Cosmic Rays of another Springtime are anchored within Their bodies and They begin the great rhythmic release of the Resurrection Flame through Their bodies. The most beautiful music accompanies this ritual, and the Inner Spheres are alive with the Song of Resurrection and Hope.

It was for this reason that the Beloved Master Jesus chose the Springtime to fulfill the final manifestation of His Mastery, so that He might take advantage of the natural outpouring of the Resurrection Flame.

I was privileged to stand with Him from the time when He breathed His last breath on the Hill of Golgotha and I received that breath into My own body to preserve it for Him until He chose to call it back and re-establish the rhythm through His physical garment. Although I held the breath of His Life within Myself, the actual calling forth of that breath HAD TO COME THROUGH THE CONSCIOUS ENDEAVOR OF HIS OWN LIFE-STREAM, and if He had not been able to magnetize that breath, even though I stood by His side, I could not have given it to Him. However, at the appointed moment, His great purified Soul was enabled to take possession of that body - and in-breathe. At that moment, I stood close by His side, and from My own lips I gave back to Him the very breath He had breathed out on the Cross, and

again the rhythm of life animated His body, and the concentrated Resurrection Flame soon raised it into the vibratory action of His Christ Body and He easily burst from the tomb - the Victor and Example of Life Eternal to all of mankind who might choose to accept His Victory. Of course, if they do not, they can never hope to share in its Joyous Accomplishment.

Blessings and Love,

MAHA CHOHAN

This morning I have come from the Heart of India which, for inconceivable centuries of time, has been the Guardian Presence of the spiritual understanding by which mankind (if they choose) might fashion from the heterogenous mass of subtle ether which they call the soul, a fitting white garment of the spirit which, like the seed, contains within itself the pattern for the Immortal Ego.

Last evening, in a service in the heart of the Kashmiri Hills, We demonstrated, visibly, the development and purification of the outer consciousness to that point of development befitting the entrance of the Spiritual Self, in its fullness, into the possession of the entire personality.

The Soul of the mass of mankind, which has given rise to the innumerable stories of the supernatural, is a shapeless and impure mass of subtle ether that has been, on many occasions, perceived by those whose sight was attuned to the vibratory action of its inhabitant.

The Soul of the Initiate Chela and the Holy One, in which the experiences of life have been woven into mastery, purity and peace, externalizes, however, the well-defined form of the Pure White Dove - symbolical of the harmlessness and virtues of the beautiful harbinger of Peace - the embodiment of innocence.

When the Initiate has achieved within himself

that consciousness whereby the Dove is externalised within his own aura, such an one is ready for the Spiritual Baptism, and to him comes Lord Maitreya in the fullness of His Glory; and to him come I, the Holy Spirit, and into that consciousness, evolved through centuries of righteous living, is released the full pressure and power of the Christ Self.

Such an one becomes, then, the 'only-begotten Son', and his Mission, like that of the Master Jesus, is to externalize the Will of the Father who sent him.

Here we see that no external mark, no word, no advocate can mark such an one for this Visitation; but rather the substance and energy of each life fashions, one day, the Chalice which is worthy of the Christ Power - Incarnate.

Blessings and Love,

MAHA CHOHAN

Beloved Sons and Daughters of God, to attempt to describe to you the beauty of the Council Chamber belonging to My Son, El Morya, who is representative of all that is majestic, dignified and exquisite, not only in the Realms of Life Eternal, but on any planet to which He chooses to give His attention, would be like trying to paint the sunrise in words.

The Chamber in which the Crystal Flame of the Divine Will of God is kept is not open to any unascended beings, but the great Council Chamber in which We all gathered last evening seats well over five hundred guests. The beautiful Altar is outlined in diamonds and sapphires, and the circular nave behind it is made up of three great blue stained-glass windows which, with the Light shining through them upon the Altar, brings to the consciousness of those assembled there something of the radiance and color of the beautiful First Ray.

The Brothers had arranged a beautiful floral display upon the Altar composed of the exquisite French Iris, so similar to the Fleur-de-lis of France, combined with the lovely white Jasmine flower so beloved by the people of the East.

The Assembly gathered about an hour before the Ceremony was to commence in order that all might blend Their breaths in that rhythm that forms a mighty force and momentum, and is the initial impulse of the Transmission Flame.

Before the Ceremony began, an acolyte carried from the ancient Holy of Holies and placed upon the Altar the Grail and the great Diamond Spear which Beloved El Morya has had in His possession since the time of King Arthur, and which are symbolic of the two activities embodied within the Will of God.

The GRAIL signifies the consciousness upheld, into which is poured the Divine Will, along with the inspiration of the Divine Plan to manifest this Will of God; and the SPEAR signifies the projecting forth of the energy into action and accomplishment.

In the East, many have completed the action of the Grail, but it is to the West that We look for the action of the Spear in the manifestation of God's Will through the actual energies of each lifestream.

Every branch of the Great White Brotherhood was represented at the Council - each showing the color of the Retreat in which They serve on the cowl which They wore thrown back over Their white robes; and Their degree of Mastery was made known by the crest embroidered in the same color over the heart.

Our Beloved Sanat Kumara carried the Rod of Power from Shamballa, and His exquisite raiment was symbolic of His Office as King of Kings. With Him came Lord Maitreya who carried a number of Scrolls each bound with golden thread, representing missions to be delivered to certain members in the Assembly after the Ceremony.

Beloved Lord Buddha and Ananda both came

dressed in simple white robes of coarse fibre - with a lei of flowers around Their necks. The Seven Great Chohans each had chairs placed in the order of Their rank, although Beloved Kuthumi, as Recorder of the Ceremonies, did not occupy His chair; and the chair of Beloved El Morya, as Director of the proceedings, was placed on the Altar platform.

At a given moment, there appeared in the atmosphere over the palace, a gorgeous canopy of Blue Light projected by the Great Elohim of the First Ray, the Mighty Hercules, and the Great Silent Watcher of the planet, in a luminous body larger than the entire globe, stood in the atmosphere and seemed to hold the planet within Her arms. She, too, wore blue, but it looked like the soft blue of the sky on a clear day.

The hillsides all around Darjeeling were crowded with pilgrims and holy men who live but to obey the magnetic pull to any location which their meditation reveals within their hearts. They are known as "wandering mendicants", free as the wind, led here and there by the concepts and purposes not easily discernible even to their own fellow-countrymen. The light from a hundred thousand campfires made their presence known upon the hillsides.

It was not surprising to Us to see Mahatma Gandhi enter the Chamber in order to avail Himself of the opportunity, at the completion of the Transmission of the Flame, to walk among His countrymen; and there were many among them who saw His Presence. Here, I wish to say, for the enlightenment of the outer minds of My gentle readers, that in the sweetness of His Ascended

Master Body, He is not the grotesque little man whose Light blessed India, but is rather a majestic, serene and dignified Presence, not unlike the great Gautama Buddha himself.

From the heart of the Himalayan Mountains came the great God, Himalaya - His exquisitely carved and delicate Oriental features emphasized by the simplicity of His raiment. The Ladies were represented by Kwan Yin who wore Her hair piled high in Oriental fashion and held in place by three beautiful fan-shaped combs of diamonds. The Beloved Nada, Leto and Mary, as well as many other beautiful Goddesses, all wore robes of various shades of blue. The Goddess of Liberty presented a predominant figure among the Ladies. She came dressed in a robe of exquisite sapphire blue, and wore the seven-pointed crown of the Lords of Karma, which august Body She represented at the Council.

The chelas who, by merit, and not by outer position, had earned the right to enter the great Council Chamber, were seated back of the Brotherhood, and then, when all was in readiness, through that magic, mystic accomplishment known only to the Higher Consciousness, the substance of the walls of the great room seemed to dissolve so that millions on the hillsides might not only have the benefit of the radiation from the Assembly, but could also experience the joyous upliftment of actually seeing the Council in action.

There was a sponsor for every group representing the outer world education - such as statesmen, artists, musicians, brotherhoods, as well as all those interested in healing, and a great number from the Christian Dispensation came who are

feeling the action of this Flame, and almost the entire student body of Saint Germain was present.

The Beloved Master Morya entered the Chamber just before the breathing was to begin, and as He stood before the Altar, the Crystal Flame within the Chalice rose upward something like the flame from a physical fire. It then spread out in the form of a great Lotus Flower, and at a given signal from the Master, the entire Assembly, including the Great Ones in the atmosphere above, breathed it in, blessed and qualified it with Their own Consciousness, and then directed it forth on its journey from place to place across the surface of the Earth. It swept into Shamballa, and from there to Suva, and as it went, it spread until it permeated every atom and cell of the Earth; and the consciousness of every lifestream, incarnate as well as discarnate, received a clarity that will enable the Holy Christ Self of each individual to reach the intellect more easily.

Each time, when the Flame had swept over the Earth, it returned to its starting place, and the Brothers sent it forth again and again, its action becoming more and more rapid until it seemed as though the planet were a blazing Crystal Star. As this Crystal Ray was breathed in, either consciously or unconsciously, by the people, it began to melt the heavy dark substance in the mental bodies, some of which had been condensed there for millions of years. This action will continue during the entire period that El Morya's Retreat is open, and those people who are endeavoring to present Truth in any form will find that the wall of prejudice will be broken down considerably during the activity of this beautiful Crystal Ray which represents God's Will.

When the Master El Morya descended from the Altar platform at the close of the Flame Activity, His place was taken by Sanat Kumara, and a new action was set into motion pertaining directly to the government of the people - which will be manifested in due time.

Blessings and Love,

MAHA CHOHAN

Each beloved Child of God has been created by the great Eternal Parents to fulfill some glorious Destiny through the weaving of the individual energies of the lifestream into the Tapestry of the World Plan.

Within the Consciousness of the Great Silent Watcher of the planet Earth is held that individual Divine Plan, as well as the glorious vision of the completed evolution with regard to the Earth and all its kingdoms. The Christ Self of every lifestream presently engaged in contributing energies to the atmosphere of Earth steps down the Divine Plan for the individual and becomes the Silent Watcher of the evolving soul.

Through the constant drawing and qualifying of energy through the centuries, the instruments (physical, mental, emotional, and etheric bodies) of the race have become so heavily charged with impure substance that it is difficult for the outer waking consciousness to catch even a glimpse of that individual Divine Plan in order to co-operate intelligently in endeavoring to externalize it. Yet, until the outer consciousness can be purified and attuned to a point where the intelligent God-direction may flow steadily in an uninterrupted rhythmic outpouring, the entire planetary evolution is 'locked', so to speak, in the blind gropings of the earnest, but uncomprehending endeavors of the personal self.

While the Great White Brotherhood is focusing

its attention and the power and momentum of its individual and collective Light at Darjeeling, it enables the Beloved El Morya to draw all that energy into the Crystal Ray of Divine Perception and Comprehension for which earnest students are so sincerely calling, and then, with the cooperation of the Cosmic Silent Watcher, the individual Christ Self of each member of the human race receives a directed Ray from this Cosmic Focus into its own Electronic Heart. This is a specifically added concentrated Ray of Power and is not to be confused with the natural flow of Electronic Light from the Central Sun which forms the lifestream.

As the individual Christ Self, rhythmically, on the hour, receives the added charge of this Crystal Ray into its Heart, it directs that Ray through the Silver Cord and into the mental body of the student, wherein are lodged concepts, thoughts and beliefs that have been accumulated by the soul for millions of years. Some of them are so deeply embedded, and so far recessed from the so-called 'conscious mind', that the individual himself has no concept that there is yet so much of the voodoo and the fakir in his inmost acceptance of things as they are. Through this accumulation, the God-direction must flow; then, through the further confines of the physical brain structure, each cell of which is charged with the thought patterns of centuries, because the same elemental substance is used over again in succeeding lives.

When the Christ Self surges this Flame through the mental body, it is like the opening of a sluice in a great dam, and the rush of pure energy sweeps out tons of this accumulation, loosening other

older and more concrete substance, and gradually the process of purifying the mental bodies will be completed, although the process itself is likely to stir up certain energies that are both surprising and distasteful to the individual. May I give you the comfort of reminding you that all actions of the Presence of God are blessings, and so receive this purification in Joy. The action of the Crystal Ray through the brain structure then renders the same service in quickening the actual vibratory action of the cells in the brain, and helping them to throw off the accumulations which make reception sluggish and spasmodic. The Beloved Morya is determined to open the channels of the individual's consciousness to the Higher Mind and the Will of God, and knowing His Will, I am happily convinced that it is about to be accomplished.

Blessings and Love,

MAHA CHOHAN

We are very interested in the tremendous forward impetus that is being experienced by the chelas at the present time in the coordination and cooperation between the inner and outer selves. This cooperation is the necessary forerunner of the expression of God's Will for the people of Earth.

It has been to gain this cooperation, assistance, and willing, loving understanding of the outer selves, that We have been waiting through the centuries, and now that We have found lifestreams, unascended, who are willing to dedicate the vehicles loaned to them by the Presence of Life for the sole purpose of expanding God's Kingdom, We can begin to go ahead with tremendous power and speed and action in releasing those plans and ideas which will form the foundation of the New Day.

The Spiritual Hierarchy formulated and perfected, long centuries ago, the Design for the planet Earth and her people, which is in accord with that of the God-Will for the Universe. We have but awaited the voluntary cooperation and assistance of the mankind of Earth who were to be the beneficiaries of all the good that has been planned and designed for the people before lowering it into physical form.

The awakening of the individuals who have already turned their thoughts and feelings Godward fills Us with Joy in the promise that if We

can sustain their attention until the human accumulation can be dissolved to a point where they can become intelligent co-workers with Us, We shall have formed a fine Bridge from the human to the Divine strong enough to bear the weight of the Cosmic Plan that, in its fullness, will bring assistance and freedom to the entire race.

At present the great task is to sustain the enthusiasm and application of those who are to be the Bridge in consciousness while We work, with almost feverish haste, to repolarize their outer vehicles, dissolve their accumulation, and purify their lifestreams to a point where the desire of their hearts is coupled with the efficiency of their instruments.

This period of purification, polishing, raising and harmonizing requires the patience of the outer selves as well as every assistance that can be given from Heaven and Earth to accomplish the necessary transition of nature, so that the perfection promised can become form in even a limited number of cases, thus giving the necessary courage and confidence to the greatest number of potential co-workers to sustain their application in the knowledge that, like fruit, will grow upon their trees.

Enthusiasm, patience, constancy, zeal and confidence in the hearts of the fore-runners for yet a little while will enable Us to show that Our words are Truth, Our promises are Life, and Our Friendship is a tangible force for the betterment of the planet and her peoples.

I am deeply grateful for the many letters that have reached Me from all the loving hearts that

My words have reached, and let Me say that these responses and gifts are Our encouragement and hope in the arduous task to which We are dedicated.

Blessings and Love,

MAHA CHOHAN

On the Anniversary of the day dedicated to the remembrance of Motherhood - human and Divine - I take pleasure in drawing the curtain aside to allow My earnest students the opportunity of seeing the inner action of the Comforting Cosmic Law by which Justice, Mercy, Love and Balance are ever operative in the lives of mankind - appearances, judging by human standards - notwithstanding.

Reincarnation is truly a mercy to the soul evolving in the present atmosphere of the planet Earth because the accumulation of individual, national, racial and planetary karma is such that a respite from struggle and from the necessity of mitigating the evils of the past causes is essential to ensure the continued existence of that soul with the qualities of hope, faith and determination to persevere until the soul is consciously absorbed into the Christ Self and Immortality of the ego is assured. The souls of mankind, after passing through so-called death, sojourn for a time in those inner realms to which they have fitted themselves by the qualification of their energies in the past Earth life. All such are given instruction and assistance according to their capacity to understand, absorb, digest and assimilate the Truth of Life, and none are committed to punishments for the sake of chastisement, although some, through learning the lessons of cause and effect, do temporarily suffer, and in that suffering, build into their consciousness a realization of right and wrong.

Because of the tremendous personal karma of the majority of lifestreams, the Cosmic Law and the Lords of Karma do not allow more than a third of the lifestreams belonging to this evolution to incarnate at the same time, lest the combined weight of their karma bend the axis beyond its present strained strength. In the course of each twelve month cycle, however, due to the multiplicity of births and deaths, this general figure varies slightly, but not enough to seriously affect the physical safety of the globe.

However, once in each year, during the beautiful and mystic month of May, the Lords of Karma draw together all the lifestreams that have been chosen to incarnate within that twelvemonth cycle. I render the same service through the Kingdom of Nature, and at the same beautiful and impressive service, ALL the potential mothers of the race are also brought, in their finer bodies, to the Assembly, and each soul meets and embraces the mother chosen, for reasons of past ties, karmic debts, or potential service, to be the channel through which the soul shall secure a physical garment. If either the child or the mother chosen by the Karmic Board does not approve of the alliance, they are given the opportunity of speaking, and then the Christ Self of each soul - child and parent - makes the final decision. If the lesson to be learned will best benefit the soul, even if there is an antipathy between the two, the union is inwardly consummated, and the Builders of Form take upon themselves the assignment of fulfilling the Law's command through the year. For the vast majority of the race, this beautiful Ceremony does not entail too much detail or too much time, but when the Ceremony takes place by which a High Initiate, such as the Beloved Jesus,

and Mary, His Holy Mother, were joined together, it is a glorious and impressive Ceremony which remains forever in the heart and consciousness of the observer.

In the case of the Beloved Jesus, after His Mission had been accepted and He had been blessed by the Lord of the World and His own Teacher, Lord Maitreya, the Blessed Mary volunteered to go before Him and be the channel through which His Love and Light might reach into the consciousness and world of mankind.

I remember well that beautiful Ceremony when the great Lords of Karma, all wearing pure white robes and crowns of blazing gold, called the Christ Self of the Blessed Jesus before Them and asked if He was willing to perform the service which had been laid out to His inner vision. I remember well the clear ringing tones of that Beloved One as He accepted the Mission.

Then, from the arched doorway, the Vision of Eternal Motherhood stepped forth. A wreath of flowers similar to lily-of-the-valley was woven into Her hair which cascaded like a golden sea over Her shoulders. So slight and delicate was Her form, and yet there was such tremendous strength in Her Presence. Her garments were of the delicate 'Mary Blue' which has since become the symbol of dedication to Her Services. She stretched forth Her arms toward Jesus, held Him for a moment in Her embrace, and then as They knelt together, it was My great privilege to bless Them both. As it is part of the Office of the Holy Spirit to breathe the first breath into the nostrils of the newly born, and to take, with compassion, the last breath from the passing

soul, in that part of the Ceremony which is repeated for every incarnating lifestream and the mother, I asked: "Have I the right, My Children, to loan to You the Immortal Breath of Life?" The responsibility of accepting the breath lies entirely within the free will of the soul, and to give the opportunity of accepting that breath lies within the free will of the chosen parent. Both of Them then placed Their hands on Mine and said: "You have!" Then I said: "In the Name of the Holy Spirit, I consecrate this union, and at the time of physical birth, I take the responsibility of breathing the breath of life into the lungs of this infant. So be it!"

At the close of the Ceremony, the Holy Ones, in turn, blessed all the other lifestreams, including the little four-footed creatures who were to be given an opportunity to redeem the energies in which they found themselves imprisoned. Such is the care and kindness by which lifestreams are joined together; always with the greatest possible personal and individual benefit to all concerned; whether it be in the balancing of debts to life, or whether it be in the furthering of some Cosmic Cause.

So, to all My readers, beside whose mother I stood at the time of your birth, I bring My Blessing this Mother's Day, with the assurance that, at the close of this embodiment, I shall again stand ready to accept that precious loaned Breath of Life from your soul, and with the hope that I may say, truly: "Well done, My child!"

Blessings and Love,

As the great Resurrection Temple opened its doors to the mankind of Earth, the pure white Flame from its Heart reached up beyond the ten thousand foot level, opening the door into the Octave of Light, and connecting the Resurrection Temple on Earth with the Ruby Temple of Jesus and Mary in the Sixth Sphere.

It was a beautiful and majestic sight to see the Brothers and Sisters of the Resurrection Flame in Their white robes embroidered with the lily, honoring the Presence of that Resurrecting Power, without which no man can enter into his Christ Estate.

As We had celebrated Ascension Day on the evening preceding the first public meeting (the 15th of May), the tremendous currents of the Master Jesus had greatly accelerated the power and intensity of that Flame, and its pulsation could be felt that evening by even the unawakened outer consciousness of those living in close physical proximity to the Holy Land.

As the Flame was directed around the Earth and accepted through the cooperative endeavors of the beloved students, We endeavored to charge the feeling, power and Mastery of Our own Consciousnesses into each one's acceptance of that Restorative Power to act within his own conscious world and personal activity.

Because the great Powers and Foci of the God

Authority are only as important to the mankind of Earth as their acceptance of Their reality will allow them to be, I, who have used the Resurrection Flame to bring forth the beauty of each Springtime, can bear witness to this great impersonal and potent Power, and it is My hope that My FEELING of the Power within the Resurrection Flame to act in the lifestream of every chela will, perhaps, pierce through the outer consciousness sufficiently so that each one may grasp that Power and set it into action in his own world.

The Beloved Master Jesus spoke on the Ascension and He told, so simply, the story of the conscious descent of the individual lifestreams into form, and explained that the moment of the Ascension for each individual was determined by the specific service that lifestream was destined to render in the evolution of the planetary scheme, and that it was not necessarily merit which allowed some individuals to complete their course more quickly than others, but sometimes it was that their service was completed in a shorter time, for none may return Home until the fiat of his own God-Self (which forms the motivating power by which the lifestream incarnated) is successfully accomplished. Then, and then alone, does the Call of the Presence come, and the individual, his service completed, may, if his inner bodies are in order at the completion of that service, accept his Freedom.

Here again, however, is the fine point of the Law. The service of the lifestream may take the soul down the whole course of history, and the circle of that ego's completed incarnations encompass the entire recorded time in the history of the planetary evolution; or the circle of the

lifestream's service may be a small one, requiring perhaps no more than two or three incarnations; but, in the performance of that service, whether it is as early as the Spring Violet or as late as the Autumn Aster, the condition of the inner bodies will determine how long after the service is completed it will be before the soul may accept the release from the service and return Home.

Those people whose service is well done, if they have not 'soiled hands' or 'impure hearts', may enter at once into the glories of the Kingdom.

This portion of the Law has not been elaborated upon, but I bring it to your notice because at the instant that the Master Jesus completed His Mission, the condition of His inner bodies and soul was such that He could accept the Freedom and Ascension into the Heart of His Electronic Body. Other blessed ones, in the long tedious course of living and service, when the final line which marks the periphery of their outgoing activity is reached, and by Cosmic Law they should be released from the wheel of birth and rebirth as the Christ Self speaks the words: "It is finished!", find that, in their service, they have so distorted the condition of their inner bodies that they are not ready to accept the invitation of the God-Self without some purification and the re-establishment of harmony and balance within the instruments of service.

Beloved Jesus, in speaking, described the necessity, while serving, for the soul to find time to prepare itself through the clarity of peace and balance of purity of the inner bodies so that when the mission is fully accomplished, it may not be necessary to spend centuries of

personal application which is required to redeem the instruments by which the mission was accomplished, before they enter the Kingdom in its fullness.

This is an action of the Law which must be stressed through the consciousness of mankind, and it is one reason why We are enabled to give more than ordinary assistance to certain lifestreams to balance and purify the distortion of the inner bodies which has resulted from a personally rendered service.

The address was tremendously instructive in its simplicity, and particularly efficacious because the consciousness of the Christian World, as well as the chelas, has accepted the Ascension of Jesus and are willing to listen to the Word because He manifested this Activity in action.

I would ask each student to make daily preparation in learning, through the control of the energy of their various bodies, to reach that Peace Haven within themselves in their dealings with others, that if their call should come in any hour, that the condition of their inner bodies might be such that they could slip easily into the Glory of the Kingdom and not be detained in some lower sphere until the energies of the inner bodies are fully redeemed and the lower nature entirely transmuted into the Divine.

When we look at the flow of energy from the Heart of the Presence, we see a rapidly pulsating river of prismatic Light. If we were to slow down the vibratory action of that life energy, we would see that the electrons making up the Flame of the Presence carry a distinct design which differs from all others, even as the geometrical perfection of the snowflake is singular.

As this energy is moulded by the thought and feeling body into form and sent forth into the universe, it carries the plan of the original design of the lifestream. That energy goes forth in a handclasp, so that the individual receiving the handclasp, when the hand is removed, has upon the palm, superimposed over his own energy, many thousands of these tiny forms representative of the lifestream of the giver. The second individual then goes on his way, performing one act or another, yet he carries with him some of the energy from his friend, and this is how one's energy passes on in an endless chain from one to another in handclasps and other services requiring contact in different modes of service until the energy from each one goes out to many, many parts of the planet. The outer world has touched the fringe of this in their science of personal magnetism, but they refer to the human effluvia which covers the pure particles of Light, whereas We refer to the life structure and picture within.

The manner in which the particles are charged forth determines the resulting effect upon the

lifestream releasing them. The energy may pass to another in a handclasp, but the predominant feeling in the emotional body as it goes forth, will determine whether its passage through the universe carries friendship and love or otherwise, and in its return circle, of course, it will pick up vibrations only similar to its own, and so its return again unto its source, brings amplified a millionfold, the initial vibration with which it was sent forth.

If a woman could see the sparks of Light going forth from her fingertips when she is cooking, and the substance of Light that goes into the food she handles, she would be amazed to see how much of herself she charges into the repasts that she prepares for her family and friends.

It is one of the most important and least understood activities of life that the radiation and feeling that go into the preparation of food affect everyone who partakes of it, and this activity should be unhurried, peaceful and happy. It would be better that an individual did not eat at all than to eat food that has been prepared under a feeling of anger, resentment, depression or any outward pressure, because the substance of the lifestream performing the service flows into that food and is eaten, and actually becomes part of the energy of the receiver. That is why the advanced spiritual teachers of the East never eat food prepared by anyone other than their own chelas, and if the individual who sometimes is possessed of the only advanced spiritual understanding in the household, and who seems to have little time for personal application, would make the preparation of his or her culinary efforts an active charge of Happiness, Purity, Peace,

Opulence and Freedom, what the other members will not get by study, they will eat. I might say that there are more ways than one of allowing the Spirit of God to enter the flesh of man.

The pattern of your lifestream is a beautiful design, and the electrons that make up your Presence are all composed of that original form. The Light flowing from your Presence into your heart also contains that form. For instance, the electrons that form the body of Saint Germain are in the shape of a Maltese Cross; and those of Lord Buddha are in the form of an open lotus. When those individuals speak, the words that proceed from their mouths and set up vibrations in the universe are made up of countless millions of tiny crosses or flowers. When They raise Their hands, the electrons passing from the hand are composed of myriads of tiny forms representative of Their lifestreams. The atmosphere around Them is filled with millions and millions of these tiny forms going out into the universe. The places where Their feet have stood have the imprint of these tiny electronic patterns, and that substance is superimposed upon the garments that They wore, the rooms in which They lived, the trees that shaded Them, and the beds Thy laid upon.

The most powerful concentrated designs are closest to the physical body, or to the place where the individual abode during his last incarnation, and that is why you will find a certain identity in Spiritual Centers where great men and women achieved knowledge and spiritual victories.

Your home, your environment and your personal effects are, likewise, powerfully charged with the electronic pattern of your lifestream. That

pattern itself is neutral, but the feeling that your energy released through it determines its radiation. It is like your fancy cookie cutter that will make a form out of mud or dough. When the pattern of your lifestream is charged into the Universal Light Substance, if your feeling is harmonious, its radiation will be of benefit to all life; if the feeling is inharmonious, it still carries your pattern, and as it proceeds from you into the universe, you will bear the responsibility for all the life it affects discordantly before it returns in its circle to you. There is no man who can stand before the All-Seeing Eye of God and deny the pattern of his own life energy imposed upon any part of life constructively or destructively, for where your 'stamp' is, like your footprint, there is where you have been, and you must answer to life for what was done there.

The Master Jesus used His hands, almost constantly, as conductors of the energy drawn from God, and charged, through the electrons of His great lifestream, with Healing Power for those requiring assistance. He and His Disciples healed by the 'laying on of hands'. In this manner, the electronic particles of the Master's energy were charged into the physical structure as well as into the mental, emotional and etheric bodies of those requiring assistance. These particles of Light remained with the individual and radiated the feeling of the Master long after He had proceeded on His way. His purpose in this was to sustain His Consciousness in the individual thus assisted lest the mass mind draw him back into his former way of thinking. Everybody close to the Master Jesus in that embodiment was literally covered with the 'Star Dust of His Light' which

was as tangible a Robe of Grace as was the white garment which He wore. Likewise, the whole planet was benefitted by the radiation of His Presence.

Therefore, be careful how you speak because every time you speak a word, energy rushes forth from your mouth and creates a thought-form composed of the pattern of your lifestream. If Saint Germain were to pronounce the word 'cat', that form would be composed of myriads of little open-ended crosses; and if Lord Buddha said the word 'cat', His thought-form would be composed of tiny lotus flowers. It behooves us, then, to be careful how we use our energy because, according to the manner of sending it forth, do we receive Happiness or otherwise in its return.

Blessings and Love,

MAHA CHOHAN

I would like to describe to you the Heart of God. It is a task that I cannot, faithfully, put into words, but I would like to at least stir your interest to the point where you begin to journey, through the medium of your consciousness, deeper and deeper and deeper into that Stillness which forms the Sacred Heart from whence has come forth into being this Universe and all of us - small and great alike.

It is HOME in its truest and deepest sense. It is Security and Safety and Understanding and Love without censure and Peace without price. It is Light such as the most exquisite sunshine that your imaging faculties could conceive, and yet It is as restful as the twilight. It is as silent as the sun in the heavens in the performance of its Cosmic duties, and yet it is filled with sound in perfect Harmony. You might say It is every pair of opposites in their perfect sense - without dissensions or imperfections of any kind - for every quality has two poles - silence and sound - activity and stillness; although mankind has falsely created in this world of form an opposite to Love, which is hate - an opposite to Silence, which is noise.

However, within this great Cosmic Heart is a Realm; Saint Germain calls it the Great, Great Silence. Jesus called it the Kingdom of Heaven. Others call it the Sacred Heart. David called it the Secret Place of the Most High. I call it the Power of Love Divine; but whatever Name it is

called, it is the ultimate Goal toward which all Life is journeying, and it can be experienced by the evolving consciousness of any unascended being when he has become still enough.

Once you have entered into the Heart of that exquisite Stillness where you will meet with every Being who has mastered the outer self; where you can see the full design of God's Plan for every creature; you will, like Myself, never leave it again; but you will work from within that Heart, abiding in Perfect Peace. Your physical heart is a replica of the great Cosmic Heart of the Universe, and through the door of that Heart you can enter the place of Stillness, and you will find it increasing and becoming more tangible as you practice the cultivation of that Inner Peace.

I smile when I see the mankind of Earth so intent on travel and vacation when they may go into this Inner Realm on a breath and come back more restored than any resort or any physical sunshine or water spa could manifest for them.

Dear children of My Heart, I implore you to enter deep, deep, deep into the Heart of the Silence and KNOW for yourselves the Fullness of Life that is there for your health, enjoyment, prosperity and PEACE.

Blessings and Love,

MAHA CHOHAN

Humility and Grace are both of Spirit alone. Neither can be brought under control by the outer senses of man, for each quality is given through man by the Breath of the Spirit of Life.

Humility is an inner reverence letting the Power of Life express or flow through the Cup of one's consciousness with no effort of the outer senses. In this way, Humility, like the Sun from the Heart of Helios, flows forth in quiet gentle streams of life - a blessing and an anointing on all life.

Grace of the Spirit is that beauteous, joyous, effervescing Happiness of Life that, from within the hidden inner depths of man's hearts, makes each of them a delightful companion to all everywhere - be it in Heaven or on Earth. The Grace of Spirit shines forth from him who knows his oneness with all life; who is willing to join himself with other forms - no matter where - thus making a greater, firmer bond of Spirit whereby man shall know himself AS Spirit - not flesh.

Dearly beloved hearts of Mine, I offer to each of you the Gift of My own Humility and Grace of Life. It may be for you, each one, a living, breathing, pulsating, eternal Reality with each breath you breathe if you so desire. It needs only your acceptance, and then sustained consciousness of that oneness with Me. This does not mean that your thoughts must constantly be on Me, but each one of you must learn to live where

"I AM". This means, dear children, away deep - much deeper within your hearts than most of you have yet gone - "I AM"; and THERE is the Loving Gift and the Consciousness of all that "I AM" and what it means.

Within the Secret Place of your own heart you will contact your own Divine Identity, and there, also, may be found the Gifts of all who are of the Heavenly Consciousness. Again we see the meaning of the Master Jesus' words: "Seek ye first the Kingdom of Heaven (your own Christ Identity) and all other Gifts of Consciousness shall be added unto you." So often has man heard the words 'man is but consciousness', and they remain but 'words' for him. Raise your own consciousness, by an effort of will, from the human or outer man's thinking, and fasten it to the mind of your own Higher Self within. In this way, your creative faculties will be raised, and you will find yourself thinking and feeling like unto your own Christ Self.

Beloved ones, you are known by and express your form of consciousness each moment that you breathe. Man expresses mostly from the outer consciousness of himself, yet if he will identify himself with his True Identity, then in Truth will he express the Consciousness of Heaven itself.

"The Kingdom of Heaven is within"; also "the Kingdom of Heaven is at hand" are words spoken so many centuries ago, and yet man has not learned to BE this beautiful Being which IS his TRUE IDENTITY.

Enter deep, deep, deep within until you find the 'I' of you; then kneel, in spirit, and be

enfolded in its Divine Embrace and absorbed into its way of thinking and feeling. Beloved ones, I welcome you, this day, into the Inner Consciousness of Spirit, and ere this year has flown, there shall be those of you who shall move wholly and eternally free as Spirit upon this Earth and also in the Higher Octaves of Light where your Ascension is assured.

Blessings and Love,

MAHA CHOHAN

Dearly Beloved:

This week, I present for your enjoyment, a short description of the preparation made by the Brothers at the great Rocky Mountain Retreat for the opening of the half-yearly Grand Council of Ascended Masters in charge of the evolution of our planet. These remarks were made by our Beloved Brother, Lanto, the Master in charge of this Retreat.

ADDRESS BY BELOVED LANTO - JULY 1, 1953

From the other planets of our System; and from other Uinverses, the Lords and Masters of the Flame gather for the Cosmic Moment as the great half-yearly Council, which is held at this Retreat, begins.

The Cosmic Law opens the barriers that keep universal schemes from inter-blending, and from all the Stars, Volunteers of Love descend on pathways of Flame - Their Light increasing as They approach the great meeting place.

The Hosts of the Rocky Mountain Retreat, in Their golden robes, welcome the Divine Messengers, the Air Devas, the Angels, the Masters, and the Solar Lords. The whole atmosphere is ablaze with effulgent Light, but as we become accustomed to its radiance, we can distinguish the Masters with Their chelas in groups.

Kuthumi with His chelas - the teachers, educators and parents of the race; the Master Morya with the Government officials who make up His group; Hilarion surrounded by the etheric bodies of the doctors and nurses and scientists. The largest group of all is around the Lord Buddha - made up of the Holy Ones of the East. The next in size and radiance is the Lord Jesus with His Christians - ministers, missionaries and good people of the various Christian sects filled with the serious intent of doing good and drawn hither by their desire to serve life and to contact the Master in their inner bodies. Saint Germain, our Shining One, is surrounded by His students and the etheric bodies of all those interested in the work of the New Day. High in the atmosphere, seven golden thrones have been prepared for the seven impassionate and serene Lords of Karma who are to preside at the Council Meeting. Over all, the fragrance of the lotus and the rose mingle, and the Music of the Spheres fills the air with Harmony and Peace as the magnet of Love draws from the human race all those whose desire and design is for good.

When the Meeting is called to order on June 30th, each Master presents, in color and radiance and fiery word, His Plan and Design for the balance of the year to come. Then, the Voice of the Lords of Karma will ask: "Where is your sponsorship? What can you offer the Solar System in place of the release of this Light and Mercy for which You ask?" Then the Master turns to His chelas and asks that they emit their Light and, according to the Light emitted by all His chelas in unison, is the Master granted a release of certain authority and dispensations to fulfill His Plan. If the Light is great, His opportunity to fulfill His Plan is

likewise backed by Cosmic Law. If the Master has little or no sponsorship from unascended beings, these great impersonal Lords must, perforce, refuse His request. Many petitions are presented at these great Council Meetings which would improve the conditions of the race, but due to lack of interest on the part of humanity, they must be set aside until such time as the majority of the people of Earth sincerely desire that those qualities and conditions asked for by the small minority and invisible Sponsors of the race, be granted. The chelas may sponsor several Masters' services, and when the Call for Light is made, they may join other groups and add theirs to the Flash of Light which is the Judgment of His Plan. Thus is decided the fate of our nation and of all peoples.

As we approach another of these great Council Meetings, I would urge that each earnest student make a heart call to the Christ Self of every member of the race, discarnate as well as incarnate, to be present, bringing the etheric bodies of their lifestreams with them that they might observe, firsthand, the efforts being made by the Guardians of the race for their redemption and Ascension. This should have a salutary effect upon the outer personality because the conviction of the Divine Plan, charged into the inner bodies through attendance at these impressive ceremonies, cannot fail to reach the intellect and awaken it to its responsibilities - not only to the life that beats its own heart, but to all life in general.

Blessings and Love,

MAHA CHOHAN

Beloved Children of Life and Light:

This morning, I again bow before the exquisite stream of electronic Light flowing so constantly, so joyously, and so happily from the Heart of the Great Sun itself into and through your human forms, and containing, within itself, all the potent powers which man has called mastery over circumstances.

Looking at the form and essence of this pure Light as it flows to the individual, which appears like billions of beads of Light strung together, making a river of electronic substance, it becomes My Heart Desire, as well as that of all those who witness the entrance of the God-Light into the body, that We might convey to you the comfort and the knowledge and power that lies within your own Light to fulfill all your needs, and yet this great river of force flows through you, for the most part, unclaimed, filling the aura of each day with nothingness.

The great world of science has said that if they could build machines powerful enough to crush the atom, that from the energy released, one tiny molecule would be enough to carry a great ocean liner across the sea, and yet, in the course of a second, each one receives into his own heart (unrecognized) many countless billions of these atoms that pass out into the universe, unused, because man has not learned the power that lies within his own lifestream - just like an orange

that lies upon the table untouched, or a nut from which the kernel has not been extracted. One could sit for days with both these articles of food within reach without enjoying the succulence of the one or the nourishment that lies within the other, unless an effort was made to unclothe the garment in which their essence was enveloped.

It is the same with your precious Light. At the moment that you are born into this world, your own Christ Self agrees to accept the prana, or substance of the air, and becomes responsible for as much of that commodity as you will use in the course of a lifetime. Also, from the time you breathe your first breath, the powers and beings of the air become your servants; the Beings concerned with the sustenance of the Earth supply you with food and nourishment for your body; the shining sun helps you to perform the acts of your daily living; and the elements of the water supply you with your ablutions as well as giving the necessary refreshment to your inner bodies. All of these elemental beings bend the knee before the Throne of the One from which all have come, and Who breathes the first breath into the nostril of the new-born and sets the akashic ethers into motion. Do you think that it is for naught that, age after age, and aeon after aeon, mankind has been so served, and yet has not signified his willingness to accept the responsibility of using these powers of Nature without, in some manner, contributing, even impersonally, to the progress of the planet and the race?

At the close of your Earth life, My beloved ones, it is I who takes the last breath from your nostril as your soul signifies that you have abode long enough in this 'vale of tears', and

that it desires a surcease from the karma of your own making that you may receive Light from the Suns of Heaven and prepare to return again to fulfill your Divine Plan. I have met you there hundreds and hundreds of times, your soul clutching in its tired hands the sheaves of its own harvest, pitifully small for the most part, and even I, whose energy has sustained your Earth journey, must repress a feeling of discouragement (if such a quality could be expressed in Our Realm) to see a soul so distressed. So this morning I again endeavor to turn your attention to the power that lies within your electronic stream of Light which is your heart-beat.

You do not have to look without - to any person - for within that heart-beat is your precipitating power by which I myself have manifested the glory of each succeeding day.

In the heart of the Retreats, when We emphasize the philosophy 'Know Thyself', it does not mean that you have to delve into the various doctrines of the day which only result in the manufacture of sheath after sheath with which people have clothed the outer self in this octave, but We do mean that you become acquainted with that exquisite stream of Life and Light through which you attain your mastery.

Blessings and Love,

MAHA CHOHAN

REPORT BY THE BELOVED KUTHUMI ON THE ACTIVITIES IN THE ROCKY MOUNTAIN RETREAT HALF AN HOUR BEFORE TRANSMISSION OF THE FLAME - JUNE 20, 1953

Tonight, as the great Retreat which forms one of the most ancient Sanctuaries known upon the planet Earth today plays host, not only to the Ascended Masters and Their chelas of Love and Light, but also to the souls of millions of incarnate lifestreams and members of the human race who are awaiting incarnation in the discarnate realm, We choose to bring to your attention an eye-picture of the activity in order that you may enjoy, and consciously participate in the service as manifested through Us all.

Because of the momentum of the student body over the many years in turning their consciousnesses toward this Retreat at least twice in each year, the inner currents are more firmly established than in the Retreats which have just been brought to the attention of the outer consciousness, and I might say that it is like travelling along a well-cut highway in comparison to that of a grassy footpath for the consciousness and the soul of the mankind of Earth as they turn toward this Retreat.

The seven great Thrones of the Lords of Karma in the atmosphere above the Council Chambers are already filled. These Beloved Beings have come several weeks in advance of Their usual visitation in order that They, too, might contribute the

energies of Their Love and Breath of Life in this powerful and magnificent opportunity.

They each wear upon Their heads the Seven-pointed Crown symbolic of Their Office, and all are in green and gold in honor of the colors of the Beloved Host of the evening, with the exception of Kwan Yin who, as Spokesman, has chosen to wear the deep royal purple significant of the concentrated action of Mercy and Compassion.

The Ascended Masters themselves are now gathering and entering into the vast Chamber, taking Their accustomed seats, each of which is provided with a green velvet cushion and footstool. The rostrum itself is decorated in a most exquisite display of gold calla lilies combined with a rich green vine which grows in China and brought hither for the occasion by some members of the Brotherhood. Over the entire mountain stands the canopy of force that was drawn from the heart of the Music Festival, which is made up of the combined energies of the thousands of lifestreams who attended, and which will be offered on behalf of Serapis Bey when the 200,000 are called before the Karmic Board to render an accounting for their participation in the progressive unfoldment of the evolution of the race.

The Beloved Lanto is already upon the platform and the concentration of the Green and Gold Flame, standing around His body for about three feet in every direction, is so brilliant and beautiful that His form is hardly visible within it.

The back area of the Chamber is filled with the inner bodies of the conscious students who are aware of the Masters and Their Service; and

the action of the whole audience is to enter deep into the Heart of their own Flame and endeavor to duplicate the great Cosmic Green and Gold Lily which is the form the Flame will take in its expanding activity around the Earth. The Sponsors for each location have established around each Sanctuary a similar Flame Flower. They are all closed like great tulips, and will not open their petals until Lanto gives the signal for the breathing to commence. It is the desire of the Sponsors (through the student body) to expand all of these Flame Flowers, entwining one with another, until the entire Earth is garlanded - which is balance.

As We stand here, We see the discarnates being drawn into the atmosphere by the great Astrea, the Beloved Oromasis and Diana and Lord Michael. There is a great amphitheatre prepared for them, for they have asked that they might give their breath in passing this same Flame through their realms. Previously, the Masters have drawn the Flame through these realms as well as the elemental kingdom, but this is the first time that the discarnates have asked for an opportunity to consciously participate in the activity themselves. I would ask now that you send a thought to anyone whom you think might be within those realms, as it will make it easier for them to accept the benefits of the Flame.

The Beloved Sanat Kumara and Lord Buddha have just come, and Lord Maitreya has entered also, bearing with Him the Rod of Power. All are now seated - quietly contemplating the Flame.

REPORT OF THE TRANSMISSION FLAME ACTIVITIES BY THE LORD MAHA CHOHAN - June 21, 1953

As the Flame of God encircled the Earth on the evening of June 20th, 1953, it was interesting to note that the tracks which had been cut through the lower atmosphere of Earth from Sanctuary to Sanctuary by the breath of the student body were clearly defined before the great invisible Helpers began to set the currents into action from the Higher Realms which would enable the greatest possible service to be rendered at this time.

I can best describe it by saying that the lower atmosphere of Earth is often temporarily 'parted', so to speak, by a strong thought or feeling form, through a cooperative service or group endeavor, but after the service is completed, the atmosphere again 'closes in' just as an individual leaves no trace of his pathway behind him in passing through water. However, as the Great Law, through its Messengers, has witnessed the fidelity, constancy and enthusiasm of the unascended beings who have joined together, month after month, in invoking and directing the Flame, and who have contributed the energy and substance of their own breath as a conductor of that Flame, this Bridge of Breath and Energy has been made permanent, and remains a visible, tangible, constant 'conductor' from one focus of Light to another at all times.

This means that even when the added impetus of the conscious cooperation of the students is not intensifying the blessing of the particular Retreat which is the focus for the evening, the rhythm of that Flame, like water pouring through a prepared channel, continues to flow, and the sphere of influence of each Retreat is no longer

'localized', but world-wide in its outpouring. This is more important than perhaps the human consciousness will realize upon first thought because instead of having one 'treatment' in a thirty-day cycle, the entire momentum and power of radiation from the Retreat which is active during that period becomes the constant, pulsating and raising activity of the entire world throughout this thirty-day cycle.

Each time the group activity is repeated, all the breath released from each lifestream is woven into this 'spiritual track' to widen the bridge, so that from a tiny 'thread', which is barely perceptible among the shadows of Earth's present garments of pain and confusion, it will one day be a blazing highway as wide as Earth's periphery, and then all will see, know and manifest God Accomplishment.

In July of last year, when this humble experiment first began, the sphere of influence of each Retreat covered a localized area, but there were no conscious unbroken connections between these foci of Light and Power. When the student body first contributed its timid breaths, there being but one such group of unascended beings conscious of Our endeavor, those combined breaths did not reach across the Atlantic Ocean, and it was the pleasure of the Ascended Host to provide the necessary strength, impetus and cosmic breath to carry that frail offering around the world. Like a 'wisp of smoke', the students' breath was dissipated at the close of the ceremony.

As the year has progressed, and as more and more groups of unascended beings are participating, the power and momentum of the students carry

the breath around the world - accomplished solely through the conscious endeavors of unascended beings. We merely intensify the Flame.

Because this contribution has come voluntarily through the hearts of members of the human race, the Law has permitted Us to sustain this channel through which the energies flow, and it is a tremendous forward impetus for Our endeavors, for rather than receiving the 'food' once in every thirty days, all kingdoms are receiving it every second throughout this period.

May I bless and thank those lovely spirits who have chosen to invest their breath in this Cosmic Endeavor!

We begin Our second cycle of the Transmission Flame on July 18th, from the Retreat of the Master Saint Germain in Transylvania, and I am grateful that, as the 'Book of Life' closes on Our first year's endeavors, I shall be able to offer the Lords of Karma such a beautiful report from the hearts of those who love life enough to contribute their life breath to its glorious fulfillment.

Love and Blessings,

MAHA CHOHAN

REPORT BY SAINT GERMAIN ON ACTIVITIES IN THE ROCKY MOUNTAIN RETREAT - JUNE 29th and 30th, 1953

Beloved Friends:

Again, through the cooperation and balanced enthusiasm of your lifestreams, We are enabled to establish a precedent this evening as the Great half-yearly Council convenes for the presentation of the lifestreams who received the grant last year.

The balance of energy required by the Cosmic Law to promote a more than ordinary World Cause forms the measure of all dispensations granted by the Lords of Karma. From Our Octave, We are permitted to design various plans whereby the evolution of the race may be accelerated. However, it is a requisite of the Law that We must secure the interest, cooperation and voluntary support of some members of the human race, yet unascended, in order to set aside certain restrictions which limit Our freedom of action in the sphere of life which is not Our natural habitat.

These various petitions and designs are always presented to the Karmic Board and the half-yearly Council. At inner levels, some members of the human race respond and offer to cooperate with the Masters' individual or collective plans. The Lords of Karma examine carefully the capacities of these volunteers to see if their energies can be utilized practically, and if their instruments

of expression (inner and outer bodies) are sufficiently developed and reliable enough to count on fulfillment of the Vow taken by them in the fuller freedom of the inner levels. Upon the number of individuals who volunteer to assist the Master in a particular Cause, and upon the evolution and development of each volunteer, is the grant or dispensation given or withheld. Some of the Beloved Brothers receive a tremendous response because individuals are vitally interested in their projects - like the annihilation of war; while other members of the Brotherhood receive little support because Their Plans and Projects do not appeal to the personal selves of mankind; the selfishness of the personality (which is part of the etheric envelope also) does not prompt even a passing interest by such lifestreams. Thus, when a proposal is made and the Lords of Karma ask for backers among the human race, no one responds, and the Petitioner is forced to place His hopes upon the shelf, hoping that at some future time He will be able to impress some individuals with the importance and possibilities of His Cause.

The days before the Lords of Karma take Their places are given over to the Brothers that They may post Their petitions and further Their Causes as best They can. Small Council Chambers are placed at Their disposal and certain chelas are invited to sit with Them and study the merits of the various plans. Thus, before the night of the Great Council, the individual Sponsor knows fairly well what response He can expect from mankind, and also what support He will receive from the Karmic Board. There is always hope, however, that when the actual petition is read, those attending will become interested enough to back His Cause, and when the Karmic Board asks: "Who, among

unascended mankind, will assist you?", there will be enough to warrant the Master's receiving permission to at least TRY to externalize His Plan.

As the students have become conscious of the service being rendered at these half-yearly Councils, and they have added the petitions inspired by their hearts and spirits, the Masters often incorporate the students' petitions into Their own and 'adopt' such petitions, offering to give the support of Their own hearts to the presentation of such petitions to the Assembly.

The Messenger from the Great Central Sun is empowered by that Central Intelligence to release from the Cosmic Storehouse of Energy an equivalent amount of Universal Light Energy to that offered to the Masters through the mankind of Earth, which doubles the power invested in any Cause or Design.

BUT, for the first time since the veil of maya closed the inner sight and hearing of the human race, We experienced, last evening, a release of energy from mankind simultaneously with the promulgation of Our Plans, which enabled Us to pass, with merit, 100,000 of the 200,000 lifestreams who were chosen for the first wave of spiritual impetus in the Cosmic Christ entrance into the outer consciousness of the race.

This brought to mind a new and wonderful opportunity; for if unascended beings would choose to give their energies at the same time We are presenting the petitions to the Lords of Karma, wave after wave of harmoniously qualified God-Life flowing from the hearts of mankind would bear witness to mankind's willingness to stand behind every design and plan that the Brothers might

present. Then the Lords of Karma could not, in good conscience, refuse any such petition, and tremendous dispensations and grants could be effected.

So tonight, as the Masters prepare for Their audience before the Karmic Board, We are opening the great channel of energy from the class, and the full-gathered Cosmic momentum of your many years of service is being drawn through your decrees and flooded into the great Assembly Hall, not only for the awakening of the 200,000, but for every dispensation that appears to have merit in the Eyes of God. Remember that all the momentum of every decree, every song, every visualization you have ever made is added to your application of this evening, and then the Central Sun is giving a balance of the same amount of Victorious Christ Energy which is Pure God Force.

It is one thing for the students to be totally unconscious of what We are doing currently, which has been the case for the past years, but it is a great step-up when the students consciously know where We are, and engage (as in the Transmission Class) in cooperating with Us at the same time the activity is in session, but this third development where you are working simultaneously with Us in the accomplishment of current events, at the same moment, signifies the greatest spiritual milestone of this era, and within it is the hope of an absolute unity between Our work and yours - stimulating your endeavors by the certainty of accomplishment, and Ours by the joy of knowing that We can secure energy, when the Law requires it of Us, from mankind.

May I point out that We can do much from this

end, but the Law requires the interest and energy from yours, and it was the Christ Selves who drew the small number of lifestreams into that particular Sanctuary last evening where the release of their energy, at the psychological moment it was needed, has given birth to this marvelous Opportunity of Ascended and unascended beings working together simultaneously and bringing forth such unprecedented results.

****

In order to present this Bulletin in proper sequence for your understanding, let Me explain that on the evening of June 29, 1953, a small number of chelas gathered together in their Sanctuary to do some decree work on certain activities which they knew were in session at the great half-yearly Council, but they were not aware that they were offering their energy at the precise moment it was needed by their Ascended Friends in order to promulgate a certain Cause presented to the Lords of Karma by these great Brothers for the benefit of mankind. This unpremeditated simultaneous action on the part of the students gave rise to an opportunity similar to the idea of the united action in the Transmission of the Flame, whereby if the students can be notified, beforehand, of any event requiring simultaneous action between Masters and chelas, and they choose to offer their energies at the precise moment it is required, it would have a tremendous effect upon future accomplishments through cooperative action. Now I will let Saint Germain present the balance of His report.

MAHA CHOHAN

June 29th, 1953 - 10.30 p.m.

May I congratulate you on a magnificent activity here tonight! I would like to show you how close you have come, in your outer consciousness, to cooperation with Our endeavors. When you began your Class this evening, Serapis and I were sitting in the Council Chamber provided by the Brotherhood at the Retreat, where He might interview the 200,000 lifestreams He had sponsored before the Karmic Board, to find what merit may be offered on their behalf at the meeting tomorrow evening (June 30th). Serapis said: "If I only has some energy to use!", and just then the pulsebeat of the decrees from your Class began. I slapped My hand on the table and said: "There is your energy!"

Before this energy was released, only 10,000 of the 200,000 had qualified, but through the tremendous release of energy in your decrees, the number was increased to 100,000. Just then, Kwan Yin came to the door and said: "I do not come in an official capacity as Spokesman for the Karmic Board, but I can tell you that We do not require that the outer selves of the 200,000 be completely awakened and consciously cooperating with their Christ Selves. If you can show that they have even a 'spark of interest' in spiritual Truth, We will pass them and increase the grant for the balance of the year." Upon examination, the Christ Selves of these people showed that the difficulty was due to the impurity of the inner bodies and the turmoil in the emotional bodies, and if these could be purified by the application of the Sacred Fire, it would be possible for the Christ Self of each one to register through the brain and into the outer consciousness. So, to Our joy and the

happiness of all concerned, the 200,000 passed through.

I congratulate you for having your 'lamps filled with oil'; for truly no one knows 'at what hour the Bridegroom cometh', and in the days and years ahead, many opportunities will arise when We will be able to so contact you without previous notice.

Beloved Friends of My Heart:

Do you know that, tonight, seventy thousand years does not seem such a long time since you and I pledged one another, at the close of that civilization, to endure, and through the Power of Light within your hearts, you have passed through the shadows of the intervening centuries and have not been found wanting. It will give Me great happiness to report to you later on the results of your endeavors tonight. Thank you.

Your Higher Self is a real and tremendous Being of Light, Power, Dignity, Beauty, and Freedom. As you feel your heart beating, think of the energy that has flowed from that Being to sustain your body's life; and think of the Plan that Being has for your lifestream which it has endeavored to fulfill for millions of years. Age after age it has provided you with a strong and beautiful body and endeavored to manifest through you the design which God, the Father, desired that your Presence fulfill.

Again, you are in possession of a vehicle provided by this Presence, and I would counsel that you turn to that Presence and listen to its promptings through your heart. This will require a certain relinquishment of your consciousness to the passing things of Earth. If you can and will make this effort, you will find that the Divine Teacher will set your house in order, and things will progress to a point where you will become of greater help and assistance to those around you. This must come for every man, every woman, every child, for it is pre-ordained by Life; but we can press that day if we are wise.

The Ascended Master is always in complete control of all the energy of His lifestream, and the vibrations passing from His thought and feeling world always express the harmony of His Keynote. They are always in agreement with the Divine Law of Love, which is the consciousness of the Father as manifest through the Celestial Kingdom,

the Angelic Host, and the Hierarchy.

If you would visualize your consciousness like a great ball or sphere rotating like the hands of a clock, from left to right, at a certain speed, and all the time throwing off electrical waves into the atmosphere, you would have a very good picture of the activity of your consciousness as seen with the inner eye. Then if you would visualize the Ascended Master's Consciousness like a great iridescent sun filled with the prismatic colors of the rainbow, as much larger than your own as the head of a pin is to the sun in the heavens, and whirling in the same direction as your own, but so rapidly that you cannot see the rotation, and sending off tons of Flame into the atmosphere that makes the entire heavens glow with its radiance, you would see THAT towards which you aspire. Now if you will take the lesser consciousness (which is your own) and place it, mentally, in the very center of that great whirling sphere of the Master's Consciousness, visualize the absorption of the one into the other, and center that whole contemplation at the point between your eyes where the inner eye is developing, you will experience the most marvelous expansions of consciousness which has become like an open book to the advanced chelas of the past. If you will dwell upon this explanation, you can hasten tremendously your own unfoldment, and if you will consciously blend your human consciousness into any Ascended Master's Consciousness upon which your mind dwells, you will find His Powers flowing through you freely to assist mankind.

Blessings and Love,

MAHA CHOHAN

ON CAUSE AND EFFECT

The mixing of certain foods together forms a very pleasant and edible concoction which is a source of delight and satisfaction to your families and friends. You set up a CAUSE by mixing those various individual foods, and the ultimate result will be the effect you desire. In this very simple example, you have the Law of Karma - CAUSE and EFFECT. You know before you begin what the effect will be, and you proceed with assurance that if you adhere unerringly to the necessary rules and regulations, that your ultimate presentation will not only be beautiful, but tasty.

What you have done in your culinary experience, you can do equally well in life. If you would put the proper qualities together, you would have the same effect - with the same degree of accuracy - and you would have as desirable a manifestation as you had in your cooking; BUT because the qualities of fearlessness, confidence, strength and purity are unseen qualities, mankind feels that they can put a little less or a little more of one or the other into their original CAUSE and still have a desirable EFFECT, where no wise person in a culinary department would tamper with an intricate recipe and expect perfect results.

You may draw as much Love, as much Fearlessness, as much Light, or as much Happiness as you desire into any picture that you may hold in your mind, whether it is for the strength and endurance of

someone you love, or for the freedom of the whole race, and if you continue to reject all unpleasant feelings and thoughts from your mental and emotional picture, even as you would reject poison or any other unpleasant substance for your cake, you would be successful in your manifestation.

If you were preparing a special dish for your family, you would not allow anyone to drop any form of waste matter into it. You would know, without My saying so, that the result would be imperfect; and yet human beings, in drawing a perfect picture for their loved ones or for their house or their business, allow any passing thought that proceeds from the ignorant minds of men to flow into that form and pollute it. Remember, that the EFFECT will carry the taint of that which you allowed to enter your CAUSE, either consciously or unconsciously - for that is the LAW. In the Realm of the Ascended Masters, They, too, follow the same Law that is being worked out with such difficulty in the third dimensional world as CAUSE and EFFECT. The Theosophical World has called it KARMA, and it has become a mesh of intricate design which has caught the soul, rather than an exquisite proof of the creative power focused within each human heart. In the Ascended Master Octave, if EFFECT did not proceed from CAUSE, the Masters would have no power to follow through any design, but as the human mind is thoroughly convinced that two and two makes four, so does the Master know, without question of a doubt, that EFFECTS will follow CAUSES set up within His heart and mind consciousness.

REPORT BY THE BELOVED SAINT GERMAIN ON ACTIVITIES IN THE TRANSYLVANIA RETREAT BEFORE TRANSMISSION OF FLAME -- JULY 18, 1953

Beloved ones, tonight is an anniversary; and one that I can celebrate with particular personal happiness for this magnificent activity brought to such full fruition; particularly when the curtain had all but closed upon My humble endeavors through the past twenty years.

Tonight Transylvania is a beautiful sight as We look at it from the inner standpoint. It is not a large State at most, but from border to border it is ablaze with deep purple Fire. Devas and Angels and Elementals clothed in every hue of the Violet Ray are bathing in this tremendous aura of pulsating Violet Flame, and from the Heart of the Sun, a Directed Ray of the most intense Purple Fire that has ever touched the Earth is anchored through the focus of the Freedom Flame which it has been My privilege and honor to guard for many centuries.

The Freedom Flame is burning upon the Altar, and the Beloved Brothers and Sisters have decorated the entire Assembly Room in Maltese Crosses made up of exquisite floral offerings representative of the various countries from whence they came. Each has followed the pattern of My own Electronic Light Pattern, But the flowers symbolize the location of the Retreat or Sanctuary from whence the Brothers and Sisters have joyously come to

offer the energy of Their Life this night, and I shall always remember the beauty of this kind expression of Their Love.

As We go into action in the drawing of the concentrated Power of God Freedom into this Mighty Flame, and as We direct it through the channels which have already been opened and established, We are going to endeavor to create around every student unascended, a similar Cross, larger than the physical body, made up of the actual substance of this concentrated Flame which has become the atmosphere of Transylvania tonight. The vibratory action of this prepared Cross will be much more rapid than the natural vibration of the physical and inner bodies of the students, and should enable them to breathe in the Flame with greater ease, and absorb it into the inner bodies with much less difficulty.

As I am speaking to you now, the Beloved Serapis is taking His place before the rostrum, and it is His great joy to ask the Brothers and Sisters of the Ascension to create out of their thought, forms of this great Maltese Cross before the entire Assembly. The Ascension Brotherhood is particularly noted for its power of concentrating thought force, and invoking the Universal Light to fill it and condense its vibratory action until it is visible even to the physical sight of unascended mankind.

As I am watching the proceedings, We see this great Cross taking form. It is well over one hundred feet high, and very clearly distinguishable, as its periphery seems to be made of a silver substance which clearly defines it from the Violet in the atmosphere. Then We witness the

drawing of the Violet Fire from the atmosphere into that Cross, condensing it just as you would fill a mould with a particular substance. As this is completed, the Brothers of the Ascension then relinquish Their places to the great Angel Devas of Ceremony who now, under the direction of the Archangel Raphael, are stepping within this Cross and greatly expanding it in size, and it is beginning to pulsate with the motion of Their own heartbeat. Raphael, I know from My own feeling, is preparing Them now to carry the replicas of this original Cross into the Sanctuaries particularly, and into the auras of the students. From the higher atmosphere, more and more of these Devas and Angelic Beings come, and They are drawn, just as the moth is drawn to the Flame, into this great Cross until it becomes deeper and deeper in color, larger and larger in periphery, and more radiant in its pulsation, which is so rapid now that you can scarce distinguish it in Their outbreath of that Flame.

The great Freedom Flame is also expanding and flowing into the Cross, which now becomes as large as the entire European Continent, and yet the signal has not been given for Them to step forth from it. They are still concentrating and drawing more Beings into it from the four corners of the Earth. This activity is a surprise to Me, and a Gift of Love to My lifestream as well as yours. I trust, as it takes place, that you may enjoy contributing your energies to the intensification of this great Cross which grows until it extends well into the Asiatic Continent and down into Africa. I must soon enter into the Heart of the Flame, but I had hoped that They would start the expansion while I was still speaking to you so that you might enjoy it. Beloved Raphael, in

answer to My request, now raises His hands, and as they are lowered, you can almost hear the burst of music as the Angel Devas pass out from the Flame - every one of them carrying an exquisite Maltese Cross of blazing Light. The great Devas are carrying some as large as a city, and there are smaller Devas and Angels who are carrying little Crosses no larger than an eight-inch ball.

Let us follow them now as they swing outward. You can hear the Song of the Freedom Flame and the rhythm of their motion. They go, instantly, into the Sanctuaries, and wherever there is an activity established, the Cross is as large as the city, and the Deva who carries it settles it down like a plate in a parallel form over the entire city, and the Heart of the Cross stands over the Leader of the Group. Where there are only isolated members, the Cross is always larger than the room in which the activity is held, and the Deva holding that then calls to the local Angelic Kingdom and They are coming and creating little Crosses around the individuals, for They love to work with substance. So it is now before the beginning of Our great service. If you were to stand in the atmosphere a mile above the surface of the Earth, it would be like looking down at a garden of beautiful Maltese Crosses which look a little like pansies when looking down from above, and in the center, you find the student body in the various countries, each Group now preparing for the drawing of the Freedom Flame, and because it is My Office, I must address My people. So I leave you with this visualization, and if you will hold it for a few moments, I am sure that you will feel the power that is within it tonight.

SAINT GERMAIN

REPORT OF THE TRANSMISSION FLAME ACTIVITIES BY THE LORD MAHA CHOHAN - JULY 23, 1953

I stood in the atmosphere of Earth last Saturday evening, and looking through the murky folds of her aura, I witnessed the beautiful open flowers of the Ascended Masters' Retreats and ancient Sanctuaries shining like Celestial Jewels, the heart center of each made up of beautiful God Beings who had offered to take the responsibility of becoming Transmitters of the Flame of Freedom until enough of unascended mankind might accept this opportunity and draw into themselves the responsibility for establishing and sustaining such Transmission Stations themselves. One day there will be permanently established at strategic locations all over the Earth, these foci of the God Power in which unascended beings will have earned the right to guard the focused Flame which comes only when the Law sees that such a Flame will be rhythmically, systematically, reverently and constantly guarded. This will be the Era of the Age of Freedom, and these Flames of Hope, Peace, Healing, Supply and Illumination will be the source at which each spirit may receive the personal impetus to develop and mature through the individual lifestream. These Flames will be the BALANCE holding the Golden Age of the Master Saint Germain as the PERMANENT, ETERNAL AGE OF PERFECTION for the planet, and in this small beginning, We see those responding who have, throughout the centuries, drawn, guarded and wielded this Flame for the protection and illumination of the civilization in which they lived.

I witnessed, besides the shining immortal glory of the established Retreats, the open flowers of the Sanctuaries and Rooms where some

lifestreams had responded to the impetus of this New Era, and had, through the love of their hearts, drawn around themselves other devotees of the Flame, writing on the Book of Akasha the solemn words: "The Guardians of the Flame of God are again ready to apply to the THRONE for the direction of that Flame into the atmosphere of Earth, visible and tangible to the physical sight of all mankind, and unto this end do we offer ourselves, our breath, our Life, our Being!" It has taken twelve months for that sentence to be written, and the Silent Watcher Herself drew the energies of the breath of each lifestream who has participated in even one Transmission Class into the focused Pen of Light with which She wrote those Sacred words which represent a spiritual milestone in the evolution of our planet, and because of our planet's debt to the solar system, a milestone in universal progress as well.

The establishment of the Transmission Centers is the beginning of that preparation for the focused Rays from the Beings in the Heart of the Sun which, through qualified students, may become the Master Control of the energy and atmosphere of lifestreams that are within the compass of its sphere of influence.

The very breath of the students forms an electrical forcefield - the substance qualified by their own consciousness - which is as large or as small as the collective group's endeavors make possible. This forcefield has been made permanent, even when the group is not in session, and can be used as a 'conductor' of particular Rays of protective energy which the Masters will, from time to time, choose to direct into the locality where such Sanctuaries and Sanctified Homes are

established. Conscious acknowledgement of the forcefield, and conscious feeding of it by a few minutes of cooperative breathing at each class would greatly increase it in size and strength for those desiring to cooperate in this service.

When this forcefield signifies to the Law that it is strong enough, powerful enough and permanent enough to warrant the establishment of some Quality of the Sacred Fire from the Higher Octaves through it, We shall begin the actual ritual of the Descent of the Flaming Virtues and Qualities which are the Nature of God. In one locality, the Focus may be of Healing; in another - of Peace; in another - of Illumination. The sensitive will easily discern, from this time on, the particular Quality which is to be the radiation of that Group, or where individuals are unable to join together, the Quality which is to radiate through an individual - his home as well as his heart. The great Foci, however, will be established where there are sufficient numbers to warrant the investment of the Flame, except in those exceptional cases where the Priest or Priestess has the Cosmic momentum of centuries of such service in the Temples of the ages when the Flame was the manifest expression of 'God with us'.

During the first year, the endeavor was to interest lifestreams in the fact that, each thirty days, the Brotherhood focused Their Love and attention upon one Retreat and amplified the Quality and Power of that Retreat for the blessing of the evolution of which they are the Guardians.

During this second year, the endeavor will be to prepare, individually and collectively, those who have voluntarily joined this particular

activity so that the forcefield of their local endeavors may quickly transmit the Flames of God just as the Retreats do at present. This requires the purification of each unit, the harmonization of each one's inner bodies, and the balanced control of the breath through personal daily application so that the collective endeavors, each month, may benefit by such personal application, study, training, and proficiency.

As the beautiful Maltese Crosses were established, which description Our Beloved Saint Germain has given you, He gave the first wave of this qualified Power of Freedom through the focus of His own electrons - represented by that Cross. This added Cosmic impetus is now permanently established in the aura and world of each one who participated on the evening of July 18th, and it is a rhythmic motion, just like a sea tide, that sweeps the Freedom Flame through the inner bodies on a beat that takes about a minute. Each time it flows, it dislodges some of the accumulations in the inner and physical bodies, and this continues permanently, aside from the personal application in the use of the Violet Flame, etc.

In a similar manner, through the forcefields around the Sanctuaries and Homes, the rhythm has been set up, and it flows through the cities, towns and villages where unascended beings abide who have participated in this activity and thus magnetized the Flame.

People do not yet understand what a service they may render the environment in which they live by participating in Cosmic Activities which allow Us to focus and maintain the blessings of those Cosmic outpourings only when a conscious

lifestream has magnetized the blessing through conscious cooperation with the endeavor.

May you proceed throughout this year, beloved children of God, in constant remembrance that you are now preparing to become the Guardians, in outer physical action, of those activities of the Sacred Fire which have not been manifest on this Earth in any age, but which form the nucleus of the Fire Temples around the Sun of our System. Let your every breath, your every thought, your every feeling and action be consecrated to that individual preparation which you have signified your willingness to engage in by your presence in the Transmission Classes and your interest in their service to the Earth - most of which has not yet been revealed unto you.

Blessings and Love,

MAHA CHOHAN

THE HAND OF GOD

The impersonal activity of the Holy Spirit is well represented in the hand because there can be no personality connected with the office and service of the hand when the veil is drawn between that hand and the body from which it ensues. We have heard of the expression, and we have all required the services of, 'a helping hand' many times in the course of a lifetime, and oft-times we knew not from whence that 'hand' would come. The Holy Spirit, in choosing a body through which He wishes to render a service or answer a prayer, must, of necessity, accept the services of a lifestream who wears a garment of flesh, and throughout the planet Earth, the Holy Spirit has, many, many times, reached forth a 'helping hand' through the wholly unconscious vehicle, and by it has rendered a service of charity, of blessing, and of comfort.

In the activity of the New Age, which will be the final manifestation of an era of great perfection for the Earth and her people, every hand of every lifestream will become a Hand of the Holy Spirit. The capacity to clench the fist, either in greed or anger, will be replaced by the out-stretched hand of Blessing, of Giving, of Raising. The fingers upon the physical hand are indicative of the Chohans of the Rays, and when the Seventh Ray has completed its service to the Earth and its people, the Cosmic Hand of the Universal Christ will stand revealed in the heavens, and

from Its radiant vibrant fingertips will the Advent of the Second Coming flow in unceasing benediction upon the children of Earth.

The dedication of the hands to the Holy Spirit was a most important ceremony in the days of Atlantis. It took place within the Temple, and was a most sacred sacrament. Individuals who, after long thought and serious contemplation, chose to relinquish the free will action of their hands into the greater use of the Invisible Deity, would place their hands upon the Altar, and through the offices of a Priest or Priestess of the Flame, have those hands united with the Cosmic Will of the Universal First Cause. Through the centuries, these individuals have carried that particular connection, and their hands have become naturally qualified to soothe, to heal, to convey blessings. This custom of the 'consecration of the hands' is pursued down to the present day when an individual has chosen to dedicate his lifestream to a Cause and is admitted into a certain Order. There is no limit to the service that life can render through the hands of an unascended being when dedicated to a Cause. Like a draft in the army, every man must, sooner or later, give his hands, as well as his heart, to God, but those who volunteer and precede that draft are not only more loved of God, but experience the ecstasy of pre-dedication within themselves. The willing hand, dedicated to the Holy Spirit, can become the Hand of God in action.

Blessings and Love,

MAHA CHOHAN

Beloved ones, the sweetness of the opportunity of reaching the conscious minds of sincere and earnest students fills My Spirit with gratitude before the Heart of All Life, and I welcome the invitation which has issued from your own life energy by which I may enter your world and become a companion upon your pathway. It is a beautiful experience for Us who have so long been denied entrance into the minds and feelings of the race - the members of which We serve, to see the doors of the individual consciousnesses open, pressed by the Flame of Love and Service, and held wide by the faith of the individual spirit which, now commanding the soul, shall arise in the mastery which God intended, and walk, in full freedom, in communion with the Perfected Beings, in service to the bound. We bring Freedom that you may dispense it. We bring Comfort that you may be such a Comforting Presence and, in all ways and in all manners, not only represent Us, but embody Our Nature, for it is through you that We may stand manifest to the world of men.

To those who have gathered in the Upper Chamber and have stood within Our Presence, comes the opportunity to bear witness to the Visitation - not by word, but by living. From the time that the veil of maya closed the consciousness of mankind away from that Realm of Great Perfection in which the Wise and the Free abide, the Law has required that service which We would render must be conducted through the consciousness of those who stand above the masses - who are yet in the

world but no longer a part of it.

Your responsibility and your opportunity are both without parallel, for where is Our profit if you profess communion with Us and yet embody not that which mankind seeks - which is the Nature of God. Communion goes further, My children, than the word - than even the visible Presence, and no man, no matter how dense the clothing of the senses, is so lost that he cannot perceive the embodied nature of those who have entered into the FEELING of the Brothers and Sisters who form the Great White Lodge, and who have voluntarily taken upon themselves the obligation to accept chelas and students, voluntarily accepting the karma of each one.

In My position, it is required that the Masters of Wisdom apply always for the acquiescence of My Office before the acceptance of a chela into their own worlds. The reason for this lies in the fact that, cosmically speaking, it is My great joy, privilege and honor to draw the great energies from the Sun and delegate them, each according to their proper channel of expression, and knowing the priceless and precious gift of life for what it is, each electron pulsating with the potent powers of Eternal Life and all the mastery of the Sacred Fire, I can realize what it is to invest energies in a lifestream or in a Cause, knowing full well the balance that is required for such an investment, and impersonally weighing the possible benefit, not only of the individual soul, but the race, against the sacrifice entailed by the drawing of the attention and the energies of a Master into the focalized interest of one individual. Therefore, I can say with great emphasis that those of you who have been accepted by

conscious chelas by any member of the Ascended Brotherhood, have received such an honor through merit because of your possible and potential service to the recalcitrant members of the race, and not because of Our particular desire to release you, as individuals, from the wheel of birth and re-birth.

In the past, the evolution of the individual formed the basic interest of the White Lodge, and the acceptance of a disciple by a Guru was acknowledged, above as below, to be predominantly based on the assumption that the one unit desiring to rise above the masses might ultimately be free, and such individuals, leaving the slower progress of the race and entering into the aura of the Guru, did often attain their Victory and pass into their eternal liberation; BUT, the Dispensation under which individuals, today, are given the blessing and the attention of the Masters is based on the service that can be rendered the race as a whole, and the measure of such association will be determined by the balance offered to the Cosmic Law by each such an one.

We are not in a day or a time when entertainment of the intellect or peace to the sea of emotion is the order that brings the presence of the Gods. We are in an hour when We are willing and desirous of investing countless tons of primal substance (by which creation takes place and is sustained) in any lifestream, no matter what the condition of the vehicle in which it functions, providing such an one is willing to live now for the Cause. Rather the sinner intent upon the evolution of the race than the saint intent upon his own.

It is required of Me, by the Karmic Board, to again bring to the attention of those at present basking under the passing illusion that We have little to do but paint pictures of Our individual activities for the pleasure of any self. We stand at the end of time, and it is only because of Our Love for the Earth and the evolutionary beings imprisoned upon it that I have chosen to acquiesce to this experiment.

It is difficult indeed when One, by nature, loves, to then remain impersonal enough to consider only the balance of energy in the granting of a favor or the withholding of a Grace; but in the wider scope of Illumined Consciousness, seeing well what each Grant requires in balance from the soul so favored, sometimes it is fairer, by far, to withhold more knowledge, more counsel (with its resultant obligation to show results before the Court of Heaven) than it would be to grant that which Love would indicate to be pleasing to the hungry, knowing that the tenacity of spirit, the integrity of the soul, and the constancy of the nature are not yet unfolded to a point where the full significance of such investment of both the time and counsel can be grasped.

In July, when We appeared before the Great Karmic Board, it was pleasurable indeed to show the tremendous release of the Flame of the Sacred Fire through the Transmission Classes, and this alone was the balance which We could offer to the Cosmic Law as proof that Our investment was not in vain.

But as you have come to understand, Our endeavor now is to draw the Powers of the Sacred Fire through these established foci. The indiv-

idual development of the Guardian Priest or Priestess becomes essential, and I am drawing each one with such a potential within My Aura at Ceylon in an endeavor to convey to the consciousness, through the etheric envelope, that individual Mastery and Balance must precede the release of these Gifts and Powers which can form the control of every appearance which might be spewed forth on the screen of maya, not only from the consciousness of the race embodied, but from the vast solidified mass of etheric creations that have not been redeemed, but which, like the frozen ice of the North, have been mercifully atrophied in order that a race could survive. Even this, ere the Earth's redemption can manifest, must be purified, redeemed, and transmuted.

Blessings and Love,

MAHA CHOHAN

Oh, My beloved blessed children, can you feel, with Me, the Joy in the hearts of those of Us when We can part that curtain that has so long separated you from Our sight and Our hearing and say, with sufficient clarity to pierce through the doors of your senses, We love you with all the love of a Cosmic Mother; with all the love embodied in the radiation of the Holy Spirit whom it is My honor, My privilege, My obligation and My responsibility to represent to the life evolving upon this small Earth today.

You can, perhaps, understand the gratitude that wells up within My own Heart Flame to find you at the doorway of Eternal Freedom, for I have watched your footsteps; I have watched your coming and your going. It is My honor to be the Guardian Presence on the Path when once the Light has expanded to a point where the figure of the Golden Man is drawn out of that small spark which has represented, up to that point, your individuality through form.

The great Elemental Kingdom which has chosen to create your rivers, your valleys, your hills, and all the glories that are Nature, is localized, for the most part, and held within a natural orbit. Some of them, the small and dainty ones, never pass outside the sphere of a few small yards, living their lives developing the grasses and the flowers in someone's sweet garden. Others, the larger ones, perhaps live their lives within a mountain or a lake, but they are all localized

and do not travel. Particularly, since mankind, through discord, has created antagonism between the two kingdoms, has the Cosmic Law more and more powerfully stressed the Law that these beings be leashed within these local spheres lest they all rush away from the great cities where discord, impurity and imperfection drive against their fine bodies, and mankind would find that without the assistance of the Elemental Kingdom, life itself could no longer be sustained. But when love, consciously generated, is released through a corporate body of unascended beings, even the Cosmic Law itself bends its head and there is no sphere from whence these beings cannot be drawn for the blessing of love.

Mankind, for the most part, does not even know that the members of the Elemental Kingdom have being, and they know not that they (mankind) live by the sacrifice of this great unseen kingdom, the members of which work unceasingly, day and night, to keep the pollution of the effluvia of mankind from smothering them even to the point where the breath could not be drawn into the nostrils or sustained within the form. Would that there were individuals or groups interested in blessing this kingdom - in making friends with the Kingdom of Nature. You must remember that they are of an innocent consciousness, like small children for the most part, and they desire, always, to render a balance for love. I would humbly suggest that, within the activity of your class work, there are no heights to which you cannot reach in invoking the assistance of the Elemental Kingdom in balancing these extremes that are manifesting at the present time through weather conditions. If, on every continent, even one such group would be established with the motive

of just loving them, and not for the service they might render, We could handle the balancing of their activities which otherwise result in cataclysmic forces released.

Now may I take you on a journey away from the world of form? You are no longer among those who desire to be comforted. All of life inherently has within the heartbeat that desire, but your names are written on the Scroll of Life as those who desire to be a Comforting Presence. Therefore, each one of you, individually, becomes My Disciple; becomes, according to your capacity, your perception, and your application, Myself in action - in your own home, in your own service, and then in your greater development - cosmically.

In order to be such a Comforting Presence, I want you to take that journey into the secret place within your own heart. Just for a moment, stand there and listen to the music of the electronic Light as it is released from the Presence, enters the heart, is inverted, and becomes that beautiful Three-fold Flame of Eternal Truth. Listen to the harmony within your own Light, and then you will feel that Light as it begins to flow through your bodies as Life, no longer seized by the appetites of the feelings, of the mind, of the etheric memories or of the flesh, but moving outward in that same musical radiation until it just blankets all the energy around you - at first for just two or three feet in every direction, and later expanding, with practice, to an unlimited degree.

The Flame is the conductor through which I and every other Son and Daughter of Heaven may direct the quality, the virtue, the momentum and the

gifts of Our own lifestreams for the blessing of man. As your attention is on that Flame, you can have the same experience that the disciples had who gathered together in the Upper Chamber - the feeling of My Comfort to Life riding forth on your own energy into the world of men. You will never know the fullness of Comfort in your own feeling until you can, at will, direct that Flame consciously to be the Master Control of the energy within and around you, according to the requirement of the hour; for Comfort is manifold, My children, and each experience of your daily life will require of you a different activity in order to be a Comfort to those you contact. In some, the requirement may be for peace of mind; in others, the Comfort may be for the manifestation of supply; in others, it may be in the melting of a creation of hate or confusion. All are manifestations of Comfort, and when you have learned to let your own Heart Flame, like an open lotus flower, just conduct My substance of Comfort, then whatever the requirement of the hour may be, I will give you My momentum and, through you, will render the service.

I give to you today the full momentum of My own Magnetic Fire. Seize upon it in your feelings and accept it, for it is only as real to you as your ability to accept it. Now, as I speak, I am recording into the substance and energy of your etheric bodies, into the vibratory action of your feeling worlds, as well as into the pliable substance of your thought bodies, the Truth that I am as close to you as your call to Me for Comfort either for yourselves or, through you, to others.

Today I invite you into a closer association. We SO long to be friends with the people of Earth,

for there is a mystic bond in Friendship that can render such a mighty service, not only to the bound lifestream, but to the free. So I accept your Friendship, and I trust that you will accept Mine.

On behalf of My Seven Sons; on behalf of the great Lord of the World, the Lord Buddha and Lord Maitreya, I bless you for yourselves, for your Light, for your presence in this universe, and for your love of each other and the Elemental Kingdom. I thank you.

No. 22 August 16, 1953

Waiting in the Octaves of Light and Beauty, there are a great number of selected spirits who have spent anywhere from five to one hundred years in the schoolrooms of the Masters of Wisdom, learning the Law of their own Godhood, and the way and means by which the Flame within their hearts might be utilized to hold a connection with their own Presence, with their Cosmic Teachers, with the vision which has become their own through study (along with their brothers and sisters who are to incarnate with them in order to hasten the coming of the New Day).

These beings are to embody within the next five to seven years, and they must be born under the old dispensation unless the Lords of Karma can be led to believe that it would be to the advantage of the race for a number of these people to receive a Grant which would allow them to bring back the memory of past lives, not only when they were in physical embodiment, but particularly during their sojourn at the inner levels.

These souls have, for the most part, volunteered both to study at inner levels in the Temples of the Masters and to devote and dedicate their lives, upon taking embodiment, to try and awaken the masses. This is their responsibility and their true service, and We, who have been their Sponsors, their Guides, and their Teachers, particularly regret to see these souls born in the Bonds of Forgetfulness and their mighty spirits hampered by new physical brains which, for the most part,

will not be of development sufficient to draw forth the fullest vibrations held in their Holy Christ Selves.

We have, through Kuthumi's intervention, advanced their Cause before the Lords of Karma, and We were referred, by these Karmic Lords, to the people of Earth, with the recommendation that if We could secure the cooperation and intervention of some members of the race in this Cause, and would bring the petition before the Lords of Karma again, showing that We had secured sufficient application, that this Grant might be given to Us on behalf of these spirits. I am hoping that there will be enough chelas interested in this Cause to give Us the desired application.

The spirit for whom this service is rendered would be obliged to appear personally before the Lords of Karma, because when the Band of Forgetfulness is removed, the individual would remember both good and evil, and unless his karma was properly expiated, the weight of remembrance would be too much for the emotional body to stand when added to the experiences of the current life. When an individual incarnates, he is allotted so much karma for that embodiment. When the statement was made: "the Lord fits the back for the burden", this is what was inferred, and therefore it is not expedient to remove this blanket Law until the forgiveness of sin has wiped out the memories of mankind's PERSONAL HATES AND PREJUDICES. However, where souls have very little destructive karma, or else such a tremendous generosity of nature that it does not harbor past error, I feel that the Lords of Karma would, in these circumstances, be willing to make the grant, not only for the discarnate spirits mentioned

above, but for those already incarnate, and may I say here that when one has lost the capacity to retain an ill-feeling in his life, he is ready to enter this dispensation, if granted. BUT, if the lifestream, in this embodiment, can yet hold ill-will to another, it is proof positive that if the past were known in its fullness, that ill-will would be a greater intensity.

If I could show you those shining and beautiful beings that are awaiting embodiment, I am sure that I would have no difficulty in securing both your interest and your cooperation as well as your sincere assistance on Our behalf in this petition.

Blessings and Love,

MAHA CHOHAN

As the bee and the humming-bird are drawn to the sweet nectar within the flower, so are We drawn into the world of form through the love in the hearts of those who choose to invite Us into their presence.

I shall never cease to bow My head in gratitude before the invitation of a son of man incarnate who desires to invest some of his time and energy in communion with any member of Our Hierarchy, for it is in the opportunity thus afforded Us that We are enabled to infiltrate the Word of God and His Truth into the consciousness of mankind.

Today I come in the Name of the Holy Spirit, and I come to give you, perhaps, a feeling of His Nature. I am the Representative of the Holy Spirit to the Earth. I would like to explain that to you so that, on occasion, if you choose, you may in turn illumine the consciousness of those you contact in regard to this particular Office, for if the people become acquainted with it, perhaps in time they, too, will apply for understanding, and I may be privileged, in that repetition, to assist another member of the race to develop into God maturity.

The Holy Spirit is the FEELING WORLD of God Himself. It contains within itself, every feeling of Virtue and Beauty and Harmony and Perfection that the human mind can conceive, as well as many qualities that, unfortunately, you are not even

acquainted with mentally. The Representative of the Feeling World of God for each planet has the opportunity, as well as the responsibility, of developing through the feeling world of every lifestream, the same Spirit of Holiness in which all the God Nature is consciously embodied and radiated at will.

The planet Earth, as you know, is a planet of the evolution and development, particularly, of the feeling world, and mankind, in activated ideas of every kind, is constantly using life, and the spirit in which he uses that life determines the efficacy of manifestation. People proceed in the spirit of mischief, the spirit of fun, the spirit of malicious intent, and I could go on and on enumerating indefinitely, but it is the qualification of the energy of the feeling world - in other words, the feeling which determines your action, whether physical or mental, that determines your karma.

This is very hopeful, particularly for earnest hearts and souls who endeavor to assist life with the feeling of helpfulness and a desire to benefit and even if the action does not produce the effect desired, there is no karma of destructive merit. BUT, when the feeling world is geared toward destructive intent, that is the sin which is preached in the orthodox churches as 'the sin against the Holy Ghost' which is unforgivable.

The Seven Chohans each embody one of the Supreme Qualities of God - the Spirit of Divine Will; the Spirit of Wisdom; the Spirit of Tolerance; the Spirit of Beauty and Genius; the Spirit of Mathematical Balance and Scientific Perfection; the exquisite Spirit of Devotion; and the

Spirit of Ritual. Before one is entitled to hold the Office of the Holy Spirit, He is required to incorporate all these Qualities in Himself.

Beloved ones, in your feeling worlds, you embody, particularly, the Quality of Life which is the natural spirit of your lifestream, but it is subject to constant change through the pressure of your feeling worlds, and it is My endeavor, through the chelas who have been drawn into My radiation, to help you to consciously create a Spirit of Helpfulness, a Spirit of Optimism, a Spirit of Faith and Reverence - of Positive Assurance, of Sanctity, before you draw the energies of life forth to perform even the slightest activity in this physical appearance world. Don now the vestments of your Spiritual Nature which make every activity of life a ritual of rhythmic Harmony and Balance. This is the service which the Seventh Ray will bring to the consciousness of all mankind in time.

This service is more important than your outer minds can yet grasp because the feeling world is the energizing power by which all thought becomes action, either as things or as world movements, or as individual service through your daily lives, and the quality and spirit which you have drawn through your feeling world determine the happiness or unhappiness which you produce through that service.

The Beloved Master Saint Germain has said that your activities of daily living should be a ritual of ordered service, and this which I am bringing to your attention today is to intensify that consciousness within you that your ceremonial activities are not merely to be confined to the

group work and Sanctuary worship. You are drawing, moulding, directing and releasing life, waking and sleeping, twenty-four hours out of every twenty-four, and the Vestments of your feeling world determine, for the most part, whether you are living within the natural Harmony of the Holy Spirit or within the caprice of the uncontrolled emotional vehicle which, in sullenness or hurry, in zeal or depression, drives these living human qualities into the food that is being eaten, the bed that is being made, the letter that is being written, or even the steps that you take upon a stair, the manner in which a door is opened or closed, a car driven or a horn sounded. It is to infiltrate the understanding of life into the daily, hourly living that makes the 'theory' of the Master manifest fact. Oh, beloved ones, if you can understand that your daily life can become this ritual of harmonious expression of the Holy Spirit through your own feeling world; that your life may become sanctified as it flows from your fingertips, from your lips, your eyes, the soles of your feet, from your heart, then the so-called monotonous and 'humdrum' experiences of everyday living can become such happy and joyous opportunities of qualifying with Comfort and Beauty this beautiful and impersonal Life as it flows through you - wholly dependent upon the feeling world of each receiver for the garment it must wear in form.

Beloved ones, I love Life so much, and I always want to bring you Comfort, Hope, and Promise, and never to point, in any way, to conditions in your worlds or experience that are limiting your service, and I congratulate you on the fact that you know now, in your feelings, that We are REAL and desirous of helping you.

If you will allow Me, daily, before you start into even the simplest action of turning on the faucet or combing your hair, to give you the FEELING of the Holy Spirit; and if you will become still enough to accept it, then the energy of your feeling world will be activated by Holiness, and as you proceed into your activities of the day, you can do so in that harmonious, gentle, impersonal manner which allows your life to flow forth as a caress to everyone you contact. If this were practised, there could never be exhaustion or depression, and at the end of a twelve-hour period of service, the physical form would be as refreshed as when you began - and more so. I give you now the Blessings of the Cosmic Holy Spirit, and hope that you will don the vestments of your own Holy Spirit every morning before proceeding on your course.

Beloved Ones:

With the interest in the activities of the Transmission Flame running so high, I think it only fair and kind to your outer consciousness to first turn Our attention toward the description of that magnificent activity so that you may enjoy the beautiful Spiritual Service which your own life energy makes possible through your voluntary and kindly cooperation with Our humble suggestion.

Oh, the joy that rises in the heart when the consciousness is aware of accomplishment through the individual's dedicated life energy. I hope that the day will soon dawn when your inner sight is opened and every earnest and sincere heart interested in the invocation and direction of the Sacred Fire may see the instantaneous response of intelligent energy rushing forward to God-accomplishment as the consciousness, through the vision, the invocation, or the breath itself, chooses to mould into some constructive endeavor the substance of the Living Body of God.

How can I describe to you the beauty of Kashmir; the natural peace which has been builded there through the centuries of adoration to God; the aura of tranquility and harmony which forms the setting of the Spiritual Jewel whose great unselfish service is to bring ILLUMINATION, and through it, Freedom to the sons of men? In the heart of these beautiful Kashmiri Hills,

the elevation was chosen which was to be the Chalice into which the Spiritual Flame for God-Illumination would be spoken, and from whence it would flow through this current thirty-day period. An Altar of natural stone was erected, and the Brothers' skill entwined between the stones the green vine and the yellow lotus flowers until no portion of the stone surface was visible, the Altar looking as though it were made of flowers that, through My humble cooperation, have not faded, nor will not fade throughout this entire period. The center of the Altar was left open for the focused Flame, and Beloved Sanat Kumara, the Beloved Lord Buddha, Lord Maitreya, the Master Kuthumi, and the Beloved Manu of our race, in all the exquisite golden glory which is symbolical of the Ray which We honor, took up Their physical Presence before the Altar itself. A great semi-circle was made facing the Altar, with the center seats being occupied by the Beloved Jesus and Mary, also clothed in that lovely yellow. Around Them were gathered the great Teachers who, from the beginning of recorded time, endeavored - through their own life energy, to carry the Word of God to man. In all, there were forty-nine members in this group - representative of the Law - some from Lemuria, Atlantis, Egypt, Babylon, Chine, India, Persia, and every known place where the Light was once drawn and expanded through an incarnate lifestream.

In My Office, as Representative of the Holy Spirit, I was asked to focus over this gathering a great White Dove, symbolic of the Cosmic Holy Spirit which has breathed through all religions and all the spiritual education that has ever activated Truth, or through any compilations or complexities of Truth that have stirred the souls

and spirits of men since the beginning of time. Over Asia, this great Dove was established with a wing-spread that reached out across Korea into the Pacific Ocean and over into continental Europe. At a given moment, the Beloved Lord Maitreya asked the forty-nine great leaders to rise - making a great semi-circle before the Altar. Their bodies took the appearance of great petals of Flame - forming the Cosmic Lotus that was to be the pulsating center of the radiation and blessings which were to be the core of the evening's activities. Through the magnetic pull of the mighty teachers of the past, who drew the attention, faith and conviction of great masses of people who followed their individual religions, over half of the incarnate lifestreams on Earth were present, and through the kindness and mercy of the Karmic Law, all the discarnates who had belonged to these different faiths were also invited and hovered around the great leaders who represented their religion while in incarnate form.

Preceding the actual moment when the pulsation of the Flame began, exquisite Angel Devas wearing garments of lemon yellow, with garlands of flowers of the same delicate color on their heads, entered into every Sanctuary and Home where even one lifestream was consciously taking part in the Transmission Service, as well as into every church, synagogue, and metaphysical Temple in that locality, so that the entire planet was wired, one might say, for the release and illumination of all mankind through the combined life energies of the particular units or groups taking part in the Transmission, through the Spiritual Complements of some of the members of the race, and through the Angelic Kingdom.

At the time appointed, the Beloved Kuthumi and Lord Maitreya gave the signal for the release, and through these forty-nine petals of the Cosmic Flower, the entire multitude and I (through the medium of the Holy Spirit) directed Our Rays into the Heart of the Flame, and then the Blessing and Illumination began to pour forth on the first Breath. The melody that went forth on the Flame was not unlike the one that is sung in the churches called "Faith of our Fathers". For the ensuing thirty-minute period, each of these forty-nine leaders intensified and increased the spiritual understanding as it was carried by the breath of the student body all around the world. It was the most magnificent cooperative endeavor that We have seen manifested since mankind chose to separate the worship of God into 'isms' and sects that form the modern checker-board of spiritual comprehension.

The entire activity of this thirty-day period is concerned with bringing understanding to the consciousness of those who profess to lead the great masses of people along many lines of spiritual thought which form the present credos.

This is a small outline of the exquisite release that went forth from the hearts of the Brotherhood assembled at Kashmir, and you are invited to tune in at any time during this thirty-day period to the pulsations of Understanding and Illumination that are vibrating constantly through this Mighty Cosmic Lotus Flame.

Blessings and Love,

MAHA CHOHAN

Beloved ones, it is with a feeling of sincere gratitude and pleasure that I acknowledge receipt of the many responses to My appeal for your interest and cooperation on behalf of those blessed spirits mentioned in Bulletin 22 of August 16th who are desirous of re-embodying in the course of the next five to seven years that the Earth might have the benefit of their radiation and the knowledge they have attained during their stay in the Octaves of Light - especially during the crucial period which she will be called upon to pass through in the next twenty years. In answer to many enquiries as to how you might assist in this endeavor, I would suggest:

(1) That you make daily calls to the Lords of Karma on their behalf, asking that they may be allowed to come into embodiment exempt from the restrictions of suspended memory, which would limit the service they are eager to give.

(2) I would ask that through the power of the Sacred Fire in one of Saint Germain's Temples of Mercy, that every vestige of human creation, with all its memories and tendencies, causes and effects, may be erased from their consciousness

(3) That through Cosmic Love they may not tie themselves to the karma of family, race or nation, which freedom would allow them to serve anywhere on the Earth's surface without strain on either mental or emotional bodies.

(4) That these blessed ones may take up their Earthly habitations in families of exemplary virtue, both in inner and outer expression.

Regarding this Band of Forgetfulness, I would like to explain that it is most expedient that a Brother from Beloved Kuthumi's Temple of Wisdom stand by their sides always, to guard, guide and protect them until they grow into the full conscious knowledge of their own Christ Selves. You might add this invocation to your list of calls. This represents a unique and most important service to the evolution of the planet, and it is the result of a personal petition by both Kuthumi and Myself before the Lords of Karma. It should also help tremendously in the restoration of the Divine Memory of the more advanced members of the race, and should encourage individual efforts toward the transmutation of the human nature, it being obvious that the Band of Forgetfulness cannot be loosened in the individual until all traces of tendencies to hate and resentment are eliminated from the consciousness. If these qualities are still present in the lifestream when the memory is restored, they are apt to be stirred to new life and intensity, especially should one encounter those who were connected with those unpleasant experiences of the past. This, needless to say, would retard the soul growth, and would not serve any end. We are, as it were, throwing out many celestial hints at this time due to the importance of the hour, and I rejoice that so many of you have been so quick to respond.

Blessings and Love,

Knowing your interest in the great half-yearly Councils, I have asked My Beloved Son, Kuthumi, to give you a resume of the scenes enacted there, the events leading up to the petitions to the Lords of Karma, and the considerations taken into account by that August Body before these Dispensations are granted.

BELOVED KUTHUMI'S ADDRESS

Dear Friends of Love and Light:

The Beloved Maha Chohan has asked Me to touch lightly upon the activities preceding the Grants in the half-yearly Council, and with your permission, I shall endeavor to do so.

When the great Lords of Karma gather and take Their Thrones at the Mighty Conclave in your own beloved Rocky Mountains, opportunity is afforded to every Master, every Retreat, every Angel, Deva, Cherubim and Seraphim whose life is dedicated to the forwarding of God's Plan on the Earth, to apply for and receive energy to further increase the manifestations of Their particular plan or petition. Of this you are already aware.

The Grants and Dispensations, up until the

last few years, were dependent entirely upon the energies We could secure at inner levels, because there was no way of contacting the outer minds of the millions who would voluntarily contribute their energies if they knew of the activities taking place; but since you have responded so marvelously, so happily, so whole-heartedly to Our endeavors; since you have directed your energies and your consciousness to Our Conclaves and Meetings, the energy has been increased a thousand times over that which was Our offer before the Karmic Board in the past. Therefore, for every petition We make now (if the students are aware of them in advance) We can offer the combined energies of all the students, whether they belong to Sanctuaries or pursue their course at home, and for every one petition granted in previous times, We now receive one hundred. Can you understand what that means?

I have seen Beings from China and India who have made the same petitions for ten thousand years - some wonderful plan for relieving mankind's mental or physical distress, and at the completion of their plea, not one soul stood and offered his energy to help them. At the next Council, the same kindly, patient individual would present His plan again - with the same negative results. You will realize then how I felt when every petition that was offered received response, and when the souls among the human race yet unascended stood and offered their energy, every Master's face shone with acknowledgement and gratitude for the energy offered Them in forwarding the Cause so close to Their dear hearts.

You will be pleased to know that I have received a Grant for something for which I have been

asking for a long time; that is to equalize the development of the seven bodies of the students and chelas. It was after this that We sat together, the Divine Director, Lord Maitreya, the Maha Chohan and Myself, and We developed a series of talks which would enable you to understand and feel Us as Persons, and to develop the feeling between Us as between two individuals, and that association through the veil is not fraught with magic, fear or uncertainty. That is why We come to you now in these informal talks that you might enter into that friendship with Us which is built upon coopera tive endeavor. So - be happy, be joy-ous, be loving in Our mutual Love and Friendship.

The following is a description of the activities at the Transmission Ceremony which was held this month at the Retreat of My Beloved Son, Paul, known to you as the Venetian, Chohan of the Third Ray, The report is by the Beloved Kuthumi, and I know that you will enjoy it.

ADDRESS BY BELOVED KUTHUMI
Saturday evening, September 19, 1953

Good evening, Beloved friends of Liberty. Many times, in the course of the centuries, has your love of liberty caused you to rise, individually, and at no small personal cost, pursue a path toward a land, a goal, where you, individually, might weave the energies of your own lives according to the dictates of your conscience, the impulses of your own Christ Self, and the earnest, honest and sincere beliefs of your faith of a given hour.

Tonight man is again given the opportunity of worshipping at the throne of the Goddess of Liberty and within the great Retreat guarded by the Chohan of the Third Ray, they feel the Spiritual Impetus of the Immortal Flame within the heart which is

Liberty in design, and manifest God-mastery because that is its pre-ordained destiny, and the reason for which it has been sustained within the hearts of mankind for countless aeons of time.

Why do you think a Canopy of Love, a Guardian Power of Angels and Masters and Devas would sustain that Immortal Three-fold Flame of Life within the least of men except that They knew consciously that within that Flame was the potential power by which each soul might be transmuted into Mastery and God-dominion?

Tonight I point you, as My own Guru did before Me, to the majestic Power of the Three-fold Flame of Life within the heart, within which is Healing; within which is Illumination; and from which is woven Supply. Out of its essence is designed every prospective power by which the soul could move through the most intense discord and be untouched. It is the Pathway of Light upon which the Spirit rises to its own Eternal Freedom. It is the majestic Power which holds the very physical form, each atom in its perfect place, each organ in its natural orbit, and restrains the elemental life from flying back to its freedom in the heart of the Sun.

Within the Immortal Flame of Life is the call which must be answered by Deva, Angel and God; but man uses it not, and the priceless stream of electronic Light flowing into it is spilled in imperfect living.

As we enter the Heart of the Venetian's Retreat, We who are dedicated to loosing the power of that Flame and bringing to the consciousness of the outer mind a realization of the manifold

activities that are within it, are determined that, for those who desire Liberty in order to pursue the course of Mastery, the Powers of this Flame shall be manifest. Are you so determined? We shall see.

Tonight, the Sanctuary wherein the Liberty Flame is focused has been opened, not only to the Brotherhood of Earth and our universe, but from the Suns which stand behind Helios and Vesta, and from their planets and satellites have come the Beings who represent the Lords of the Flame - individuals who, like the mankind of Earth, evolved an understanding of the power of that God-given gift - which is the Immortality of the soul.

Not only on Venus do the Lords of the Flame live, but on every God-free planet. They have come and shall remain within the aura of this sanctified Retreat to give the pressure of Their feeling to any lifestream who chooses to enter within this Sanctuary and, in the inner bodies, learn the Law of centripetal and centrifugal force as controlled through the heartbeat.

You have come to know Sanat Kumara as the Lord of the Flame, but this great Master is only ONE representing a single planet. There are Lords of the Flame one very superior planet of every system. It is a beautiful sight to see all these Great Ones clothed in garments of spotless and seamless white - the Three-fold Flame within Their hearts filling Their entire bodies from beneath Their feet to about three feet above Their heads and making an aura of more than three feet in diameter all around Them. They are deliberately imprinting the Power of the Immortal Three-fold Flame upon

the inner sight of all the gathered chelas so that whoever enters this Assembly within the current thirty-day period will see everything muted before this concentrated Flame.

The Sanctuary itself is beautiful, with the glorious Liberty Flame rising from the Altar about twelve feet. The Venetian stands to the right of it, clothed completely in an exquisite shade of Emerald Green - His tunic - His mantle - His Sceptre. This beautiful shade seems to enhance the golden glory of His hair, making of Him a truly magnificent figure. To the left stands Lord Maitreya in pure white - the Three-fold Flame within His heart clearly revealed through His Light Body.

As each Brother enters, the Flame on the Altar takes on a deeper hue, and increases in intensity due to the Power of His Presence.

The Brothers have decorated the Altar completely in the Fleur-de-Lis in both the blue and white shades, arranged in urns of exquisite design in crystal, marble and alabaster, emphasizing the Power of the three-fold Nature of Divinity.

The Beloved Maha Chohan and the other Chohans are already seated and are engaged in an activity which has not been described before. As each Master enters contemplation, He emphasizes His own magnetic Power and consciously draws toward Him the chelas and devotees who work with Him. Thus, whether their bodies are asleep or consciously cognizant of His Presence, He draws them here, and it is interesting to see them come in, one by one, and in groups. Jesus has drawn many from the orthodox channels, and while a few of

these seem to be on the timid side regarding this new action of the Law, nevertheless, they have come and seem interested. Lord Michael is magnetizing the discarnates, and millions of them have already gathered.

Sanat Kumara is now entering, and everybody rises. He carried, amazingly, the brazier in which is held the Three-fold Flame for the Earth. This He puts within the Liberty Flame on the Altar and then takes His place in the center of the audience with two of the Kumaras on each side. The Lord Buddha has not yet arrived. There must be a cosmic reason for this which, no doubt, the Maha Chohan will explain later.

I must leave you now to take My place in the activity of the evening, and I trust that you have enjoyed My endeavors as a 'commentator' in giving you a picture which I hope will live long in your memories. I thank you.

While we are yet in the radiation of the Retreat which is under the direction of the Chohan of the Third Ray, Beloved Paul, the Venetian, I would like to point out to you that the activity and service of this particular Ray is to develop Brotherhood, Tolerance and Understanding in their widest and most spiritual sense. The Beloved Venetian is empowered through this Ray to assist to understanding every lifestream who wishes to rise above the separateness which forms the ceiling of the consciousness of the masses, and to help them cultivate a sympathy with and an understanding of the people with whom they come in contact, that, through understanding, they may be assisted, each one, in the development of their own God-Mastery. We are, therefore, continuing, in a measure, the activities which formed the basis of the thirty-day period in the Retreat in Kashmir, in emphasizing the tenets of World Brotherhood and the fundamental truths which lie as a basis beneath all the evolved religions of the human race.

In the Western Hemisphere there are less Third Ray men embodied than in the East. However, there is a quality and nature that must be encouraged, particularly through those who desire to assist great numbers; that is the faculty to develop the Flame of sincere interest in one's fellowmen. I therefore encourage, with great pressure and feeling, the direction of the consciousness toward this Retreat and this Chohan, that the chela might know and feel the spiritual aspirations within

the souls of those who might come to them for assistance.

No man comes into the full powers of his own being until he has become Master of the vibration of the Third Ray in tolerant understanding, diplomacy and tact, which is the Gift of this Chohan to all who seek Him.

On the evening of the Transmission Activity (September 19, 1953), We began the actual creation of the permanent forcefields around the Sanctuaries and Homes of those who participated in the drawing and direction of the Liberty Flame around the Earth. When I say 'forcefield', I would like to describe to you exactly what I mean in order that you may be able to participate in increasing both the size and quality of that forcefield for any specific service.

The Rays of Light directed from the heart, governed, more or less, by the nature of man, have a natural periphery, and the circle created by the outer edge of these Rays forms the forcefield of such an one. An intense dynamic person has a forcefield of greater size than a lethargic person. An individual who has become cognizant of the Three-fold Flame within the heart, and who has learned the control of the balanced breath, also has a larger forcefield than the uncontrolled and undeveloped man.

All of the energy from the physical and inner bodies that reaches out to this imaginary circle or periphery is called his SPHERE OF INFLUENCE, and affects all the life that comes in contact with the quality of the vibration flowing through this forcefield at any given moment.

In a spiritual activity, when a group of individuals gather together, they combine the energies of their lifestreams, and a great artificial forcefield is created made up of the cooperative energies of all who are gathered there. The nature of the leader and the amount of qualified energy such an one draws forth through song and decree, visualizations and rhythmic breathing, determine the amount of efficacy that this forcefield can render Us in conveying qualified Flame representing a particular Virtue or Gift which We see will benefit a locality at any given moment. Naturally, when a group disperses, this great artificial forcefield is returned to the universal, and it is the Office of the Builders of Form and the Angels of Ceremony to recreate it at each class or meeting as the case may be.

Because of the service which We desire to render through the Transmission Groups, We have asked for permission to sustain the forcefield which is builded of the rhythmic breathing, visualizations and group activities of the Transmission Centers. The Cosmic Law required that We wait certain months to see if the students would be constant in attending the classes and show continued enthusiasm in becoming a bridge over which the Flame would ride to encircle the Earth. We have now been given that Grant, and the night of the last Transmission Class, the forcefields created by each Group Activity were each ensouled by a Deva, an Angel, or a Builder of Form who has agreed to remain within it and represent the heartbeat while the individual students who have made it up return to the ordinary course of their daily living.

The importance of this from a spiritual standpoint cannot be over-estimated for it provides for Us, over all the landed surface of the Earth, certain conductors already harmoniously qualified and permanently pulsating, through which, at a given moment, a Flame of Protection, of Balance, of Peace, Healing or Power may flow to give assistance to a locality which We, with the inner sight, see will require more than ordinary assistance by the Watchers.

If you will be so kind as to give conscious acknowledgement to these forcefields when you next enter within your group activities, you will see that the expansion of your spiritual stimulus, individually, will be greatly benefitted because, rather than having to rebuild the stimulus through the group activity, it will be a gathered and sustained momentum from meeting to meeting.

The Beloved Silent Watcher of Our planet, the Elohim, and the Beloved Lord Buddha, from Cosmic heights, anchored into those forcefields a small Three-fold Flame which is the pulsebeat within the keeping of the Deva or Angelic Form, and as the Flame encircled the Earth, each time it went around, it was as though it burst and blanketed the Earth with sheet-lightning - north, south, east and west - from every such center. It was the first time in the rhythmic encircling of the planet that the Flame, as it touched these forcefields, continued to explode and give this sheet-lightning effect - each explosion larger than the one before, and all releasing the Liberty Flame into the inner consciousness and inner bodies of the race, the chelas, and the Elemental Kingdom as well. Because of the creation and sustenance of these forcefields, it will be possible to keep this rhythmic motion going continually throughout

the thirty-day period, and it will not cease until We enter the new vibratory action of Hilarion's Retreat at the close of the cycle.

This date will be remembered as it is the beginning of the establishment of the Transmission Centers to carry the Sacred Fire - which qualified Life is the redemption of all energy, of substance and vibration. This accomplishment marks a milestone for Us.

Blessings and Love,

MAHA CHOHAN

Beloved Children:

You who have responded, through the veil of flesh and through the vibratory action of the outer consciousness, to the magnetic pull of Our hearts, and you who have bared your souls to the vital Rays of Truth, are blessed among the sons and daughters of men.

Today, it is My pleasure to give you a short digest of the addresses on RELIGION and its relation to man's spiritual evolution as presented by various members of the Brotherhood at the Kashmir Retreat while that August Assembly was in session recently.

What, truly, is RELIGION? Is it an opiate for the weary senses wherein the seeming reality of the distresses of the outer world may, for the moment, be forgotten?

No! Religion is based on a seven-fold principle, and mankind, for the most part, including conscious students of the Law and even advanced chelas, have not fully understood its seven-fold nature.

In its journey back to God, the soul passes through each of the Seven Rays:

Surfeited with the enjoyments of the senses and impelled by the Divine Teacher within the heart, it at last comes to its knees before its

Creator, and here you have the action of the FIRST RAY in the invocation of the bemuddled consciousness to learn the WILL OF GOD.

The soul next passes into the radiation of the SECOND RAY and learns the Law of Cause and Effect through the recoil of its own energy, which is the pleasure or pain occasioned by the qualification of the life given into its charge. A little later, under this Ray, the Divine Design of the Hierarchy is explained and the place where each individual belongs in the great Plan. It is the place of ILLUMINATION where, after asking the Will of God, the revelation of the Divine Scheme of things is presented to the earnest soul.

Then the aspirant passes through the portals of the THIRD RAY, and under its radiation, he endeavors to make his understanding of practical value to his fellowman, developing TOLERANCE, UNDERSTANDING, and a sincere deep interest in the spiritual growth and welfare of the race to which he belongs.

He then passes into the FOURTH SPHERE, and looking upon the sordidness and distortion of the life principle which has become his body and environment, he recognizes the truth that BEAUTY, HARMONY, and PERFECTION are God-ordained as part of the RELIGION of the awakened man, and he begins, through the moulding of his thought, the purifying power of feeling, and the direction of the Sacred Fire, to externalize that which should be a credit and example to all life.

In the FIFTH SPHERE, following the same pattern, he passes to the Illumined Understanding of the mathematical accuracy that lies within

CREATION, PRECIPITATION, ETHERIALIZATION and LEVITATION, and all those powers called mystic by the mind of the undisciplined.

He next passes into the SIXTH SPHERE, having received within himself the Gifts that all the preceding Rays have offered him, and here he kneels, but this time in THANKSGIVING and DEVOTION for the Gifts of Life. Then the Hosannas rise from the heart and lips, the Aves fill the atmosphere, and "Praise God from Whom all Blessings flow" becomes the illumined heart prayer of the initiate of the Sixth Temple.

Having expressed his gratitude to God through devotion to his Christ Self, to the Angelic Host, to the Masters of Wisdom, and to his fellowman, he is then ready to pass on into the Seventh and final activity of his RELIGION - whether he be Moslem, Jew, Christian, Metaphysician or Student of the "I AM" - whatever label he gives to his religion, he then enters the Seventh Sphere.

Here in the SEVENTH SPHERE, the words of the Master Jesus ring through his consciousness: "Hitherto the Father worketh; but now the Father and I work!" and all of these gifts of energy; all of the Teachings of the Brotherhood; and all of the Beauty and Sacrifice, Illumination and Devotion gained by the lifestream in its journey through the preceding Spheres now become his responsibility to offer on the Altar of Humanity in ORDERED SERVICE, which is the watchword of Saint Germain, Chohan of the Seventh Ray or Sphere in which the spiritual traveller now finds himself.

In this Seventh Sphere, knowing the Will of God; illumined by Understanding; loving his

fellowman, the Elemental and Angelic Kingdoms; filled with the beauty and opulence which is his birthright; understanding the powers of centripetal and centrifugal force; heeding the cry that comes from the hearts of the brothers and sisters still in bondage, and answering that cry with hearts overflowing with good - not with the lips but through the feelings - that is the man through whom the Ceremonial Worship of the Seventh Ray, the final Ray, shall be affected.

Next week We shall talk a little more on the Nature of Religion and what is expected of the mature man in return for the assiduous care on the part of the Celestial Hierarchy in guiding his footsteps through the various Spheres necessary for his spiritual development.

Blessings and Love,

MAHA CHOHAN

Beloved Spirits of Immortal Life:

Following up Our remarks of last week on Religion, I would like to ask you this: What, in your Religion, distinguishes you, who are its followers, from the masses? Inner Peace, perhaps! But it must be more than that!

What is meant by the mature man? Saint Germain, Chohan of the Seventh Ray, represents the Perfect Man to the Earth planet. He is the Bridge between the kingdoms of the Angels, the Elementals, and His brother - man. He is the Bridge between the Kingdom of Heaven and Earth. It is He who, with outstretched arms, forms within Himself the Maltese Cross of Freedom - the united kingdoms of Angels, men and Elementals - the Angels and Elementals making the horizontal or cross arm of the cross, and the Master, wielding the Powers of the Sacred Fire united with His own Consciousness through His body into the Earth, making the upright bar. That is the mature man, and the man who understands Religion.

Oh, that I might convey into your feelings the desire that is within Lord Maitreya for your spiritual awakening which is manifested in the fact that He has ordained that We come, and in speaking Our hearts to those who are willing to listen, We are endeavoring to convince your feelings of your ability to change conditions through the direction of the Power of your life.

Worship has begun to mean relaxation of the senses, and well can I understand that - seeing, with the inner eye, the desires of the day; how you long for the Peace and Sanctuary of God - away from the thraldom of your own creations. I do not condemn, for I love you more than you can ever love yourselves, but I DO want you to be what God intended you to be - not what you want for yourselves. I want you to be FREE! I want you to be MASTER! I want you to be that which Saint Germain can use as a living example of the Free Man - in which is embodied the Seven-fold Nature of Religion.

Now be not unduly concerned, for every man is strong in one point out of the seven - which is natural because each of you is one of seven types. Saint Francis of Assisi got His Freedom and found His God walking through the fields; Saint Augustine in a cathedral; Saint Paul walking along the dusty road with bitterness in His heart toward the One who was to be His own great Master. It is a wonderful thing that you have even one facet developed, else you would not be interested in this Activity. You would be 'gamboling in the fields' with the rest of the race. At least one of your developed designs of worship is strong enough to have brought you to the feet of the Master and the Cosmic Christ.

Now I want you to do something for Me. I want you to take your soul, each day, through the Seven Temples - one in each Sphere. Discipline that soul. Abide for a time in the Temple - at least until there is a response to your own vibration. If you are proud and stiff-necked, and your knee knows not the capacity to bend, kneel at the feet of the great Morya and learn from Him the joy of

surrender, and to say: "Thy Will, my God, be done - not mine!"

If you are mentally lazy, and prefer to have another design your Religion for you, enter into the Heart of the Temple of Love in the Second Sphere and demand God's Illumination from within. Leave not that Temple until Understanding, not born of another's word, but your own, makes service a happiness. Do you know why men make the practice of Religion a duty? Because they are building their faith on someone else's word. Therefore, the practice of their Religion is performed through duty and fear without feeling its Truth - just because some other part of life has said so. Oh, when your Heart Flame has revealed to you the Cause behind the action, you will serve like the Angels; your feelings will be happy, and your hearts will sing.

Do you find that loving your fellowman is a chore? Then keep your soul centered in the Third Sphere under the great Venetian Master until you hear the cry in the heart of that fellowman; until you sense his struggle, his hopes, his needs. Do not leave it, children of My Bosom, until you FEEL that Love. This is My own Temple as well.

Do you believe in austerity, in self-denial, rigid surrender of all your senses to the Penitential Doctrine built into your sweet lives through early living when the hair shirt and the Vow of Poverty were considered a virtue? Then abide for a while in the Fourth Realm. Observe the garments of the Angels and the beauty of your own Celestial Mother, and the Divine Perfection of the Heart of the God-Self - not for vanity, mind you, but because the world needs Beauty.

Suppose that I made all your flowers square - or black - or green - with no perfume - conserving on the energy required to put color and scent within the flowers. Where would man be? Oh, it is good to pour Beauty into the world when the motive is to bring happiness to life. Do you see?

Then, on your journey into the Fifth Sphere where the great Hilarion and the Goddess of Truth abide, watch the combination of the Rays that make certain powers available. Look at Love mathematically and see how it draws the goodness of life toward itself. Ask the Master to show you a vortex of hate and see how it repels money, friends and every good thing; and there confirm your faith by practical witness.

And the Sixth Temple - oh, I do not have to urge you to enter here, but I would have you elaborate on the manifold blessings in your individual life. Mark them off, one by one, if you can count them! Draw into your feeling world the Love of the Master Jesus which permeates this Sphere and do not leave it until you have felt that Peace which fills the atmosphere of that Holy Realm.

You are now ready to enter the Seventh and final Sphere, and here you may consciously step into the arms of the Sacred Love of the Sacred Fire, asking the Loving Presence within its Heart to remove from your four lower bodies every human tendency - raising them by its Divine Alchemy into the Perfection of itself.

Blessings and Love,

MAHA CHOHAN

Beloved Children of the One Father:

A THOUGHT FORM is a product of the creative processes of the mind. It is the result of drawing energy from the Universal Substance and moulding it into a certain pattern which forms a 'cup' of small or large design. This 'cup' is then filled with the electronic light substance that vibrates at the same rate as the original thought pattern. Therefore, your thought form can vary greatly in its effect upon your individual life and the universe in which you live.

Every time a person reads a book or listens to a lecture, the process of creating thought forms begins immediately in the outer mind because every word written or spoken contains within itself a mental picture, and a corresponding thought form is exuded from the lifestream. When an individual has been a student or scholar for centuries, the mental body is a tremendous conglomeration of such thought forms, and is not, therefore, as pliable or fluidic as that of one who has not drawn such a quantity of mental force into himself; but on the other hand, the student or scholar has built up a power of concentration and precision in creating thought forms far beyond the individual who very seldom uses his intellectual faculties. Therefore, when the student or scholar, with great intensity, consumes the hundreds of thousands of unnecessary thought forms that have cluttered his mental world, including pre-conceived ideas of spiritual Truths,

he clears the way for the creation of very clear and definite thought forms which can be used to fulfill his or her Divine Plan, and because of his very momentum of thinking, he is closer to the precipitating power than the unthinking individual. This consuming process is done through the use of the Sacred Fire.

It is safe to say that the great majority of the students of Saint Germain belong to the positive thinking class of individuals described above because each one has, of his own free will, chosen to accept the Truth that the redemption of the race is an individual process made possible only through the complete surrender of each one's outer mind to the nature and direction of the indwelling Christ Self that beats the heart of every man.

Such a person then, in his contemplation, can begin to consciously create thought forms of a high spiritual nature. He can form a picture of the Three-fold Flame in his mind, or the faces of the Masters, or the beautiful forms of the Angels, or any expression of beauty that his heart desires, and these 'cups' will immediately start, through the magnetic power of attraction, to draw the substance from the hearts of the Perfected Beings whose thought images he is creating, and these creations will form his environment, bringing beneficial results into his world. You could sit entirely alone and through the projection of these powerful concentrated thought forms, enrich the lives of mankind without limit. They could be a mantle of protection around those you love; they could be an expansion of your physical assets, and could carry the consciousness of the Gods to other people. It is the thought

forms of My own Cosmic Heart that you see expressed in the beauty of Nature and which I began to create in just such a manner centuries ago. Try it now for yourselves.

Blessings and Love,

MAHA CHOHAN

Beloved Friends:

It is My pleasure and privilege to present for your enjoyment a report of the activities covering the Ceremony of the Transmission of the Flame which took place on the evening of October 17, 1953 at the Retreat of My Beloved Son, Hilarion, over the Island of Crete off the coast of Greece. The Beloved Kuthumi will now give you an eye-picture of the events of the evening as they appeared to Him.

BELOVED KUTHUMI'S ADDRESS

Beloved Friends:

Tonight We witness a most exquisite Festival in the Etheric Realm where the beautiful Temple of the Goddess of Truth stands as a focus for the Brotherhood who have dedicated their lives and purpose to directing into and through the consciousness of mankind the pure White Flame of Understanding and Illumination, the acceptance of which brings comprehension of the Eternal Verities.

This beautiful Temple of Truth stands on a

high eminence reached by a magnificent marble stairway of four hundred or more steps. On either side of this beautiful stairway, extending all the way up to the wide columned entrance, stand exquisite Angelic Beings clothed in iridescent colors, holding in Their upraised hands garlands of bright colored flowers woven into patterns somewhat similar to the Christmas wreathings you enjoy in your outer world activities today.

As We ascend to a point parallel with the wide entrance door, We come in sight of the great Altar rising well over one hundred feet in height, at either side of which stands a great carved pillar upon which rests a golden brazier from whence flows the Green Flame of Truth. Before each of these pillars is placed a massive Throne Chair of early century design, the raised arms of which are upholstered in what looks like white velvet. These chairs have been provided for the Beloved Pallas Athena, Goddess of Truth, and Our Lord, the Maha Chohan.

Many of the Brothers belonging to this Focus are already gathered here in the Assembly Hall. They all wear white robes with the emblem of the lighted lamp over the breast. Some of them are mingling with the guests; others are acting as receptionists. There is an air of expectancy, silence and reverence over the whole Assembly because of the Presence of the unveiled Flame of Truth, which offers to the Brotherhood a tremendous opportunity to direct into the consciousness of their chelas everywhere more of the understanding that lies within the tenets of the particular religions and outer world activities which this Brotherhood fosters. They all seem to be conserving the energies of their individual

lifestreams, which are being impregnated with this Flaming Substance of Truth that they may be more powerfully directed when the climax of the evening's activities is reached and the Transmission of the Flame goes forth on the Holy Breath.

The Beloved Maha Chohan is now entering, accompanied by the Beloved Pallas Athena, and They do present a magnificent appearance. The hair of Pallas Athena looks like golden flax, and She wears it piled high on Her head, held in place by an ivy garland. The hem of Her white robe is embroidered in the same exquisite green leaf design. The Maha Chohan wears the turban with the large golden shining topaz in the front. His white tunic is hemmed with the same brilliant green ivy-leaf design - the same motif appearing on the neckband of the garment. (The ivy leaf being symbolic of Eternal Life)

As They take Their places and are seated, the entire Assembly comes to attention. The whole scene is one of such magnificent perfection that it gives cause to wonder why people seem to fear so much the Presence of Truth. This beautiful and gracious Lady embodies the true nature of the feminine aspect of the Deity, and it is Her happy responsibility to give, to any member of the race desiring it, Her consciousness of Perfection which is the only Truth and unchanging reality behind this unstable world of form. Looking at Her, I can only think that it will be a happy hour when men and women alike can accept the design of their own Godhood and externalize Truth through their forms as She has done.

It makes an exquisite complement - Truth bringing Comfort, and Comfort bringing Truth.

How perfectly balanced is the design and order of the Universe wherein God-Flames are focused and qualified by certain Intelligences and held like lighted lamps in the darkness as a magnetic focus of a certain quality until the evolving race, emulating the embodied Virtue, becomes the fullness of that Virtue also.

Were it not for Beings who chose to embody the Nature of Divinity, there would be no pattern toward which the outer consciousness of man could look. It is to be regretted that the love and honor and respect which were accorded the Gods and Goddesses in the early days has been stamped as paganism in the endeavor that has been made to wipe out Their memory from the consciousness of the race.

There were ages when the Beloved Pallas Athena was visible to unascended mankind. Her Presence was sought and She held connection with the seekers after Truth through the Delphic Oracles in Greece. Now again, through the conscious understanding of the student body, an opportunity is being given to direct the Flame from Her Temple and Her Brotherhood into the magnetized centers of the receptive minds and hearts of the people. He who wished to know Truth may do so now. He who wishes to stand in Her Presence has the opportunity, and he or she who wishes to become THAT which She is will receive the warmest blessings from those of Us who serve to set life free.

BELOVED KUTHUMI'S REPORT OF
TRANSMISSION FLAME CEREMONY
(continued from Bulletin No. 32)

The Beloved Hilarion has just entered. He is wearing the White Robe of His Order, but it is hemmed in ever-deepening shades of green, from the very pale Spring shade at the top to the deep bottle green at the bottom of the hem. He takes His place at the center of the Altar between the Maha Chohan and Pallas Athena. As He does so, the entire audience rises, including the honored Guests. The Maha Chohan and Pallas Athena now draw the Flame from the braziers above Their heads, directing it into the raised hands of Hilarion where it assumes the form of a closed tulip not much larger than His hands in size. He now raises His hands above His head; the Flame which He holds does not increase in size, but it does in brilliance until it looks like quicksilver or mercury; and now little diamond-like points begin to shoot out through His fingers - the White Light of Truth - so brilliant that His entire form disappears and only the tulip form of Light remains, seemingly suspended on a Pillar of Flame.

His body, which has taken on the semblance of a Pillar of Flame, pulsates before the Assembly. Every member of the Brotherhood present directs, from His own consciousness, a beam of White Fire into that tulip form until the room looks as if filled with thousands of fine steel wires all converging into this small pulsating focus.

While this activity is silently taking place, the Maha Chohan is informing the Assembly that They have asked every Representative who has ever brought Truth to the planet during every hundred year period since man first descended upon it, to be the Guest of the Brotherhood this evening, and, in orderly procession, to stand before Hilarion, receive from this concentrated Flame of Truth, a beam, and direct it through the teachings he represented into the etheric bodies and worlds of every lifestream who ever listened to his word, studied at his feet, or endeavored to partake of Truth through the avenue which he provided. This activity should take Us through some forty-eight hours, and will continue through the Transmission of the Flame period in conjunction with the expansion of the Flame of Truth through mankind.

As the individuals who have been invited to participate in directing this Flame through the constituents and followers who have believed in them through the centuries gather together at the rear entrance behind the Altar, I can look down over their heads, and they stretch well over a mile beyond the doors. This is a magnificent thing - each one of these individuals having touched the lives of many hundreds of thousands of their fellowmen. There are among them poets and philosophers, scientists, inventors and explorers. There are men of letters and men of the Spirit of God. Many of these are in embodiment again and will have to give their cosmic service while their physical bodies are asleep. Others are ascended and enjoy the full freedom of the time required for this service. Some of them are discarnates and have been invited from the Sphere in which they dwell, to which they will return

after the Ceremony, and there await the summons for re-embodiment; but all must fulfill the obligation imposed upon them by the pure White Flame of Truth - to bring its Light and Illumination to their followers.

While We have been speaking, the Beloved Hilarion has continued to hold that focus of White Fire, which has been drawing into itself all these lines of force directed toward it. It has increased in brilliance and has now begun to unfold so that it forms a canopy over the entire audience - its petals reaching outward and upward.

Now it is about time for the drawing-in action of the Flame, and for its Transmission which will send it forth, in its Cosmic outpouring, over the entire Earth.

"May God, through man, reveal Truth this night, and may every earnest heart and soul calling for understanding and illumination find both in the Presence of Truth.

"May every student and conscious worker in God's Kingdom stand in the visible Presence of Pallas Athena Herself and have cut away from the lifestream all misconceptions and shadows of mind and body, and through the acceptance of the reality of their own Divinity, become eternally free."

This is Our decree for humanity tonight, and may every Brother and Sister who stands before this Altar FEEL that Flaming Fire of Truth blaze through their brains and consciousnesses as they direct it forth to bless mankind.

REPORT AFTER THE TRANSMISSION CEREMONY

As the great initial Flame of Truth was breathed in by the assembled Brotherhood, qualified by the full-gathered cosmic momentum of Truth within Their Consciousnesses, and directed forth on the breath toward Luxor, it became greatly increased in both size and brilliance. The entire locality was so brilliantly lighted by its presence as it took its course around the Eastern and Western Hemispheres and back to its starting point that its current path was indistinguishable in the great White Light that was world-engulfing with each revolution. In the meantime, the procession of the sages, saints and teachers had begun its slow movement, and the first of the great leaders had taken his place before Hilarion. It was wonderful to see, as the Cosmic Flame of Truth touched his consciousness, the beams of Light going out into the students who had, at any time, contacted that individual or his teaching, and this same activity repeated itself through each of the others as they stood before the Flame of Truth. The entire activity took place and still continues pulsating with the lovely melody held within the hymn: "Onward, Christian Soldiers." If you could hear that hymn sung by the Angelic Choir accompanied by the beautiful voices of the Ascended Masters, you would understand what a stirring vibration of Truth that song sets into motion.

I cannot emphasize too much that this month holds an opportunity to receive more of Truth, and in its receiving, to become an open door for its dispensing. I thank you, and I love you, and I bless you.

Beloved Ones:

This morning I come to you very informally to bring the Love and the Radiation of My Friendship, My association, and My Presence.

Do you know that when the Masters choose to speak to you, through the energy of your own electronic stream of Light, there flows a permanent substance which is part of Our own Life and which actually qualifies the electronic flow from your own Presence with Our Consciousness, Our Feeling, and the Qualities which We are privileged to express in this great Universe?

For the period of time that your attention is upon Us, you feel the comfort of that qualification by the Master, and you experience for that time something of your own natural feeling when you become master of energy. The upliftment, the peace, the radiation which earnest and sincere men and women and children have felt all through the ages when they touched the hem of the spiritual garment of some Master Presence of Life was just a foretaste of the natural activity which the God-Parents of the race desire for every soul evolving on the planet.

Sometimes people become despondent because, after such an exhilaration of consciousness, they revert back again into their own mental and emotional turmoil, but each time We come; each time you partake of that Holy Communion, it will

become a little easier for you to recreate consciously and at will that same happy comfortable feeling that you experience in Our Presence. Perhaps I should qualify that by saying - which any lifestream receives when he accepts Our Presence.

I have witnessed great congregations gathered together to worship and find God through many ages. I have witnessed the diversified consciousnesses that make up such a worshipping body, seeing clearly the motive that has drawn the individual to that place, and I have seen the outpouring of the spiritual force from whatever Master Presence had been invoked as the Patron. I have also noticed that the benefit which each individual member of the congregation received depended upon the acceptance, within the feelings and intellect, of that Master Presence. Some have gone away from such a place renewed and revivified; others have gone away empty. That is one of the questionable gifts, let us say, endowed upon the individual in the use of free will, for neither the Gifts of God nor His Messengers; neither the peace nor the healing, nor the comfort of the worded expression can intrude unless the consciousness of the individual opens the door and will accept it.

That is why We are doing everything possible to make you feel that We are actually living breathing Beings who have been the Guardians and Protectors of this Earth for such a long period of time. That is why We are so filled with gratitude for every opportunity that will bring to the attention of mankind something of the service which the Celestial Hierarchy renders - those great Personages who have chosen to embody the

Virtues of God and from whose Lifestreams emanate those exquisite feelings which mankind seek within themselves and which they think would represent happiness, security, or Heaven.

The other evening, I was sitting with My Beloved in Our Home in Ceylon, and I had just received from those messengers who have been entrusted with that particular facet of service, the letters written in sincerity and kindness by hundreds of people here in your Western Hemisphere. I do not believe that I could describe to you the happiness within My heart at this phenomenal acceptance of Myself as a tangible, conscious and intelligent Being who is as easy of access as a father, or a brother, or a friend.

You see, up until the last few years, My service has been very remote from the consciousness of the average man. I relied almost entirely upon My Chohans and Their accepted chelas to draw the consciousness and understanding of the people up to a point of adeptship where they became Master of all but the most subtle vibrations, and then I would only have a passing acquaintance with the individual lifestream.

Suddenly, in an almost unbelievable manner, considering the many thousands of years such an event was hoped for, the Western mind has accepted the possibility of reaching the hearts of those of Us who live beyond the veil.

Every word and every line in every letter written through the physical substance and energy of some sweet, earnest, trusting and sincere heart, impressed on each emotional body - on the substance of the mental world and written into

the etheric consciousness of the lifestream - I READ MYSELF - and back on the flow of that energy, once each month, I direct the Substance and Flame of My own Presence, and it follows the same course, pressing through the etheric body, the mental, the emotional, and the physical garments of the writer.

Now when a man pens his word in mind alone, the return current from My World, returning to its causative center, blesses the mental vehicle. When the gratitude or blessing flows from the emotional body in an upflow of praise, the return current blesses the emotional body, but when all of the bodies are incorporated in the physical act of joining the energies of the electronic Light of the lifestream, the return current from My heart flows through them all.

Order and system comprise the First Law of Heaven, and an exact mathematical precision, one might say, is essential for those of Us who govern energies by which planets and evolutions are sustained, and We will never ask of any man anything that does not have an absolutely scientific reason which will bless the lifestream if he will comply with Our request.

My Beloved and I sat for a long time that evening just talking informally and thanking God that man is now so consciously interested in Truth. It is lovely, you know, to address great numbers of people and exhort them to greater endeavors to serve God; to assume their natural God Nature; and to externalize the Qualities of the Holy Spirit, but, do you know, I enjoy most drawing closely into the feelings of the few who are My Heart Friends and picturizing for you the

activities which prove that We, too, are individuals who share companionship and friendship, and who have to evolve out of unexpected circumstances, like the present one, new methods to bless and help the race.

Wishing you, each one, a Holy and Happy Thanksgiving, may the Comfort of the Holy Spirit enfold you and all mankind in its embrace of Love and Light.

Blessings and Love,

MAHA CHOHAN

Beloved Spirits of Immortal Truth:

I address you thus because each one of you is a Spirit of Truth in essence; because only Truth lives eternally, and the very fact that your presence in the universe has been guaranteed immortality signifies to life that you are a Spirit of Truth. That with which you have clothed this essence may be less than Truth, but in a flash, in the Flame of Purification, the accretions of the ages become ash, and the Divine Image in which you were created from the Bosom of the Eternal Father stands revealed.

We have honored Truth through this cycle - through the entire twenty-four hour period of each successive minor cycle of thirty days. Member after member of the Hierarchy has addressed the souls who deeply desire to know Truth, and that desire has drawn them into the aura of this great and mighty Focus which has been sustained through the ages in order that those who sought - refusing acceptance of partial Truth and refusing acceptance of error - might stand in the Presence of Truth Unveiled and partake of Her Gift and Realization.

You would be amazed at the tremendous impetus that is alive within the souls of men to know Truth individually - not only the incarnate spirits, but the billions awaiting summons before the Lords of Karma for opportunity to work out their Life Plan on this small star. This is the

first Cosmic Impulse which has stirred in the human heart and in the hearts of the discarnates because every one of the evolving spirits belonging to the Earth were present.

The desire to know Truth is a pre-requisite to illumination, and even though the dispensation was not granted to the Holy Christ Selves of the entire evolution, for reasons that are obvious, the pressure of the Flame of Truth playing upon the feelings and entering into the activity of the soul has been universal, and every lifestream, some feebly and some intensely, has begun to call from deep within the recesses of its being for Truth to be revealed. It is the first completely unanimous response of the evolution since the Transmission Classes were started.

Let Me elaborate on this a little for your own illumination. Each time the Flame from the Retreat is released, it flows forth universally through the three kingdoms and impersonally bathes the consciousness of all life in the same manner that the sun and air bless the just and the unjust alike. The conscious reception of the blessing from the Retreat is limited to the students who participate in the Transmission Classes and in the nightly acknowledgment of the active service going on during the thirty-day period, but a conscious impulse from within the souls of the entire ten billion lifestreams belonging to the planet and the entire Nature Kingdom, and the Angelic Kingdom in response to the pressure of the Gift of Truth from this Retreat has never been experienced until this month.

For example, the sun may shine on a dozen individuals, all of whom will absorb its light and

healing and warmth, and only two may be conscious of the Presence of Helios within that Sun, and who, through acknowledgment of His Gifts, may greatly intensify His blessings through themselves; whereas the other ten are unconscious beneficiaries of that Gift. In the activity of this thirty-day period, while the conscious students drew intensified blessings from the Retreat, a tiny tongue of Flame rose from every soul belonging to the planet in response to that Gift, asking for more, even though the outer mind was not aware of the activity. In some it may not have been as large as the smallest decimal of an inch, while in others it seemed to rise a thousand feet into the atmosphere, but there was not one who did not pour forth that White Flame, which is the desire to know Truth, in a greater capacity than that which the lifestream has experienced up until this time. It was a beautiful sight as seen from inner levels.

This will do much to remove bigotry, ignorant human concepts, intolerance and bitterness because, no matter how biased the consciousness may be, and no matter how convinced the ego is of its own concepts being correct, there is no one who is not eager to have more light upon his own concepts even if he feels that that light will but emphasize the truth of his particular belief, creed, message, or revelation. He does not know that sometimes, in asking for Truth, his concepts may be shattered, although in his spiritual pride, he expected confirmation. Yet, when he asks for Truth, HE SHALL RECEIVE IT! Do you see how the Celestial Hierarchy sometimes uses the weaknesses of a man in order to forward the evolution of a system?

The orthodox people, the metaphysicians and the atheists are all seeking for a confirmation of their concepts through the revelation of Truth and THIS WE SHALL GIVE TO THEM.

With the closing of this Retreat, we come to a preparation for the entrance of the soul and spirit into Shamballa where the thirty-day period of bringing in the sheaves and harvest of the year's endeavors combines gratitude, happiness, and joy as the members of the Brotherhood and the unascended beings join together in the heart of the Holy City.

I would ask that you prepare yourselves as much as possible for the next Transmission Service which will be, by far, the greatest outpouring We have ever yet experienced, and I would also ask that you try to contemplate the great honor of entering the Halls of Shamballa and sitting at the feet of the King (Sanat Kumara). This is the first time that hundreds of students will consciously be present in that Assembly; this honor being heretofore limited to a few unascended members of the race.

Now, on behalf of the Beloved Pallas Athena and Myself, the Beloved Hilarion and the Brotherhood of Truth, I would like to offer Our heartfelt gratitude to the students who have come so frequently into Our Presence during this current month, and for their calls that the mankind of Earth might find their way into this Temple of Truth and thus become spiritually stimulated themselves, which has enabled this Cosmic Truth to not only be planted, but actually show the seedlings sprouting from the souls of men in such a marvelous manifestation of Flame.

Cosmically speaking, there is little chance that the Grant will be increased at the end of December, for the million to whom it has been granted are yet slumbering peacefully amidst the shadows of their own karma; but if We are allowed, by Sanat Kumara, to return to this Temple early in the New Year, We feel that it should do much to awaken them, and by July We should have an appreciable harvest. The designing of the course of the Flame currents for 1954 will depend upon the Divine Thought Form as it is lowered by the Silent Watcher to Sanat Kumara on the 31st of December. We have thought that it would be a lovely experience if you would remain over the midnight hour on New Year's Eve when you would receive it at the same time it is externalized at the Teton. This would also be another milestone in the history of the planet. We are in unusual days, dear ones.

Blessings and Love,

MAHA CHOHAN

ADDRESS BY BELOVED KUTHUMI

Shamballa - November 21, 1953

Beloved Friends:

Tonight, the Beloved Sanat Kumara is wearing Royal Purple banded heavily in deep embroidered Gold - a truly magnificent figure. Seated upon His Throne before the great Altar, the aureole of colors which emanate from His Nature radiate like mother-of-pearl and enfold the whole atmosphere about Him is a beautiful oval of scintillating light so that when you step within the room, you do not, at first, discern His majestic figure within the Light which is externalized and represents the blanket of electronic substance which has enfolded our planet and her people and been their salvation through the centuries.

The homage, the adoration, and the devotion

to Sanat Kumara have occupied Our days and Our evenings since the evening of the 15th, but, beginning now with the focusing and the direction of the Transmission Flame, the Ascended Masters, the Angelic Host, and the awakened mankind of Earth will begin the offering of their year's endeavors at the feet of the Lord of the World.

First will come Lord Michael and the Beloved Micah (the Angelic Being who represents Union) bearing in Their hands the composite energy of both ascended and unascended lifestreams that has been invested in the New Endeavor. Then will come Lord Maitreya and Serapis Bey representing the million lifestreams who have been given the Grant of Grace by the Cosmic Law. Next will come the Lord Maha Chohan and the Beloved Morya offering Their endeavors through the Bridge, the Bulletin, and the published addresses in booklet form. The Mighty Chohans of the Rays will follow, each one representing His own Retreat, and with Them will come those of you who are Their conscious chelas, as well as those other faithful chelas who work in orthodox, scientific, educational, artistic and musical endeavors.

From the very beginning, the Ceremonials have been very beautiful. The main Temple is several hundred feet in length. From the vaulted ceiling over the Altar is suspended Sanat Kumara's Star. The great Three-fold Flame is focused upon the Altar which is approached by marble steps in several tiers, so that the Flame itself is a good twenty feet above the eye level of the audience. The entire chamber is just a huge bower of the most exquisite flowers which are even suspended from the ceiling and festooned around the long windows.

Tonight, all the participants, and even the atmosphere itself, seem to have taken on a festive air. There are Visitants here from every star and planet in Our Galaxy, each one bringing, within His own aura, the heritage of His Light, His Consciousness, and the pressure of His Illumined Feeling, and accompanied by the members of the Angelic Host and Celestial Beings who comprise His Court.

All over the vast continent of Asia, the Light from Shamballa can be seen even with the physical sight; for the nights are not as dark, nor the days as filled with the haze of human creation since the great doors of Shamballa have swung wide on their golden hinges and the Celestial trumpeters sounded the first note at inner levels, signifying that the Lord of Life was ready to hold audience and the Spiritual Court was assembled awaiting the coming of those Intelligences who had vowed to use Their energies in helping to redeem this dark star, as well as the conscious and unconscious chelas of Earth who will offer the harvest of their year's endeavors at His feet.

The great procession will start at the Temple door; the Beings bringing Their harvest will each carry a vessel symbolic of the garnering of Their energies. They will walk slowly up the main aisle, make obeisance to the Flame, and then kneel before the Lord of the World, placing the vessel at His feet. He will bless each one, who will then take His or Her vessel from the Altar step and pour its contents into a great white urn held by a magnificently clothed Seraphim standing at the side of Sanat Kumara. As this act is performed, the energies through the silver cord at each one's head magnetizes the endeavors of the year. Each

dedicated pair then part, one going to the right and the other to the left, taking seats prepared for them, making room for the next pair who will proceed likewise until every member in the vast procession has reverently placed His or Her harvest at the Lord's feet.

The Seraphic Choir which will accompany the processional has already taken its place in the atmosphere, and Their voices are muted in preparation for the exquisite music that will be rendered throughout the Ceremony, which will begin at exactly nine o'clock. Already I can see Lord Michael with the Beloved Micah standing at the Golden Temple doors at the head of the glorious procession which stretches down the many steps into the main avenue and even over the Bridge itself.

Each of your inner bodies is there even as My words are spoken. You carry a vessel fashioned from your own thought, and in it is your whole year's accomplishment. When you draw the first breath of Flame into your body, the Flame on the great Altar will begin its expansion and every electron that has been used in impersonal service to life will add to the size, the brilliance and the power of the Three-fold Flame, and none will escape recognition and benediction of the Beloved Sanat Kumara Himself.

The Temple, as yet, is empty because everyone who has had any part in the evolution of this planet is in the procession. A member of the Cherubic and Seraphic Hosts will give the signal for the first breath, when the procession will proceed slowly along the central aisle, each member breathing in and expanding the Three-fold

Flame even as He walks. Sanat Kumara will rise and, facing the oncoming Archangels, await Their Presence at the foot of the Altar.

The Three-fold Flame as drawn forth here is not the Secret Flame which is too brilliant to be looked upon by unascended beings. This is a focused ember from the great Flame which has been drawn, guarded and expanded for this purpose. The triple action on your part of offering the gift of your life, receiving the benediction of Sanat Kumara, and absorbing the Flame into your own bodies will be of tremendous assistance to your individual evolution.

We shall have to complete Our Report in the morning because the major portion of the Ceremony will not take place until the entire procession has poured their offerings into the Flame, and as I, too, am among the humble members who carry a vessel, in which are some of your energies also, I must take My leave now and say "Goodnight!"

Beloved Children of My Heart:

I am happy to announce to you that My Beloved Son, El Morya, and Mary, the Mother of Jesus, have been chosen by the Celestial Hierarchy as joint Sponsors for the planet Earth's evolution for the coming year of 1954.

The Christmas Season being at hand, when almost the whole world now celebrates the Birthday of the Beloved Jesus, I have thought that you would enjoy hearing from the Dear Mary's own lips how the Holy Family kept Their Son's Birthday in those days long ago in Judea.

Thanking you for your past year's endeavors, and for the many kindly expressions for a 'Happy Christmas' that have already reached Me, I enfold each one of you, beloved ones, in the consciousness of your own Immaculate Christ Self. May its full Illumination enfold you and those you love this Holy Christ Mass Season.

Blessings and Love,

MAHA CHOHAN

BELOVED MOTHER MARY'S ADDRESS

Dear Ones:

As there are so many of Our Friends walking the Earth today who celebrated with Us the Birthday of Our Son in those days long ago in Nazareth, I often think of those days and wonder how many of you recall the simple homely 'family honors' accorded Him.

Early on that morning, I baked fresh unleavened bread and drew sparkling water from the well. Our friends gathered leaves and vines and We garlanded the simple rooms with loving hands and gentle hearts, and He would smile, and sometimes, with His own blessed hands, He would weave the responsive leaves into the garlands Himself. Oh, the blessed leaves within His hands - shining with the happiness of His Presence! Nature always rose to its full responsive height in His Presence, feeling that which man is ofttimes unable to sense in his greater arrogance and self-importance.

Those of Us who loved Him would walk, long before the people were yet about, to the Temple, and there, together, We would glorify the Lord, and I know that, silently, for He would have rebuked Us otherwise, We would thank God for HIM. On that day, He would not 'go forth', but give the day to Us. How precious were those few days when I did not, with trepidation, see Him go forth upon His Mission, but felt the comfort of His Presence and the abiding joy of His proximity.

Sometimes one of you would ask Me to tell of the Nativity, and sitting, perhaps in the shade

of the trees, we would go over the beautiful story that has now been woven into your Christmas pageant. Jesus would often bring in a point of Law to clarify the experiences as I wove them, for your pleasure, sometimes accompanied by My busy fingers weaving the flax into a tapestry. In this way was recorded in the minds of those who loved Him the story of the Gospels which would commemorate His Coming to generations yet unborn from the womb of time.

The children of the village and the close friends would come in the evening, and we would sing together the old songs of David and of Israel's glory, and then He would talk to Us of Heaven, and tell Us of the One Eternal King and Father of all hearts and souls and spirits; and thus the Birthday of Our Beloved Jesus, now called the Christ Mass Day, would pass, and He would walk forth again on the morrow.

Thank you, beloved Friends of the Ages, for remembering both My Beloved Son and Myself. May the fullness of the Christ Season manifest through your hearts and spirits and those of all mankind; and may you enjoy the association which I anticipate we shall have, one with another, in the New Year, in My Office as co-Sponsor for your dear lifestreams.

Yours in gentle Love,

MOTHER MARY

Dearly Beloved Children:

The approach of the Christmas Holidays brings the Presence of the Masters very much closer to the consciousness of the people of Earth, and We shall appreciate any particular thought you may care to give to the unfoldment of the Higher Nature of the race.

As this season is most advantageous for Our Spiritual Harvest, We press into the seven-week period all the Light that the Cosmic Law will allow by the up-reaching of mankind's thought and feeling to the octave of Celestial Giving. Therefore, the intensification of the calls and invocations of the students at this time doubles and trebles Our opportunities to give. So if you can lift your thought Heavenward, particularly during the Christmas Week itself, you will have afforded Us a personal blessing, as the greatest good that We can give is more of Ourselves.

The CHRISTMAS SPIRIT begins to flow around the first of December and carries through for seven weeks until the 12th or 14th of January. The Christ Spirit is an outpouring of Love and all the perfect Qualities from the Angels, Masters, and other Divine Beings, and it pours over the Earth like a golden rain of beautiful particles of Light. Each particle is like a nine-pointed star, and the entire lower atmosphere of Earth and the bodies of all the people are enveloped in it. It increases in power until Christmas

Eve when its potent presence is almost palpably felt by even the coarsest outer minds. To that outpouring of all the Celestial Beings is added a tremendous radiation from the Retreats and Sanctuaries throughout the world, under the direct guardianship and guidance of the Masters and conscious chelas.

Now will you remember that for the remainder of the Christmas Season I shall expect each of you, My dear ones, to BE the Spirit of Christmas as much as you can in order that this outpouring will be worthy of carrying MY NAME, MY BENEDICTION and MY LOVE to all mankind, and when We have become the Spirit of Christmas for that period, it will be an easy matter to preserve that radiation permanently.

In My own Ashram at Ceylon, at Shamballa, at Luxor, at Kwan Yin's Retreat in China, at Lake Titicaca, at Darjeeling and many other places, the Christmas Wreath is already manifest in the upper atmosphere. This is a constant outpouring of a Ring of Flame qualified by a radiation of Peace and Goodwill to men. These Retreats present a beautiful sight to the spiritual eye, and there is no part of life on the planet Earth, from a lump of coal to a singing sparrow, that does not receive a gift of Love and Blessing from each Retreat and Sanctuary. Every year this outpouring increases, just as a musical creation builds to a crescendo of blended harmonious sound, and each Christmas is more perfect and glorious than the preceding one because the momentum from the ascended as well as the unascended state is growing constantly.

It is also wise to accept all that the Christmas

Season offers because it is one of the greatest opportunities for soul and spirit growth that the whole year affords, and when one is aware of this potent force, it can be greatly intensified in and around you for the evolution and progress of the spiritual nature. You can INVOKE this radiant outpouring, and as the electro-magnet draws particles of substance from the atmosphere into itself, so can you draw the substance from God's Kingdom and so feed the evolving spiritual nature of your being. During the Christmas Season, the atmosphere of Earth is literally 'star-dust' which the people breathe in, unconsciously filling their inner bodies with a sense of ease, peace and happiness which they attribute to the 'Spirit of Christmas'.

In India We celebrate Christmas with lighted tapers and holy incense, and gentle sweet songs to the beautiful Christ Spirit. We have not enjoyed the glory of the fir trees, so all the Masters of the East take particular pleasure from the beautiful display of lighted trees here in the West.

Man somehow thinks that the Gods are above the homely pleasures of the Earth, but even though Our joys and Our experiences are so gloriously perfect, there is a nostalgic sweetness in the efforts of the bound Earth men to release Light, which makes Our hearts happy, and many a Christmas Tree has a Master standing by its side, giving that tree new radiance, warmth and light. I might add, that when people are through with the trees, it would be a good idea to burn them rather than throw them carelessly aside. They have been light-bearers and should be returned to the Flame when their service is ended.

Therefore, from the Realms of pure Light, surrounded by huge Christmas Trees decorated by the Angelic Host in flaming ornaments of electronic Light with great nine-pointed stars blazing at the top, I send you, each one, My Christmas Blessing which carries Happiness from a realm where there is no sorrow. It carries the Peace that comes from perfect Understanding; it carries the vital life from the Presence of All Life which is an inexhaustible Fountain of Flame; and it carries the love and Blessing of My Seven Sons.

A blessed and Holy Christmas be yours, and a New Year in which only Victory shall be the experience of each of your lifestreams.

Blessings and Love,

MAHA CHOHAN

A CHRISTMAS MESSAGE
given by
THE BELOVED MASTER JESUS
December 25th, 1953

****

Dearly Beloved Brothers and Sisters:

"I AM" with you always - especially when the priceless beam of your own life is voluntarily turned toward Me, either in supplication, in invocation, in loving gratitude, or in contemplation of My World, My works, or My Consciousness.

Mankind has not yet fully realized the tremendous power that lies within the attention of even the most undisciplined lifestream because through the energy that flows from the individual toward any person, place, condition or thing, the door is opened into the personal world of that individual for the anchorage of good or evil according to the subject contemplated.

At the celebration of the Christmas Season, My Mother and I have particular opportunity to bless life because the attention of so many individuals is turned toward Us. Every song, every prayer, every church ceremony, every card and display that reminds the outer consciousness of the Christ is one or more open doors through which We may pour Our Love, Our gathered momentum of Light, and Our Ascended Master Consciousness into the world of form.

The subject of My Christmas Message to you who have already come out from the masses and have signified to Life that you desire to become Master

of circumstance and God-free of limitation, is LOYALTY to GOD!

LOYALTY is builded on LOVE! LOVE is developed through contemplation of the gifts and blessings and the kindnesses of life that issue from a benefactor - human or Divine. To KNOW God is to LOVE Him! To love Him is to believe, with every fibre and atom of your being, that He is ALL-POWERFUL! Contemplate for a moment the significance of that statement! How loyal are your feelings to the ALL-POWER OF GOD to ALWAYS ACT INSTANTLY when YOU call Him into manifestation at your point in the universe? It is not the timid, uncertain, mildly hopeful consciousness that rationalizes with appearances who signifies LOYALTY to the ILLUMINED FAITH IN GOD to manifest perfection instantly. It is rather the consciousness that BELIEVES that the Nature of God is to give every good and perfect thing to His own creations, the children of His Bosom who were externalized by Him in LOVE in order to multiply His own Divinity and increase the centers through which perfection could be externalized.

For a moment, let us look at My own experiences which have formed the pattern of the religious thought of the past cycle of time. My entire ministry, and My Victory too, was based on absolute LOYALTY in feeling, thought, word and action to the conviction that God, the Father, was not only ALL-POWERFUL in His own Sphere of Activity, but also in Mine - wheresoever I was at any given moment. I could not allow Myself to even think for a moment of the possibility of a power opposed to God, either within Me or outside of Me. I did not dare to leave the comparative privacy of Our humble dwelling until I had ANCHORED MYSELF in

the active realization that My Father, who had created Me and sent Me forth into the world to represent Him and to manifest His Will, could possibly either refuse to respond to My call, or withhold immediate, God-Victorious, miraculous assistance whenever I should invoke Him to dissolve shadows, dissipate error, or flash the Fire of Perfection through appearances, making them yield to the God Design.

What is the most fearful appearance but a concentrated mass of energy humanly qualified? Think of that for a moment! Then - is human qualification more powerful than God Qualification? No, thank God! Within that mass of energy is imprisoned life - the very body of the Father-Mother God awaiting the summons to come forth and throw off the human qualification and, responding to the God Qualification - BE PERFECT!

You are either loyal to the power of human qualification or you are loyal to the Power of God through you, or any of God's children, to compel energy and substance to manifest according to the direction of the moment.

I walked the ways of Earth and shared the instruments of expression in this physical world with the other incarnate spirits of My time. I worked through a feeling world, a mental world, an etheric world, and a physical body just as each of you do today. I was in possession of the five senses through which there could have been recorded the tremendous appearances of evil which had stamped itself upon the flesh of My fellowman, as well as upon the writhing substance of the etheric envelope, and the clouded vessel of mind. I saw the pressure of desire that impelled the

weak to succumb to lust and passion, but I knew that it was imperative that I remind Myself constantly of the fact that energy and substance responded to qualification. True - but although it was imprisoned by human qualification, it could be freed instantly by the Power of God to act in a manner in accord with His Divine Will.

If you are loyal to a friend, you believe in his potential goodness. You endeavor, in every way, to stand by him regardless of appearances. Oh, the blessed mothers of the race! How they have manifested this loyalty for the children of their flesh! But where is the GOD LOYALTY to the ALL-POWER OF YOUR FATHER - YOUR COSMIC MOTHER - to flash through you and around you instantly the Cosmic Flame of Freedom from shadows, pain, limitation and distress?

Children of God, the measure of a man's loyalty to God is determined by what he allows to remain in his world, his body, his affairs, his home, and his aura. Submission to circumstance is disloyal to the Father. I do not mean an outward violent show of emotional zeal. I mean a constant looking toward the Nature of that Heavenly Father until you realize His Power as supreme, even over the appearance of death, until you come, through contemplation, to really love Him enough to trust Him to respond instantly to your slightest whisper or your strongest command to manifest His Glory, His Freedom, His Healing, His Supply, His Will at your point in the universe.

I give to you, as My Christmas Blessing, My loyalty to the beautiful Father of Light and His exquisite Complement - your own Cosmic Mother. I trust that when you move forward into the new

cycle of 1954, you may start your day contemplating the Love and Power of your own God, and walk through each twenty-four hour period not giving power, allegiance, nor loyalty to any appearance which might confront you, nor feeling, even for an instant, fear or uncertainty, but knowing that where you are - GOD IS, and His Power acts INSTANTLY when called into action.

May you have a Holy Christmas and a God-Victorious New Year!

JESUS

Beloved Children:

How sweet are the souls of men when they come, voluntarily dissociating themselves from the world of form, and choosing to bare their consciousnesses to the shafts of Light which bring Truth first, and for those willing to accept Truth - Comfort.

For the planet Earth, I am the Representative of the Holy Spirit. This great Holy Spirit is the MOTHER ACTIVITY of Life, and on every planet of Our system, as well as on every planet of superior systems, there is a Being who holds the same Office as Mine; and for that planet, the evolution of all life expressions upon it endeavors to externalize the Nature of the Holy Spirit of the One Eternal Father.

Before I was given this Office, other Intelligences represented the Holy Spirit, and when I have completed My service, and the Wisdom of the Great Cosmic Law, in kindness, desires that I shall proceed into a different activity of life, another Being will take upon Himself the obligation, the responsibility, and the opportunity of being the Comforting Presence to the evolution upon this Earth.

I bring this to your mind again because We are endeavoring, in every way, to reach into your consciousness and impress upon you the conviction that the service, the radiation, the quality and

the Office is a great deal more important than the particular specific Intelligence and conscious Being who functions for a short or long period in that Office. I am the channel through which flows this Holy Spirit which must one day make every electron, atom, human being and Angelic Being belonging to this evolution perfectly comfortable and at peace; and the way and means by which Comfort is brought to each particular part of life is dependent first upon the evolution; upon the specific requirements of the hour; upon the capacity of the lifestream to receive and embody the radiation or instruction. So - you will see that Our endeavors are diversified in the extreme, and so will it be with those of you who choose, while you yet wear garments of flesh, to be a Comforting Presence to the life around you.

COMFORT to one man might mean extreme discomfort to another. It is entirely an individual comprehension of the need and requirement of souls which is demanded of the Teacher or Shepherd endeavoring to carry the Comfort and Radiation of the Holy Spirit to the sons of men. For this reason, We have divided the Third Ray into five distinct Offices, and at the head of each subdivision of that Ray is placed a Perfected Being who steps down the radiation of the Holy Spirit and brings Comfort to a specific number of mankind who can respond best to the developed momentum and quality of energy of His particular lifestream.

We are at the beginning of a New Era, and as at the beginning of the Christian Era, the harvest is truly plenteous and the workers few. There are not yet developed from among the volunteers who

have professed an interest in being a Comforting Presence to life enough lifestreams evolved and sensitive to the particular Ray under which a great number of mankind and the Elemental and Angelic kingdoms function. Then there is the discomfort which oftentimes results when a Shepherd evolved in momentum along one particular Ray endeavors to represent the Holy Spirit of God to people belonging to another Ray. We are endeavoring now to train the Shepherds, and it is Our hope, Our desire, and Our prayer to the God that made Us all that tolerance and understanding may be evolved within the hearts and spirits and consciousness of each lifestream who is passing through the crucible, and preparing, according to his own evolution and momentum, to become a Comfort to life.

Blessings and Love,

MAHA CHOHAN

I submit, for your enjoyment, the Beloved Kuthumi's report covering the Transmission Flame activity which took place on the evening of December 19, 1953 at the great Teton Retreat in the Rocky Mountains of North America. He also describes the unprecedented event of a certain number of the Angelic Host about to take up Their abode in the auras of chosen human beings who had consciously prepared themselves to receive Them. This is actually what you might call a Celestial experiment on the part of the Cosmic Law at the insistence of Lord Michael and Saint Germain that certain individuals had reached a place on the Path where they were capable of maintaining sufficient harmony in their feelings that would permit these Heavenly Visitors to remain with them for a designated time. It is also the introduction of the Brotherhood of Angels and men which is part of Saint Germain's Activities of the New Day.

Blessings and Love,

MAHA CHOHAN

BELOVED KUTHUMI'S ADDRESS

Beloved Friends:

This evening, not only in the heart of the Teton Mountains, but all over the world, the Sanctuaries and Retreats of the Brotherhood are garlanded with flowers and greens in preparation for the celebration of the Christ Mass, and also because of the opportunity afforded the Master Saint Germain in bringing into the lower atmosphere of Earth more of those pure and perfect Cherubic Beings who have not, for any reason, left the inner realms since Their creation.

The entire upper atmosphere of the Earth is literally thronged with Visitors, not only from this planet and from the Heavens belonging to this planet, but from other stars, planets, universes and galaxies as well. All of these Beloved Beings are looking Earthward tonight. Can you understand what that means as the beam of Their attention plays upon the Earth, and through that beam of energy flows Their Life, Their Nature, Their Quality and Their Consciousness which becomes part of the atmosphere in which mankind moves; part of the air they breathe; and part of the substance and form with which they are surrounded.

At the Christmas Season, when mankind's attention is, for the most part, raised above the ordinary everyday consciousness, the beam of the attention from the Earth upwards gives an opportunity to the Heavenly Host that does not have a parallel throughout the entire year. The psychic and astral realms, then, are literally bombarded with electronic particles consciously directed from those mighty Beings, not only from Those who

are waiting to descend, but also Those who are watching this Cosmic Event - Cosmic, because it is many, many ages since mankind and the Angelic Host have consciously walked and worked together. Single individuals, yes, belonging to the Angelic Kingdom, working through the human evolution, have had extraordinary experiences; have pierced through the veil; have conversed with and have had companionship with Angelic Beings. The record of these unusual and mystic bonds is written in your holy books and told in myth and fable today, but for great numbers of yet imperfect lifestreams to even qualify to have within their aura a Being of absolute Purity as a conscious co-worker, companion, guardian and assistant is another milestone on the spiritual path which the Earth is travelling on the way back to God.

The Earth has gone far on the outward path away from the Throne of the Eternal - to the very end of the road - to the blind alley, and only the Love of Sanat Kumara and the Members of the Hierarchy who have loved her has magnetized her so that she has turned herself and is now walking upward again into the Light. With her comes the evolution which has depended upon her for habitation and a platform to sustain their vehicles. The Earth is moving back toward the Sun. Those individuals who live on her bounty have opportunity without parallel. Those who do not wish to become refined, as she is being refined, are at complete liberty to remain at the end of that blind alley, BUT, for the upward-moving planet, garlanded with Light tonight, We are very happy. We are happy for this planet that has suffered so much; that was created so beautiful in the beginning; and that has been so kind and generous to the people evolving upon her and who have shown

such little gratitude in return. But now she has decided to be FREE! Isn't that a beautiful thing? That living, breathing Being, the Planetary Spirit, walks back into the Light. The Angels come to meet Her, and the individual beings who are within the body of the Earth, especially those who are conscious of Her, receive tonight, into themselves, some of the Virtues of the Most High.

Again let Me point out to you the Nature of these Cherubim. Their entire evolution consists of learning to hold qualified energy - until a given moment when its release will be beneficial to life. It is exactly the same principle which, in self control, should be incorporated into the life of every intelligent human being. To receive energy, as every man, woman and child does each day through the silver cord, to qualify it in your moments of consecration, in those rare moments of grace when you are within the contemplation of God, but then to be able to sustain the qualification of that energy as an aura of healing, of peace, of purity, of protection as the occasion demands, is to show a maturity and mastery in the self.

The exact same thing is true of the whole Angelic Kingdom and the Elemental Kingdom. The Cherubim embody the Nature of God. Each and every member embodies one facet of that great God Nature - Happiness, Peace, Purity, Love, Light, Joy, Beauty, Reverence, Fidelity, and so on. They absorb that Quality into the energy which is Their own self-conscious life; then They are at liberty to move in the inner realms with that Quality radiating from Them. If They lose it, through pressure from either within or without, They must return again to the Source, again absorb that

Quality and try again until They can maintain mastery and hold the radiation of the particular Quality which is Theirs to guard until the Deva, the Master, or the God Being in charge of Them tells Them to pour that substance and radiation forth for a given purpose.

Angels of Mercy qualify the energies in Their own bodies with Mercy. They fly through the atmosphere of Earth at the direction of Kwan Yin, of the Beloved Mary, of the other Lady Masters dedicated to Love and Mercy, and They hold that Quality, which is QUALIFIED LIFE, within Themselves until, at the call or prayer of some human being, the Master in charge asks Them to release it and then it pours from Their bodies just as you would pour water from a receptacle, giving its substance into the world of the receiver. You have all felt those electrical charges from time to time.

BELOVED KUTHUMI'S REPORT ON TRANSMISSION FLAME
(continued from Bulletin No. 41)

The Angelic Beings who work and live at inner levels are in a much more perfect position, we shall say, to maintain Their Qualities and Virtues than those who descend into the astral and psychic realms in which the outer selves of men abide. These latter must withstand the pressures in the auras of the lifestreams with whom They live, and must hold a radiating center of Their Quality against the flares of the emotional body, the pressures in the mental body, the impurities in thought and deed, and the various human activities which engage the outer ego of man. Therefore, it is essential that They be well trained and developed before They are released from the Throne of the Eternal.

The entire group of Cherubic Beings which engaged in the first endeavor to live within the auras of certain lifestreams were able to hold Their particular Virtues, without requalification, for the entire year; and the group that comes forth this night, and goes into every country on the planet, are also well trained. They will carry a tremendous balance into the lifestreams of the students who can accept Them in FEELING. I cannot emphasize too strongly that it is not enough to play with the idea as a mental fancy, but the acceptance of a perfected radiating center of God Virtue in the feelings is to FEEL and BECOME ONE with the Angel Visitor in your

aura, and to cooperate with that One in service for mankind. This is what We are hoping to see. This is the endeavor that occupies Our attention at the moment - to bring before the student body - not something to entertain the mind; not something which is a passing fancy for the Christmas Season.

We shall see, now, for these Beings will be examined once every thirty days, and if We find that Their Virtue has gone from Them, They will be returned to the Sun from whence They came and there be re-polarized and re-assigned to some new and more favorable mission.

****

This week, at the great Rocky Mountain Retreat, all the glorious chambers are open. The Karmic Board will not sit until Christmas Eve and Christmas Day festivities are over, and then, for the entire period up to December 31st, They will hear the Petitions for the Year 1954. We are counting upon the combined energies of the Philadelphia Christmas Class to give Us the required energy which We may offer to the Karmic Board that We may receive greater Dispensations, and perhaps to again increase the Grant of additional souls. Meanwhile, the beautiful musical instruments, the gorgeous Flame Flowers, the glorious costumes of the various Masters (the Ladies having taken great delight in designing exquisite garments for the occasion) all add to a picture which is truly the Kingdom of Heaven. The Celestial Choir, the magnificent chants of the Seraphim; the glorious high soprano of those exquisite ladies' voices; it all represents a picture that no words can describe.

The Brotherhood of this Retreat has opened seven more large Council Chambers. They are all joined to the original Council Room which has been described to you elsewhere. These can be separated by a series of sliding doors so that any one may be used for smaller conferences throughout the year. They are arranged like the petals around a flower - the seven rooms all around the central conference hall which now is actually the stamen of this great flower.

The whole idea of enlargement is magnificent, for it will enable many thousands of students and chelas to witness the ceremonies who before were not permitted to enter the Retreat proper but had to remain in the etheric atmosphere above. This will bring them great Light, and enable them to bring back into their consciousness more of the opportunities that lie before them in service for 1954.

From all over the planet; from every Retreat in the world, the Masters have come since the 15th of December. The great bulletin board outside the large council room is already filled with the mighty petitions that have come from the Chohans of the Rays; that have come from the Elohim - all seven this time. There are petitions from the Seven Archangels; petitions from the Elemental Kingdom and the four Beings who represent them. I have never seen so many. These petitions are written on colored parchment; some in gold script; and some are even carved in wood block. It is perfectly magnificent.

We are already enjoying and anticipating the greatest conference and council that the planet Earth has known since the last Golden Age. Do

not forget to write your petitions, individually, for the board. Just write them, directing them, mentally, toward the large council hall, and they will appear on the board through the power of precipitation.

Beloved Lord Michael is now getting ready to release the Cherubic Beings, and They will descend into the auras of the students preceding the breathing activity. I have been in each Sanctuary here, in Europe, Australia, Canada - all over the planet, to see that all was in readiness. Many of Us have been working for days, and every Group Leader and Director would be surprised if they could have seen the Celestial Visitors who have been 'bustling about' their meeting places in preparation for this Cosmic Event.

Now will you feel, as those Cherubim descend, (Beloved Lord Michael is bringing Them) that They will give the blessed students the FEELING of Their Presence.

I thank you for your presence here. I thank you for the beauty of this room. I thank you for the lovely Christmas Tree and all that has made it such a happy and beautiful experience both for Me and for yourselves, and for the beloved chelas and students everywhere who are tuned in.

We anticipate a magnificent Christmas Service, and We do anticipate a lovely and a Happy New Year for all.

I love you; I bless you; and I thank you.

Beloved Children of My Heart:

It is with joy and gratitude that I submit for your enjoyment the Report of My Beloved Son, Saint Germain, on the activities of the Rocky Mountain Retreat during the last week of 1953. I have also been delegated to extend to each one of you the love and appreciation of every soul, ascended as well as unascended, who attended the Ceremonies at the Teton, for your loyal and spontaneous attention during the week, as well as the conscious and loving energy that you released both in groups drawn together for the occasion and in the privacy of your own homes. I do not need to tell you that special members of the Brotherhood, as well as the Angelic Host, were commissioned to stand in your midst and gather up every ounce of that precious life essence qualified with your individual love and desire to set life free, which Saint Germain proudly offered to the Lords of Karma, and which had no small part in Their decision to extend the Grant to the additional ten million selected souls. I feel the surge of gratitude that rises from your own dear hearts at this mighty accomplishment, all of which also fills Me with a pardonable pride in My children. God bless you, each one, and sustain you with His Grace of Perseverance until the last vestige of unredeemed life is safe in the Bosom of the One Eternal Father from whom it volunteered to go forth and expand His Kingdom in the first place.

SAINT GERMAIN'S REPORT - Part 1

11:30 p.m. -- December 31, 1953

Beloved Friends - everywhere:

Tonight, the Heart of Freedom is filled with gratitude and devotion to your beautiful spirits.

Three times, in the course of My long journey through the world of form, have I experienced that height of exultation and gratitude which I feel again this night. Once in the dark of a lowly stable when I held a newborn infant in My arms and, walking to the door so that the light of the brilliant night might reveal those tiny features, I breathed a prayer of gratitude to God for the deliverance of the Beloved Mary, and the safe arrival of a Dear Son.

Once again, on a beautiful May morning, in the heart of the Transylvanian Mountains, when through the open windows came the sweet scents of the Spring flowers and the dew still upon the grasses imparted a sweetness to the memories of Earth as I prepared to bid 'adieu' to the dear planet and return My breath into the keeping of the great Maha Chohan who gave it to Me in the first place; thus closing My book of Earth experience and finding the joy of Freedom in the arms of My Beloved - returning Home - 'to go out no more'.

Again last evening when My Beloved said to Me: "Tonight, My Dear, the Lords of Karma themselves shall watch Your students and witness the fruits of your labor!" I could feel that wave of exultation surge up within Me once again - faith

justified - labor bringing a harvest of merit - friends standing by in dignity before the Lords of Heaven, consciously invoking Mercy for the Earth and its evolution. I tell you, friends, I shall never forget this dear night. I shall never forget the gift of your lives given in My Name, and I shall endeavor, through the energies of My Violet Flame and whatever worth the momentum of My individual consciousness may be to you, to prove MY friendship as each one of you has proven yours this blessed Christmas time.

How shall I describe to you the beauty of the Teton this night? I little while ago, I smilingly said to El Morya: "This is one New Year's Eve, My Brother, when My children will not go to rest in trepidation, and awaken in the morning in desolation. All of the years of preparation will yield them a harvest of remembrance of the celebration and majesty of this night."

Over the great mountain stands the Three-fold Flame, brought from Shamballa by the Mighty Kumaras, made up of the harvest of energy of each and every Master Being, each student, Angel and Deva who has contributed, during the Year 1953, to the progress of the evolution of the Earth and its attendant lives. When you stood before the Throne of Sanat Kumara and poured the harvest of your energies into that Flame, the Flame was then held, sustained, and carried Westward until it stood over the Teton Mountains, and there it remains until the stroke of midnight when the Chalice that holds it will be inverted and its substance poured before the Thrones of the Lords of Karma as a living proof of the fidelity of lifestreams to a spiritual and impersonal Cause for the benefit of the race.

The seven glorious chambers that have been opened this year are all connected with the main Council Chamber as described to you before. Each one of these beautiful chambers has been placed at the disposal of one of the great Chohans, and all the chelas, the Angels, the Devas, and the Elementals working along that Ray are gathered in the particular room devoted to His Service. The archways connecting those rooms with the large Council Chamber are outlined in Flame Flowers, the color of each Ray. At the head of each Council chamber sits the Mighty Chohan representative of the Ray, and My place awaits Me. The blue Flame Flowers make a fitting frame for the majestic figure of the Master Morya, and all the Beloved Masters, chelas and Angels who work with Him. The golden Flame Flowers form the setting for the exquisite Presence of Lord Maitreya, the Beloved Kuthumi, and those who work with Them. The pink Flame Flowers frame the beauty, delicacy and majesty of the great Venetian; the beautiful White Lily Flame Flowers surround the archway of the Blessed Serapis, the Masters and the Friends, ascended and unascended, who work with Him. The Green Ivy Flame Flowers, representative of Eternal Truth, form the archway to the Beloved Hilarion's chamber where He is surrounded by the Brothers of Truth. The glorious deep pink and rose Flame Flowers form the archway to the Beloved Jesus and Mary's chamber; and the deep purple violets surround the entrance to My room where sit the Beloved Diana, Oromasis, and those who work with Me.

The center or grand council chamber has been reserved, completely, for the Presence of the Beloved Helios and Vesta who have accepted the invitation to be present in Their beautiful

ascended bodies; also the Beloved Sanat Kumara, the Beloved Lord Buddha, the Seven Elohim of Creation, the great Archangels and Archaii, the Planetary Lords of each one of the seven planets of Our System, an Emissary from the Central Sun, and a Representative from each one of the seven Suns belonging to Our galaxy. These Beings are all in snow white.

SAINT GERMAIN'S REPORT OF DECEMBER 31st, 1953 ON THE TETON ACTIVITIES (continued)

Part 2

The Retreat makes an exquisite picture as seen from the atmosphere above. The White Hub, and then the beautiful colored spokes representing the seven colors of the spectrum, with the great Master Presences and the chelas filling in the wider part of the wheel.

The Thrones of the Lords of Karma are in the atmosphere above the mountain. The Flame on the circular Altar in the center of the white Council Chamber has the outline of the Three-fold Flame. It has been so placed that it is equally visible from all sides, and this living Flame joins with the great created Flame brought from Shamballa. It is a most magnificent sight.

Over the Lords of Karma who tonight wear white and the glorious diamond crowns with the seven points, indicative of Their Office, is the Silent Watcher who always wears robes of blue. Tonight Her robe is studded with stars, and the great tiara on Her head is also star-studded. It is Her great service to draw from the mind and heart of the Universal First Cause the Divine Pattern for the New Year, which She holds within Her Consciousness until the moment of midnight when Sanat Kumara raises His Consciousness to that of the Silent Watcher and draws the Thought Form

down into Himself. Sanat Kumara immediately externalizes it in the atmosphere in front of Him. This Thought Form will be made out of the energy of His own Light, and all the Brotherhood, and everyone else who is present will create a similar form in the atmosphere in front of Them, each one endeavoring to accept in consciousness, the import that is within it. Then, at a given signal, everyone present releases that Thought Form into the atmosphere and literally hundreds of thousands of these Thought Forms will be catapulted out into the world to be accepted by the inner bodies and the sensitive consciousnesses of the race.

In every Retreat on the planet, one individual has been chosen to be the receiver of the Thought Form for that Retreat. Each such member has sacrificed His presence at the Teton to remain within the heart of His own Retreat, and with the small body of guardians who also elect to remain, They, like yourselves and other beautiful individuals and groups throughout the planet, are 'alerted' for this magnificent Cosmic event. I cannot emphasize too much how grateful We are to have groups of unascended beings willing to cooperate with the endeavors of the Brotherhood, and to re-create, as best they can, the same Ceremony as it takes place in the Heart of the Teton.

At the completion of the release of the Thought Forms, the great Beings at the Teton will enact the same Flame-lighting Ceremony that you beloved ones have in mind (a candle-light service), and the song drawn forth by one of your members is one that was used by Sanat Kumara and the Friends at Shamballa in the ages when He was visible to the physical sight and the yearly celebration of the acknowledgment of the Flame took place in the

City of the Bridge (Flame Bearers). So you will not only receive the Thought Form, but you will be re-enacting the processional in honor of the Flame at the same time that the Brotherhood is performing the same Ceremony at the Teton. You should be able to feel the currents that pass through your bodies as unascended God-Flame Bearers.

We have endeavored to time the ascended and unascended activities exactly, and as the digest of the magnificent accomplishment of the student body for the Year 1953 was being read to you, the great Sponsor for the Year 1953, Lord Michael, was presenting the address to the Assembly at the Teton. From this you will see how closely the students are now working with the Brotherhood.

Before the activities of the evening began, the Beloved Lord Michael arranged that the members of your families who have passed through the veil, and all those who were given the Grant, be drawn to the Teton, and they were given the news (see below) at the same time that your hearts leapt on receipt of it. It is a wonderful thing, beloved ones; something that has never been done on this Earth before.

Note:

Lord Michael has secured a Dispensation whereby the members of your immediate families are not required to re-embody - but will be permitted to complete their life's work in the Octaves of Light.

12 o'clock, midnight, January 1, 1954

Now if you will look for a moment, with your mind's eye, at the figure of the Silent Watcher, you will see the tremendous vibration, through the blue radiation which forms Her permanent Aura, when the Thought Form for the Year 1954 passes into the consciousness of Sanat Kumara who stands, with up-reaching hands, to receive it. The whole Assembly stands in expectant adoration, and then comes the dramatic moment when Sanat Kumara projects, by His own Life Energy, the Thought Form for 1954 which stands in the atmosphere directly in front of Him. Every eye of the Assembly is upon Him as He stands, visible to all, at the circular Altar, and when He raises His hand, every Member present draws forth from his own life energy a similar expression, symbolic of their united efforts for the coming year. For the Year 1954, the THOUGHT FORM is:

THE DIAMOND HEART

representative of the Beloved co-Sponsors for the New Year - the Beloved Morya and the Beloved Mother Mary.

It is a magnificent sight to see hundreds of thousands of these exquisite Shining Hearts stand in the atmosphere before each bright-robed, reverent figure, and then at a given signal, they will be literally catapulted into the atmosphere and taken by Angels and Elementals into the auras and receptive consciousnesses of unascended beings.

To You, Lord Michael, great Being who has rendered such transcendent service to Our Earth;

to You, Blessed Micah; and to You, Beloved Spirit of 1953; to You, great Morya; and to You, Beloved Mary, Friend of My Heart; and to You, Beloved Spirit of 1954, Year of Opportunity, when each of My beloved chelas may write across your pages his or her own Victory, I give My Love; and to you, My children, as you acknowledge the Flame within your hearts, accept the sweetest blessings from One who but lives to Love you FREE.

SAINT GERMAIN

Children of My Heart:

As My Beloved and I sat together enjoying your loving Christmas and New Year Wishes for Our Celestial Happiness, it made Us so happy that the human veil, through your receptive consciousnesses, has been rent sufficiently that conscious communication between your realm and Ours has become a tangible fact. We love and thank and bless you, each one.

THOMAS PRINTZ' PRIVATE BULLETIN

No. 44 January 24, 1954

****

The people of orthodox thinking find it almost beyond their power of belief that the Perfected and Holy Beings whom they have honored and worshipped through the centuries would choose to break the long silence imposed upon Them by an unbelieving world and SPEAK. Why is this? Because the very people who have created the altars of worship to the gods, have, by their own egos created these gods in the form and character that would best suit their individual purposes, and through the centuries have taught the mass mind to bow the knee before these representatives of grace. It becomes highly uncomfortable when the gods whom they have created to suit their own purposes choose to rend the veil and show themselves to be other than that which they have been represented to be. It is cause for gentle amusement on Our part to see the rebellion and disbelief which floods through the minds of these people when their objects of worship respond, and in a manner befitting intelligent and self-conscious Beings, take an active part in the previously one-sided friendship which rises from the human octave to Ours. Human beings remind Us of individuals sitting outside the gate of a great stone castle boasting of the friendship of the lords within, although they have neither seen nor conversed with them. Then, when the great lord of the castle throws open the gates and issues forth with his companions, these so-called friends and companions waiting outside flee in fear before his presence and deny that the lord has either reality or authority to speak.

It so happens that the gods have chosen to answer the petitions, the prayers, and the invocations sent up by the outer minds of man through the centuries. In the answering of these calls by the Celestial Hierarchy, there will be much confusion and much re-adjustment in the human mind when they find that their 'gods' have a consciousness, an intelligence, and an individuality that is not completely within the scope and pattern of their making, and when the door is opened wide, they will find that the Powers they have invoked will not recede, but will come forth in power to accomplish that for which They have been called. Yes, man's awakening must come! It has come, in a small degree, through those blessed ones who have believed in Us and accepted Our Presence - for which We are eternally grateful; BUT - there shall come an hour when the physical manifestation of these Great Ones will leave no room for argument, and furthermore, will leave no structure of hypocrisy behind which the human edifice will longer stand.

You can assist Us by spreading the Gospel that the Celestial Hierarchy does exist in fact, whenever the opportunity presents itself, without tenseness or fanaticism. The conviction of Our reality within your own feelings will carry more weight than many human words passed in arguments. You can also assist Us by insisting, in your calls, that the Gods come - and come quickly. It could be that the invitation of one, if made with enough persistence, could bring the answer of the Gods to many for the illumination of all.

Blessings and Love,

MAHA CHOHAN

Beloved Children:

Heaven is consciously maintained by the one who accepts no 'hell' into his world. Each one is allowed to people his world with creatures of his own choosing. The residents of the eternally sustained Kingdom in which We dwell are more constant in Their vigilance than are the people of the Earth, and while serving in this lower realm, the ones who have earned Their Eternal Freedom are wise enough to repel, immediately, any imperfect impression that would seek to intrude upon Their attention. The attention is the open door through which flows every experience into your world. For you, the attention has become the connection with the 'sinister force', as you call it, and for Us, the attention is used as the constant connection with All of God both inside and outside of Ourselves.

Govern the faculty of your attention for one hour and place it, unwaveringly, on good, and I defy any shadow to approach you during that period. Then increase the time until it becomes a habit, and in this way you will be able, ultimately, by perseverance, to keep evil of every kind from entering your world and experience. Your attention must be drawn to a thing before you can become aware of it. This is true of pain, for many a boy on the battlefield lost a limb, and in the heat of conflict felt no loss until the attention was loosed from the crisis he was engaged in, then fear flowed in and acceptance of loss followed.

If We could persuade you to keep your attention on good for as long as you keep it on a hurt feeling or a sense of privation, you would have the open door to your complete freedom. You of the Western world are not accustomed to discipline of mind, emotions or body; but for those who aspire to mastery, the easiest way to achieve Peace is to throw the full power of your attention on some good manifestation of life all the time. It could be a quality in yourself or another, a beautiful picture or a poem, a Master's words or likeness, but it is necessary that you be constantly alert as to that upon which you allow your attention to rest. You would not dream of swallowing arsenic or other poisons, yet you pollute your whole lifestream every moment you allow your attention to rest, with acceptance, on any record less than God's full Perfection. If I, Myself, or any other Master were to allow Ourselves to recognize you as you see each other, within fifteen minutes We would be like you. THINK THAT THROUGH! Therefore, if you want to be like Us, then you must see every one as We are. Treat every one you meet as you would treat Us; then your flesh will reflect that which you recognize as REAL through your attention.

Your world is a mirror - reflecting back to you that which you BELIEVE is real - not what you affirm through your attention. If you, My beloved children, will LEARN this Truth, and not just READ it, I should see a great improvement in you and your worlds when I visit you in the Bulletin next week. The 'Word' must become your flesh and dwell among you, otherwise it becomes a dead thing. There have been too many words allowed to die. The Masters' Words, as Jesus said, are LIFE,

and must take root and grow in you, otherwise They are not permitted, by Cosmic Law, to give Their Life where there is no soul growth. Therefore, My friends, let every Word of Truth We have given you become part of your Eternal Identity. Practice this and be FREE!

Blessings and Love,

Beloved Children:

Do you know how much I love you? How close We have drawn as your earnest hearts and sweet spirits have pondered upon My Word, and your innocent souls have winged their way into My Presence following the beam of your attention and seeking the Comfort of the Light! How often have I placed My arms around you! How often have your weary heads lain upon My Bosom as through you I poured My Life and the Comfort which it has been My privilege and honor to radiate to your Earth in the Name of the Holy God, Creator of Us all, Sustainer of Our Beings - Majestic and Powerful and Mighty. All Glory be to His Name!

My children, I want you to feel the radiation of My Light as it flows out through the magnificent forcefields you have created by your own voluntary energy, woven into song, into dynamic application, into clear visualization through a period of months and years of selfless, kindly, constant service to this universe and the humanity evolving upon the planet. On the path of your love and on the very energies of your own lives have We walked again into the presence of mankind, sustained by your faith that Our Reality, Our Gifts, Our Consciousness, Our Counsel might reach into the hearts and feelings of the members of the race willing to accept the conception that there are Free Beings governing and directing the course and destiny of this evolution.

Do you know how precious to Us are the friends who have created that BRIDGE from the human side? Ah! Your hearts cannot conceive the Love We feel for men and women wearing bodies of flesh, living in a realm and world of chaos and confusion and unbelief, and yet who have enough grace of spirit, enough faith and confidence to reach out a friendly hand, and through the veil, grasp Our own; to accept a Hierarchy who, on Their rare visits to the mankind of Earth, have caused the bodies of the people visited to tremble in fear, and made them cover their eyes with their hands because they believed that they dare not look upon the Light of Our Presence; a Hierarchy now accepted without fear, superstitious dread and confusion, but accepted as comrades and fellow-workers makes Us exceedingly grateful. In those rare intervals when the Cosmic Law allowed Us to pass through the veil and contact a member of the human race, so often was Our Presence such a shock to the individual; so greatly was the emotional body stirred, that it was completely beyond the power of the one to whom We came to receive either Our message or Our instruction. From this you can see that it would not be possible for the veil to be rent so that the Host of Heaven could step through until a prepared body of conscious individuals incarnate was ready to receive Them, and in intelligent, mature, dignified, reverent acceptance, work with that Hierarchy in forwarding the Cause of God Freedom for the race.

Such preparation, beloved ones, is in progress. Such men and women have been found. Such men and women belong to this Endeavor of Ours, and I bow before your Light in gratitude to the Source of all that lives that the day of Our return into the consciousness of all the mankind of Earth

looms closer because the door has been opened by Faith and held back by the arms of Love, and the pathway of consciously dedicated energy passing out of your bodies and moulded into form is witness before the great Cosmic Tribunal that the mankind of Earth do wish to walk and talk with a free Hierarchy, the Angels, the Devas and the Gods once more. We come in answer to an invitation from your hearts. We have waited many centuries for such an invitation, and Our gratitude to the lifestreams who are able to accept the logic within Our words and counsel cannot be measured by any human concept, but it can be felt, I am sure, by those of you who are now sensitive enough to note the radiation of Our individual Presences.

The matter of stepping up the vibratory action of your consciousnesses is accomplished gradually in order to balance the various bodies that make up the instruments through which your souls function. We return again and again bringing the very qualities and vibratory action of Our momentum, blending them all together, and passing the Flames and Rays of Our individual worlds through you, preparing you for the hour of Visitation, and believe Me, it will come at the instant when a cooperative group gather together and can retain the harmony in the inner bodies sufficiently to stand the pressure as the veil is rent and the Electronic Presence flashes before the physical sight for the first time. How many centuries have passed since mankind, as a group, have gathered together and raised their voices in song to Me and the Seven Chohans who work with Me! My heart is so filled with gratitude every time I hear it that I invariably ask the Cosmic Law for some added Dispensation to return on the very energy of your words and music to help set you free.

Oh, how I love My Seven Sons! How magnificent They are - individually! How distinctive in Their Service, and yet how cooperative in Their endeavor! How could I describe to you the unity of consciousness between Us - working as one body - deeply and sincerely interested in each project and idea born out of the hearts and souls and spirits of each other - and now standing, as ONE, behind the Beloved Saint Germain in His great endeavor to externalize the permanent Golden Age for the dear Earth.

Another week I shall tell you how Our Beloved Morya conceived the idea of assisting Him by raising up those God-free men and women (your sweet selves) who were willing to step forward into a greater understanding of the Law; and now I want to thank you for your attention to My words; I want to thank you for your Love, for your Faith, and for your Friendship; and I would like you to accept, My children, through your feelings, My own sincere Love and the Love of God which, flowing through you, is Victor. It is just that - ACCEPT IT NOW! I can give you no more than My Word. My Word is My Life! It is My Pledge - My Bond. I know your struggles; for I walked the way of Earth; I walked from darkness into Light; and I stand in that Light now holding your hand that you, too, may pass through the veil and stand with Me. I am your Friend of the Ages; your Companion and all that your Comfort is. Come to My arms; feel My arms about you; and know that Friendship in Our Realm does not vary with the weather - it is Eternal. I thank you; and I bless you forever.

The opening of the Resurrection Temple which has been guarded and sustained by the Ascended Masters Jesus and Mary for centuries of time was accompanied by a tremendous spiritual acceleration of the souls of incarnate lifestreams as well as those who wait at the door of birth.

The great Archangel Gabriel, who is the Angel of the Resurrection, accelerated the Power of the beautiful Resurrection Flame in the circular Flame Room itself which forms the Heart of the Retreat. The Seven Great Archangels stood, all in snow-white garments, drawing the Flame into Their bodies and breathing it outward through each of the circular corridors which form the graded order of chambers in which initiates gather according to their Light and capacity to stand the pressure of the Flame.

The Beloved Mother Mary chose to welcome each guest Herself, standing at the great open doors at the extreme outer circle of rooms, so that the first contact the beloved aspirants might have would be Her warm and gentle Presence. It was My pleasure, as Director of the great Powers of Nature, to anchor a Ray from the Nature Temples through the Resurrection Flame, and then expand it to bless all the Forces of Nature, the Beings who direct them, and the elemental substance that makes up the physical and inner bodies of mankind.

The Beloved Master Jesus, who manifested the Power of the Resurrection Flame through a flesh

form, revivified the records of the first Easter Morning through the lower atmosphere of Earth and through the etheric bodies of all who had witnessed that event, as well as all the Christians who had accepted that event as not only a possible accomplishment, but an actual fact.

The Beloved El Morya, as Hierarch of the Brothers of the Diamond Heart, directed the Assembly in the creation of Diamond Hearts out of the sparkling atmosphere of the Retreat, and millions of these thought forms were literally catapulted into the atmosphere with every outbreath of the august company participating in the Transmission of the Flame around the world. As the Flame was released by the Assembly, Beloved Morya and His assisting Brothers and Sisters of the Diamond Heart began creating a Diamond Heart around each Sanctuary, home, worker, and student, made up of the qualified energies drawn from the Resurrection Temple. These Hearts are a practical, tangible, and positive protection against the invisible as well as visible forces that flow through the psychic and astral realms, and act as a further insulation around the Tube of Light of each individual and group activity. Daily recognition of this service will greatly strengthen and intensify this blessing and this gift given.

May I congratulate each Sanctuary and Group, as well as each individual student, for their ability to control the breath and hold the visualization; and to also contemplate the activity of the evening with such clarity through the mental body as well.

Love and Blessings,

MAHA CHOHAN

Beloved Children:

As I promised you in Bulletin No. 46, I shall endeavor to set before you the Plan conceived by Beloved Morya and presented by Him one day, as He, with the other Chohans and Myself sat around Our council table at Ceylon. He (Morya) put forward the idea that He thought it would be of tremendous assistance to Saint Germain and His efforts to bring in the Golden Age if enough God-free men and women could be raised up who were willing to take the added discipline required to hold their balance as the pressure of the Sacred Fire increased within them. So, as one idea begets another, it was My honor and privilege to conceive the idea of the Transmission Flame Classes; an activity which now engages the attention of students in almost every country on the planet. May I just touch lightly upon My idea to give you a picture of My Vision and that which shall be established through it and My Beloved Morya's Idea in the days and years ahead.

Over the planet Earth, beautiful Retreats have been functioning for thousands of years with great God-free Beings tending the Powers of the Sacred Fire drawn within them; welcoming the few among mankind whose Light drew them into that vicinity; and radiating out from those Heart Centers certain purifying powers which did much to dissipate the psychic and astral creations that make up the lower atmosphere of the planet. Mankind at large had very little, if any,

conscious knowledge of the existence of these Retreats, not to mention the activities, past and current, that went on within them, with the exception of the few lifestreams who were drawn into their sacred precincts throughout the years and who usually passed therefrom into their Eternal Freedom. However, through the past several years, more of mankind have become aware of the existence of these holy places, and so it became the Beloved Morya's project to give these people a knowledge (if they would accept it) of the current activities going on within these Retreats - and THUS YOUR BRIDGE WAS BORN - and it has prospered.

Then I, looking upon His Vision and approving of it, conceived an idea by which the conscious students might become part of the radiation - through their own bodies - of the Retreat that drew the attention of the entire Brotherhood for a period of every thirty days until the entire twelve months were covered. In other words, there would be twelve Retreats, each covering a thirty-day period, active within the year; each Retreat covering a different activity under the direction and supervision of members of the Hierarchy.

I envisioned a plan by which the students might become part of the radiation of the active Retreat through their own bodies, and transmit this radiation from point to point on the Earth's surface in a manner similar to the transmission of the radio and television programs, thus intensifying the power from each Retreat, drawing into their very bodies the substance gathered by the God-free Brotherhood, and then projecting that forth into the bodies and minds of the people as well as into the very atmosphere of the Earth. I outlined this idea to the Brothers present, and

then asked the Beloved Morya to present it to a certain group of students, and thus was the action of the Transmission Flame Classes established until now it has become a world-wide activity which shall increase in power and intensity through this year of 1954.

Now what are you doing, beloved ones, besides contributing the breath of your life every month for the awakening of the race? Let Me tell you - you are building a forcefield which can be used by great Hosts of Masters at any time through which They may conduct Cosmic currents for the blessing and protection of your locality for the alleviation of conditions that would otherwise externalize, and for holding the balance of continents and perhaps a whole planet during cataclysmic disturbances.

A FORCEFIELD, dear ones, is merely a focus of energy - of qualified Light. Your own aura is your forcefield, and the forcefield of your Sanctuary is the energy made up of your cooperative endeavors through the years, both of which are natural conductors for the vibratory action of the Sacred Fire. And what is this mysterious Sacred Fire? Just qualified Life. The Fire that beats your heart is primal God-Essence - unformed God-Light, and when it is qualified by you with healing, peace, or Purity, it becomes the Sacred Fire emanating from your body and filling your aura, which can be transferred at will to others in distress.

The Sacred Fire I wield is My own Life Essence which I qualify with Cosmic Comfort. It is the Life that I draw from the Sun qualified with the radiation of My Love of Life. This I hold

around My body, intensifying and increasing its condensed pressure by My Love; releasing it, then, in a beam of directed energy which follows My attention into the energy of the individual invoking My assistance. Where My energy meets the energy of the one making the call, My beam is the stronger and breaks down and melts the discordant energy of the other, thus becoming the consuming power of the Sacred Fire in action - that is all.

All these foci are conductors of the Power of the Sacred Fire. The Fire Temples were once manifest on your Earth and they are to come again. On Atlantis; on Lemuria; and in all past Golden Ages, certain lifestreams were Priests and Priestesses of the Sacred Fire. That meant that for many entire embodiments these people dedicated their lives to God, and through contemplation, adoration and invocation, they drew forth life, clothed it with certain qualities, and created an aura both within and around the Temples where they served, which quality was the master control of all the energy drawn there. The people who needed that particular quality came there for assistance, and those Temples were known for the length and breadth of every land. The masses of the people, when they found that they could no longer control the energies of their own lives, would enter within the stronger focus where the Sacred Fire was the master control, and as their energy met the power drawn by the Priest and Priestess, it was brought back again into harmony and balance.

Every Ascended Master renders the same service. The Master Jesus, in His Ministry before His Ascension, proved it time and time again. The quality of His energy, held under the control of His God-Self, meeting the energy qualified by

discord and disease, merely changed the vibratory action of the discord and disease in the distressed one, and raised it into His own Peace, His own Healing, and His own Power of Mastery. That Power will come again. It will come through you and through others - all sincere, earnest and loving children of God.

Beloved ones, the future has much in store for all of you. Today, just lean on the Everlasting Arms; feel the Love of God flowing from My heart into yours; feel all the Masters' Love for each of you, individually, and feel your own Holy Christ Self setting your house in order. Just feel the radiation - and accept!

Blessings and Love,

MAHA CHOHAN

The spoken word is the Creative Power of God that moulds the Universal Light Substance into forms similar to the cup which the spoken expression creates, whether it refers to persons, places, conditions, or things.

The Holy Breath is within the word, and the consciousness of the individual is charged and surcharged with distorted forms through the misuse of God's Energy in speech. In the same manner, if the spoken word is peace-giving and harmonious in its expression, the consciousness takes on an added glow of Light, and the individual becomes a Comforting Presence to all he or she contacts. The decrees were consciously presented to man's intellect as a balance for the misuse of the spoken word, as well as for the silent thought through the centuries he has taken embodiment.

In the first place, in order to shatter these distorted cups, one needs energy vibrating at the same rate, but constructively qualified. In other words, it is policy to 'break a cup' created by wrong speech by a vibratory action of correct speech rather than by mental force. Secondly, the constructive decree which is always an invocation to a member of the Ascended Host or to your own Christ Presence, becomes a Cup that the Masters or your Christ Self can fill with Their Light Substance which creates a pulsating vibration in your consciousness of a quality and activity for a manifestation that will bring more of the Divine Plan into expression. Thirdly, the spoken word,

vibrating at the low rate which can be heard by the physical ear, is more easily conducted through the mental and feeling worlds of incarnated spirits, setting up forms of a constructive nature in their bodies and auras, whereas the finer ethers of mind substance would, by reason of the bodies' density, pass around them unfelt and unnoticed.

One of the rules of the Great White Brotherhood is to never picturize an individual imperfectly. Every lifestream is endowed with the birthright of perfection. God, the Father, created everyone in His own Image and Likeness, and decreed Perfection as the natural law of their beings. When an individual recognizes imperfection in any other lifestream in the universe, he is dishonoring the Will of the Father who created all. Every person, through thought, feeling, and the spoken word, emits energy and substance from his lifestream, and when the substance and energy is charged with a picture of imperfection, and driven against another individual through the channels of thought and feeling, and intensified by the spoken word, it forms a film or coating around the one to whom the force is directed which seeks to cover up the Divine Image which God intended, and makes a tremendous karmic link which can only be obliterated by powerful decrees or the use of the Sacred Fire invoked by the sender of the destructive energy. All mankind are condemned by one another; but when an individual becomes a conscious chela, he must learn to think as the Father does about His creation.

Blessings and Love,

MAHA CHOHAN

Beloved Children:

A question that is often asked is: "What is Consciousness?"

A man's consciousness is comprised of that of which he is aware or has been acquainted with through the experiences of life. The outer world divides the consciousness into the SUB-CONSCIOUS wherein is contained the experiences of the past which are sometimes buried deep within the nature; the CONSCIOUS which comprises the experiences of the present; and the SUPER-CONSCIOUSNESS, or higher unfoldment, toward which man is striving.

The students, as well as the average man, are constantly enlarging their sphere of conscious knowledge through every-day experience from the time of birth until the end of their embodiment. A child of two has not the consciousness of the grown man, and the experiences, education, and instruction of childhood make him aware of a great deal more in the universe than his infant mind could comprehend.

For illustration, we shall take an individual at the foot of a great mountain. He is conscious, through the medium of his sight and hearing faculties, of his surroundings; of the ledge from which the climb would begin; of his fellow-travellers; of the plain, the shrubbery, and other things. If it happens to be his initial journey or ascent, he will not be conscious of

what is at the apex of the mountain until, through his own life energy, he has made the grade. He may have, implanted into his consciousness, a vague picture of the top through the description given by others, through photographs, and so on, but, although the top of the mountain, the surrounding scenery, the snow-capped summit shining in the sun is even now presented to him, it is a view - or a consciousness - into which he can enter only through personal effort. Now once he has climbed the mountain by the energy of his life, that experience will record the fullness of the beauty that is at the top and that consciousness will be his forever.

You will see, then, that many men and many women will never make that climb, and for them the consciousness of the mountain top will ever remain a superconsciousness because it is one that they are not aware of except by the tales, descriptions or photographs of others, and the effort daunts them.

It is exactly the same with the human and the Ascended Master Consciousness. The Ascended Master Consciousness (like the summit of the mountain) is ever present. The mass of mankind live beneath it; the few hear of it through description or allegory; but in order to make it your own, the ascent must take place through the energy of your own lifestream. However, once you have achieved that summit of mastery, although you return again to the affairs of the outer world, that is a part of your nature and experience which no one can erase. No one can take from a man, ascended or unascended, any experience that widens the consciousness - whether it be a sight of exquisite beauty in Nature's cathedral,

or whether it be the entrance of the soul into the realms of spirit, for consciousness is the sole property of each individual lifestream and is one activity that cannot be stolen or destroyed. Therefore what a man builds into his consciousness by contemplation and effort is his for Eternity. The Path leading to the Summit is through Contemplation, Initiation, Invocation, and Perseverance. "No one cometh unto the Father (the Summit) but through Me - "I AM" - the Ascension in the Light!" Why stand ye at the foot looking upward? Ask your own Holy Christ Self to lead you to the apex and be FREE!

Blessings and Love,

MAHA CHOHAN

ADDRESS BY BELOVED EL MORYA

Beloved Friends of God:

Greetings, Blessings, Love, Light, Freedom, Hope, Courage, Strength, Vitality and Fire from Darjeeling to the sons and daughters of man everywhere upon the planet Earth tonight - to the Elemental Kingdom - to the Angelic Host - to the Cosmic Beings, the Ascended Masters, and all those who have turned their consciousness and attention toward the heart of India, and who choose, voluntarily, to open the doors of that consciousness in order to receive the impetus of the Will and Nature of the Godhead.

To mankind incarnate; to mankind who stand at the gates of birth; to mankind in the astral and psychic realms; and to the imprisoned elemental kingdom I speak tonight in the Name of God, the Father; God, the Mother; and God, the Holy Spirit. It is the Fiat from the Heart of Creation that the Will of God shall now be manifest through your life, through your energies, through your senses. I speak these words into the mental and feeling worlds of the planet - into the groaning substance of this dark star - into every appearance which enfolds an earnest son or daughter of the Kingdom who has forgotten the Divine Destiny of God Mastery.

Tonight, the Will of God, through the energies of unascended beings, circles this planet 'round. On every breath it is charged into the energies of the four elements which make up the atmosphere. It is charged into the animal kingdom. It is charged into the reluctant souls of the sleeping masses and into the bold who have chosen to lead those masses in sunshine rather than shadow.

Tonight Aries has opened the currents of the air. The great Himalaya has cooperated again in making world-wide these inner fibres of Spiritual Light.

The WILL OF GOD is GOOD. The WILL OF GOD is for a free people. The WILL OF GOD is to free the great Lord of the World that He may resume His own natural place on His Star.

The WILL OF GOD is that the axis of the Earth shall be straightened - that the extremes of climate shall be mercifully blended together into a habitable and happy balance.

The WILL OF GOD is that every man, from within himself, shall draw forth the substance and supply which is the need and requirement of his every-day existence.

The WILL OF GOD is that disease, death, poverty, limitation, and unbalance of mind and body shall be no more; that impurity, viciousness, and unkindness shall die; that elemental light shall again shine; that the Earth itself shall take on the hues of iridescent beauty which it had when it came forth from the bodies and souls of the Elohim.

The WILL OF GOD is that there shall be no veil between man and God, and that Angels, Devas, and all God-free Beings shall walk and talk as freely with the evolution on the Earth as men now talk with one another.

This is the WILL OF GOD - the lame to be made whole; the sick to rise; the diseased to become filled with ease and balance - each one entering into the deep recesses of his heart - facing his own Supreme Divinity - seeing it face to face and becoming so enamored of its Light that the externalized form he wears becomes the magnificent perfection pre-ordained and destined for each lifestream.

It is time that the WILL OF GOD be impressed with such strength and power into the consciousness of mankind that there can no longer be any dallying in the shadows nor acceptance of limitation as part of this great Universal First Cause.

Every hour, on the hour, during this thirty-day period (February 15th to March 14th inclusive), either I, Myself, or some member of the Brotherhood of the Diamond Heart intend to speak the WILL OF GOD into the energies of this physical appearance world which will carry those vibrations around the planet. Those in unascended bodies, interested in sending forth, at least five minutes at a time - three times a day, the following strong, powerful thought (and spoken word if possible) will be MYSELF IN ACTION:

The WILL OF GOD is GOOD.
The WILL OF GOD is LIGHT.
The WILL OF GOD is HAPPINESS.
The WILL OF GOD is PEACE.
The WILL OF GOD is PURITY.
The WILL OF GOD is BALANCE.
The WILL OF GOD is KINDNESS.

I have stood now, for many centuries, while man and his teachers have prattled about the Will of God and the submission to circumstances. That shall CEASE TO BE. Within Life is the Power of Mastery, and within My full-gathered Cosmic Momentum is the pressure and assurance of faith in the fulfillment of that Will.

I now give the platform to My Brother, Kuthumi. Thank you and good evening.

BELOVED KUTHUMI'S REPORT ON THE TRANSMISSION FLAME ACTIVITY OF FEBRUARY 20, 1954

Beloved Friends:

Tonight Darjeeling presents a heart-stirring and exquisite sight. Looking at it from the hillside, the great palace is ablaze with light - the great towers, the central globe, and the entire building is shining in that supernatural way that all places do which are the foci of the Ascended Brotherhood.

Tonight We are engaged in the study of the WILL OF GOD in relation to every avenue and channel by which mankind is guided, served or nourished.

The Heads of all the Seven Rays - not only the Chohans, the mighty Archangels and the Elohim, but individuals of other great initiate development are present.

The manifold expression of the Will of God could not be described to the finite mind, but there is no channel that serves constructive endeavor that can succeed or expand without humility in the consciousness and heart of the leader to the Will of God Himself, and it is this great humility in the hearts of the elect in Darjeeling tonight which gives Us such hope that We may be able to infiltrate Our instruction through Them to the consciousness of the people who work under Them, according to the people's

development and capacity to recognize Truth as well as recognize the development of the teacher who imparts it.

The Beloved Master Morya is acting in His capacity as Representative of the First Sphere tonight. He wears brilliant iridescent white garments. A magnificent diamond - the largest known on the Earth today - gleams in front of His white turban, and the brush, which is a good eight inches high, is royal blue. The girdle at His waist is banded in this same royal color, and tonight He wears (which is unusual for Him) exquisite blue sandals embroidered heavily in pearls and encrusted with diamonds. On the forefinger of the left hand He wears a great sapphire ring, and on the forefinger of the right hand He wears a large diamond.

He is already upon the rostrum. At His right is His own great Teacher, the mighty Hercules, who is in royal blue from head to foot. On His left is the Great Master with whom you are not yet acquainted, but who is the teacher of the power element in the Nature Kingdom, and He, also, is clothed in the same royal blue.

The Brotherhood of the Diamond Heart all wear white tonight, with the Diamond Heart encrusted with diamonds and outlined in royal blue over the left breast. Each wears a cowl cape, ranging from the deep electronic blue down to the pale blue, each shade representing the graded service of the Brother in the Order.

The Master Morya has had created an exquisite heart of white lilacs to encircle the magnificent diamond and sapphire Altar which is the pride of

all India. Through the lilac is interspersed at intervals the lovely blue wood violet which is His favorite flower.

Tonight He is demonstrating (for the benefit of the lesser Brotherhood, the representatives from the orthodox channels and the great governmental heads) the power of the Great Central Sun Magnet as focused through the Chohans of the Rays. He is magnetizing, through the Jewels of Power, the Divine Ideas from the Mind of God in the First Sphere.

It is a most interesting thing to watch. As He lifts the left hand, the power Jewel, the sapphire, becomes a magnet, and from the First Sphere, the seeds of God-Ideas respond and actually take form before Our eyes. At first when they begin to emerge from the invisible at the nave of the chancel, they seem vapory and ethereal in outline, but as they get down near the jewelled ring, they become quite tangible and are very beautiful in appearance. Then through the jewelled finger on the right hand, He directs them. He now makes a motion as if drawing them through His body and then projects them over the audience with the five fingers of the right hand - the great diamond on the forefinger glowing and sparkling like living fire.

As these thought ideas enter His body, you can see their form in scintillating white light, but as they leave His body, they take on color and vitality. They are coming so rapidly now that one cannot distinguish one from another, but it is a manifest expression of the magnetization of Divine Ideas from the Heart of God that has never been externalized before by any Son or Daughter

of God. These God Ideas are so subtle and vibrate so rapidly that they could not be felt by the consciousness of any incarnate lifestream until they had been 'stepped down' by some God-Being.

As these beautiful thought forms fill the room, they may be absorbed by anyone who is present, each idea having the capacity within itself to grow and develop into some exquisite perfection of music, of education, of politics, of invention, of religious endeavor, and a myriad other expressions. The alert ones in the audience are magnetizing the thought forms as they leave Morya's hand and are drawing them into themselves by their own heart's Flame; while others are 'just watching the show' and letting the precious ideas float past them. It is an interesting sight to watch the activity of each one's Light.

In the great gardens outside the palace float the exquisite Angel Devas of the Diamond Heart. These are really the most beautiful of the Devas. Tonight They wear tiaras of exquisite diamonds of which some are seven-pointed, some nine, and some are complete crowns. The great leader is feminine. Her tiara comes to a point at the top and it is quite eight inches high. Her garments are something similar to what you ladies would call 'chiffon' which is heavily studded with a diamond-like illumination which flows from Her body. These Beings of the Diamond Heart are waiting to receive the magnetized thought and feeling forms which the Beloved Morya is projecting forth. They will take them north, south, east and west on Their breath, and it is the intent of Morya to drop a group of them into every Sanctuary and every Reading Room and home where there are students gathered, and We shall all be interested

to see how many will pick up a new idea, nourish it, and bring it forth into form. Morya Himself is checking very carefully tonight to see how receptive the individual consciousness is; how many can feel the gift; and how many will have the perseverance to follow it through.

The breath track is very powerful tonight because Himalaya and Aries Themselves have gone around the world to strengthen it, and Morya's activities will continue through the entire breathing ceremony. He is not using the throat, heart or head centers - just the hands - drawing in with the left and directing with the right. There is is a reason for this that may not be described to you now. Absorb the ideas - follow the breath track - and God be with you.

Beloved Children:

It gives Me pleasure to offer herewith, for your perusal and enjoyment, the commentaries of My Beloved Son, Kuthumi, on the Transmission Flame Ceremonies held in the Retreat of the Beloved Himalaya which is situated in one of the largest of the great mountain peaks that bear His Name, and which was opened to the chelas of the outer world for the first time on the evening of March 20th, 1954. It is My hope that you will tune in as often as possible during this current month to the mighty Master of this beautiful Retreat, and draw into your consciousness the powerful Flame of Illumination and Love Divine which He has drawn forth from the Heart of Helios and sustained there for untold centuries until the Cosmic Moment when the souls of men would voluntarily seek its raising and transmuting essence.

My love and gratitude enfold you individually and collectively, beloved ones, for the dear expressions of love that come like little shining messengers from your hearts to Mine. We might well say that the veil that separates your octave from Ours is being rent - through your own blessed efforts.

Blessings and Love,

BELOVED KUTHUMI'S ADDRESS

Beloved ones, this evening I address you from the Retreat of the Blue Lotus in the heart of the great Himalayas, and I bow before the Presence of God alive within your hearts in gratitude for the blazing Flame of Light which forms a focus over every Sanctuary and home where an activity of this Transmission Flame is held.

Beloved Father of Light! Direct to all mankind, through Me this night, the blessings from the heart of the mighty Himalaya and from the Brotherhood gathered here, following the initial impulse that was set up when this activity came into being two years ago. Charge the beloved students with the full-gathered momentum of Spiritual Illumination, Peace and Tranquility from the heart of this mighty Master; from that of the great Lord Buddha; from My own Beloved Guru, Lord Maitreya; and from every Master Presence who has stood within the Sacred Aura of these majestic mountains, and who, through proximity to the Flame of Light established here, attained Their Victory and Freedom.

Tonight the East and West truly meet! The conscious minds of individuals in both hemispheres weave out of the energies of their lives an immortal bridge and span that girdles this planet around. Tonight is manifest Brotherhood in its truest and most perfect expression. Around that girdle of living Light will flow those blessings that have been confined to the East since first the Ray from the Heart of the Elohim struck into the Universal Light and form began - as far as this planet was concerned.

Here in the Retreat of the Blue Lotus of the Beloved Himalaya is being enacted tonight one of the most beautiful ceremonies that mankind has ever been privileged to witness. It is one of the most sacred Foci of Light on the planet Earth, equal in power to that of the God Meru in Titicaca. Directed through it is the permanent Ray which is half of the cradle - the matrix - around which the planet Earth itself was drawn, and guarded by the mighty Manu of the Fourth Root Race.

There are over ten thousand souls gathered in this great chamber. Most of the religious houses or lamaseries in this vast mountain range are of Herculean proportions, and many thousands of monks and lay brothers belong to these various organizations; so it is not an unusual thing to have mighty audience chambers to take care of these multitudes.

I have asked Our Lord Himalaya if I might describe the Retreat to you, and have received His acquiescence. The entire top of the mountain, which is rather cone-shaped, is hollowed out into seven magnificent chambers arranged in tiers, one above the other, much like steps of stairs. The entrance is well down the side of the mountain even with the lowest room. The chamber at the apex holds the Blue Lotus Flame, and is held sacred from the public.

Now if you will step through the door with Me, passing the lovely pond of crystal clear water in which some blue lotus flowers are floating, we will find ourselves within the lowest chamber, an amphitheatre arrangement, but with the difference that the seating adjustment slopes downward and backward from the front seats instead of

upward. The great Altar is high up in front, and the seats are similar to wide white marble steps with the whole arrangement sloping backward gradually so that it is quite possible for the people on the lower steps (who all sit Oriental fashion) to see the great Altar and everything that goes on - the front seats being the highest and the back ones the lowest.

The front of the Altar is covered with fine gold filigree work, and in the exact center is a large folding door of the same exquisite material and design which may be opened on occasion allowing a view of the room and the great Altar in the next room above. Tonight, for the first time, those individuals who have only earned the right to enter the first or lower chamber will be privileged to see all of the seven great Altar doors open, one by one, and will have a clear view of the main Altar at the summit.

Now the procession is starting at the rear of the lower chamber, with the Beloved Himalaya in an exquisite mandarin robe of buttercup yellow Chinese silk, at the head, with the Beloved Sanat Kumara, the Beloved Lord Buddha, the Beloved Lord Maitreya, the Beloved Kwan Yin, and other members of the Hierarchy, in ordered rank, following. As the procession reaches the Altar of each room, two acolytes, in the same buttercup yellow, hold back the sides of the center doors, and the Great Ones, with Their retinue, pass upward from room to room until They reach the foot of the main Altar at the apex of the mountain, upon which rests an exquisite statue of Lord Buddha over sixty feet in height, which is famous all over Asia, but which has never been seen outside of high initiates until tonight.

In front of the statue of the Buddha stands what looks like a large baptismal font of beautiful purple jade from which rises the Blue Lotus of living Flame.

We have a special treat in store for Us tonight because, as members of the Beloved Himalaya's procession are seated, we shall see the procession of Spring which is usually held in the Audience Chamber of Lord Maha Chohan's Retreat when the Spring Cycle opens, as it does this night (the eve of the 21st of March).

The Beloved Spirit of Spring, whose name is Amaryllis, leads the procession (which starts at the rear of the lower chamber) on the arm of the Maha Chohan, as Representative of the Nature Kingdom, in green and gold apparel. She wears an exquisite yellow robe with an over-train of emerald green which is borne by seven Cherubim, and before them proceed many similar little beings scattering petals and flowers of Spring. Next in line come the mighty Directors of the Elements, the mighty Helios and Vesta in flame yellow, Virgo in fern green, the mighty Neptune in the blue of the sea, and Aries in snow-white. The Guardian Spirit of every flower, shrub, tree and fruit follow. This gorgeous procession passes through every Sanctuary and home where the Transmission Flame is honored tonight.

I must now proceed to My own station, so will say: "God bless you, and Good-night!"

THE PHYSICAL BRAIN

by the Ascended Master Kuthumi

****

The physical brain is the instrument of contact with the world of form. It is a complex mechanism whose intricacies have never been fully understood or discovered by the scientific world of any age since the Great Illuminati, who governed the planet during the Golden Ages, were withdrawn into the Heart of the Great Silence.

In the Discourses by the Master Saint Germain, you will find the statement that the brain is the first point of contact where wrong ideas begin to register within the consciousness of the individual lifestream. To describe the brain from the standpoint of its inner significance and reason for being, we shall consider it as a sun around which are seven rays representing the six senses and the ray to the physical heart, which ray should be, by far, the widest and most powerful channel or conductor of force.

The Divine Mind, which is the full consciousness of all Truth, desired to pour the Flame into the physical heart, and then let that Flame pour up through the Seventh Ray into the brain structure, conveying to the personal self the fullness of all Truth according to the individual's particular study or desire of the moment. In other words, if there were a desire to express more beauty in music, that part of the Divine mind directly concerned with music would flow into the heart and naturally up to the brain structure, thence through the channels of the

senses into the outer world as the manifestation of Perfection from the Divine Mind through the individual so choosing to call it forth.

In other words, the original purpose of the brain structure, with its seven channels of force, was intended to be a radiating sun through which the Divine Mind might pour an ever-widening consciousness of Truth into the Universe. Every genius of art and music, every inventor, and every great statesman who ever served the people in a permanent capacity for good has, consciously or unconsciously, used the brain structure as was originally intended as a conductor of the Divine Ideas, with the Powers of Creation manifesting that perfection for the good of all.

Whence comes the human mind? Are the human mind and human brain synonymous?

Firstly, the channels or rays that proceed from the brain represent the senses: sight, hearing, smell, taste, touch, intuition, and the Divine Ray of God from the heart that chooses to pour through these senses more and more of God's Divine Plan - the senses being the instruments of creation. However, through distortion and inversion of the Law, the senses began to draw into the brain structure the various reports of the world without, and in time became the magnetic pull of imperfect manifestations from the outside world, until the central point where the senses focus in the physical brain became a conglomerate mass of impressions reported to the brain by these faulty senses, and this conglomerate mass became the human carnal mind.

This mind has no reality; it is not true; but

yet it forms the beliefs, concepts and motivating power behind the acts, the thoughts and feelings of the people.

The human mind is not synonymous with the brain which is a physical structure made up of atoms and cells, but it is a mass of thought and feeling consciousness drawn into the brain which then works back through the senses in the outward motion as the controlling power of the life-stream's experience.

This human mind is a powerful creation, which is not only an individual entity, but a mass entity which has become the controlling power of the average human being. The Great Presence endeavoring to direct the lifestream projects the Light Ray into the heart and back up into this whirling, breathing mass of concepts, thoughts and feelings, but the individual, being so enamored of his own thought and feeling processes, is seldom aware of this Voice of the Silence.

In the case of great men and women who have served the purpose of assisting the Divine Plan in nations, the God-Power had to raise that individual to a point where his human mind was stilled and there could be revealed to him the vision of the God Plan. These people usually had little accumulation in the brain structure, and the over-shadowing Presence of the Masters held in abeyance the human thinking until the Divine Vision was revealed within the heart of the intellectual consciousness; then, through the channels provided by the senses, such individuals were given the opportunity of translating the idea into physical manifestation. Here they had to be insulated in an oval of the Christ

Consciousness to make sure that the human mind, of which they were primarily a part, did not flow in and obliterate the great Vision. Further than this, there had to be a tremendous outpouring from the Presence and the overshadowing Masters to give such an one constancy and strength to remain true to this Vision until it was accomplished.

When a great Spiritual Movement is about to take place, or a great patriotic venture, or any mission that will stir a forward movement in the race, this Divine outpouring takes place through the mind of the central figure who is chosen because of his requisites of purity and strength, and in a lesser degree, the same Vision is imparted to many lifestreams who will have the strength and sustaining power of that Vision to its accomplishment. These individuals receive this inner inspiration usually completely unknown to the outer selves until it is started by the leader whom they recognize, and whose Truth they have shared at inner levels. Thus you have a constructive group of lifestreams who have tasted the inner sweetness of a Vision yet unborn, and who can work together in more or less agreement, according to the natural harmony of their beings, to the accomplishment of that Vision.
